

Okta for Education

Okta helps educational institutions around the world run more efficiently and improve the student, staff experience.

Education institutions are charged with some of the most important work in the world: inspiring and teaching the next generation of leaders. Great missions deserve the best technology. That's why Okta makes the world's best identity solutions accessible to schools and universities.

The Okta Identity Cloud connects all your people – students, staff, partners, and alumni – to any technology, making it easy to manage cloud apps, custom apps, mobile apps, on-prem apps, laptops, desktops and mobile devices. From Single Sign-On to Advanced Server Access, the Okta Identity Cloud helps you modernize your IT infrastructure, protect against data breaches, and reduce friction across your school system.

Solutions for Student, Staff and Alumni Identities

Use Okta's out-of-the-box functionality to provide seamless access for your extended ecosystem of staff and partners or leverage Okta's user management, authentication and authorization APIs in your own student and alumni-facing applications.

Modernize Education IT

Decades-old legacy technology with heavy maintenance costs and increasing cybersecurity risk have left institutions in need of a change. Learn how Okta can help modernize your school's IT.

Automate the Student Lifecycle

Education institutions have a highly complex user base – across students, staff, alumni, and more – to manage and provide access to hundreds of applications. Learn how Okta can help automate access across your school's user base.

Protect and Enable Students and Staff

The adoption of mobile and cloud means that we can no longer have a network perimeter-centric view of security. Explore how Okta can help securely enable access for all your school's users regardless of their location, device or network while mitigating common identity attacks such as phishing.

Build Secure, Seamless Student Experiences

Whether you're building a new student-facing portal or unifying a constellation of existing services, Okta makes web and mobile access secure, compliant, and frictionless.

Connect to Thousands of Apps and Services

Special Pricing for Education

Okta offers special pricing for education institutions across its product suite of workforce and student/alumni identity solutions. To learn more, contact our team at sales@okta.com.

Single Sign-On

Free your people from password chains. A single set of credentials gives them access to enterprise apps in the cloud, on-prem, and on mobile devices.

Lifecycle Management

Automate user onboarding and offboarding with seamless communication between directories, HR systems, and cloud applications.

Multi-Factor Authentication

Secure user access to apps, systems and devices with a robust policy framework, a comprehensive set of modern second-verification factors, and adaptive, risk-based authentication.

Universal Directory

Deploy a flexible, cloud-based user store to customize, organize, and manage any set of user attributes. Universal Directory also allows you to securely master in Okta or from any number of sources, including AD or HR system.
