Products

GaliGeo

SALESFORCE ISV

In an increasingly unpredictable world, making the most of location information within data is a make-or-break issue for the efficiency of all organisations. Galigeo helps organisations improve the efficiency of their business thanks to software that combines mapping expertise and predictive modelling.

Using Galigeo mapping solutions, decision-makers view, analyse and act directly on operational databases (business applications, BI, CRM, etc.). Users focus on their business industry value (retail, distribution, marketing, security, etc.) and not mapping implementation issues.

- Location Analytics Platform
- Salesforce Efficiency
- Geomarketing

JobSuite

SALESFORCE ISV

JobSuite is a comprehensive project management application designed for marketing teams that create or manage content. Track tasks, costs, resource loads, collaboration, time, approvals and more, in one cloud based app hosted on the Salesforce platform.

Federal, State and Local governments can now benefit from the same cloud based tools used in the private sector. JobSuite is hosted on the salesforce platform which means your team can utilize the most modern technologies available today, in a safe and secure cloud based environment, to work from anywhere.

The TrackIt team has 25 years helping marketing teams implement software to solve problems. Many teams have tried to implement project management software and failed. We have the experience to help you with customization and implementation.

- Features and Functionality

Products

Lucidchart

SALESFORCE ISV

Businesses around the world are under immense pressure to adopt digital technologies that alter how work gets done, what gets built, and how they support customers.

In order to make agile, impactful changes, companies must cut through the clutter, complexity, and confusion of the current state of their business. Otherwise, you'll be inundated with roadblocks that make it impossible to innovate at the speed and with the quality necessary to stay relevant—and competitive—in today's markets.

- Lucidchart
 - Lucidchart is the intelligent diagramming application that brings teams together to make better decisions and build the future.
- Lucidspark
 - The virtual whiteboard that connects teams so they can bring their best ideas to life
- Lucidscale
 - Lucidscale is the cloud visualization solution that helps organizations see and understand their cloud environment.

Products

Resource Hero

SALESFORCE ISV

Resource Hero was spawned from the resource planning and time tracking challenges at Local Wisdom, a digital agency that works with clients to find and implement digital solutions ranging from web, mobile, Intranet. It was easy to know how busy everyone was when it was a team of 8, but as the company grew to 40+ people, it became monumentally more difficult.

Resource Hero co-founder and Local Wisdom managing partner, Pinaki Kathiari researched a variety of solutions. Going from spreadsheets, to Google Docs, to researching digital services, there was no simple collaborative solution that worked around the business problem. Without a solution in sight, we decided to build our own.

- Resource Planning
- Time Tracking
- Project Health Tracking
- Powerful Reporting
- Resource Management
- Quotes & Invoices
- Customizing to your Salesforce

Salesforce Maps

SALESFORCE ISV

Salesforce Maps makes it easy for companies to visualize critical data and surface the insights necessary to improve field operations and drive revenue growth.

Embedded inside the World's #1 CRM, Location Intelligence transforms business processes across Sales, Service, Marketing, Analytics, and more. Companies are able to see more customers efficiently — when and where it's most impactful.

Teams become more productive as they transform the way they work, and employees are happier as location intelligence makes their daily work easier.

- Optimize routes, prioritize schedules, and win leads
- Take planning out of spreadsheets
- Get field visibility anytime, from anywhere
- Transform every business function with fast, agile location intelligence

ShareMethods

SALESFORCE ISV

No more hard-to-manage emails overflowing with attachments. No more overly complicated, cost-prohibitive software. ShareMethods represent an inexpensive, easy-to-use platform that has many of the features that enterprise products contain, without the complexity of deployment or the costs.

ShareMethods provides richer functionality, a more user-friendly interface, and no need for a webmaster or IT staff to maintain the site. In addition you receive superior document management and collaboration capabilities — all for a low monthly fee. And customers can be up and running in minutes or hours, not days or weeks.

Working Together. Smarter.
