## **Company Overview**

### **What is Semperis?**

For IT and security teams charged with defending hybrid and multi-cloud environments, Semperis ensures the integrity and availability of critical enterprise directory services at every step in the cyber kill chain. The world's leading organizations (representing more than 50 million identities) trust Semperis to protect their identity infrastructure from cyberattacks, data breaches, and operational errors. Purpose-built to secure hybrid Active Directory environments, Semperis' Gartner recognized patented identity threat response and detection (ITDR) technology cuts ransomware recovery time by 90 percent.

Semperis is headquartered in Hoboken, New Jersey, and operates internationally, with its research and development team distributed between San Francisco and Tel Aviv.

### **What is Semperis' mission?**

At Semperis, we understand that the impact of cyber war reaches far beyond the business arena and into society at large. Our mission is to empower organizations to make the right decisions without putting themselves at risk of operational disruption, loss of revenue, or complete shut-down. Being able to say "no" to ransom and blackmail demands makes us all safer.

## What sets Semperis apart?

Semperis is the only provider of solutions purpose-built by identity security experts for protecting Active Directory— the #1 infrastructure attack vector in 90 percent of breaches— before, during, and after an attack. Leading analyst firms (notably Gartner) have called out the need for AD-specific solutions to address the increasing attacks on identity systems. Semperis solutions and services are developed by and delivered by Active Directory experts with extensive experience in uncovering and addressing AD-specific attack tactics, techniques, and procedures (TTPs). Semperis solutions and services have evolved from our years of experience with Microsoft technologies.

Cybersecurity is top priority for Education. Help your customers secure AD and fight cyberattacks!

Uncover and close AD security gaps by running a free scan with Semperis Purple Knight.
