Ask Finch: An Overview

Ask Finch supports rapid decision making in high-stakes environments with no room for error. It's an enterprise-grade AI research tool built for serious analytical work. Whether you're assessing policy, conducting competitive research, or surfacing insights from massive document corpora, Ask Finch delivers clear, contextually-grounded, sourced answers -- not just search results.

How to Use

Ask Finch handles the kinds of questions other tools can't. It's designed for real analytical work, including:

QUERY TYPE	QUESTION	HOW ASK FINCH RESPONDS
FACTUAL LOOKUPS	WHAT IS THE QUICK ANSWER?	FAST, PRECISE ANSWERS FROM STRUCTURED DATABASES, KNOWLEDGE GRAPHS OR DOCUMENTS.
MULTI-HOP REASONING	WHY DID THIS HAPPEN?	BREAKS COMPLEX QUERIES INTO STEPS, CONNECTS CAUSE → EFFECT, AND EXPLAINS.
COMPARATIVE ANALYSIS	HOW DO THESE TWO THINGS COMPARE?	GATHERS AND CONTRASTS DATA ACROSS ENTITIES, TIMELINES, OR VIEWPOINTS.
OPEN-ENDED RESEARCH	WHAT IS THE OVERALL PICTURE HERE?	SYNTHESIZES INSIGHTS ACROSS DIVERSE SOURCES, SURFACING TRENDS AND NUANCE.
TIMELINE & EVENT CHAINS	WHAT HAS CHANGED OVER TIME?	RECONSTRUCTS SEQUENCES OF EVENTS TO EXPLAIN HOW SITUATIONS EVOLVED.

Under the hood, Ask Finch uses agentic logic: planning steps, reflecting, and retrying when needed to produce answers with depth and confidence.

Built for Trust & Transparency

Customers use Ask Finch for due diligence, compliance, risk reporting, and other contexts where accuracy is non-negotiable. Every answer includes linked citations to source materials and full traceability to underlying evidence.

FLEXIBLE, FEDERATED RETRIEVAL

Multiple Sources. Maximum Trust.

Web

Pull in the latest updates, news, and public data as needed

Document RAG Pipelines

Ingest and ground responses in your private PDFs, memos, or reports

Finch Knowledge Base

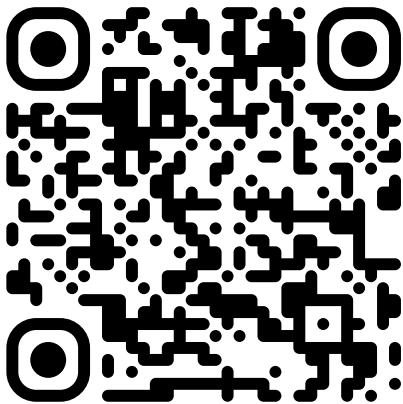

Retrieve insight from Finch's trusted knowledgebase, or your own

Secure APIs

Ability to integrate with preferred client APIs

Enterprise Ready

- ✓ Fully embeddable in your internal tools and dashboards
- ✓ RBAC & permissions control access to documents and data
- ✓ Supports analysts, research teams, and policy professionals alike

Ask Finch gives your team a research-grade AI assistant -- smart enough to reason, grounded enough to trust.

About Finch AI

Superpowered Tools for Analysts.

At Finch AI, we think like analysts. So we build tools that accelerate their workflows, that never get tired, and that dramatically improve outcomes. Staffed with data scientists, PhDs, former analysts and long-time defense and intelligence partners, every one of our innovations centers on turning human-generated text into something a machine can understand quickly, accurately and at-scale – and that an analyst can trust.
