Carahsoft + Symantec Cybersecurity for State, Local & Education (SLED)

Carahsoft: Symantec's Dedicated SLED Cybersecurity Partner

State, local and education agencies are being asked to strengthen cybersecurity while operating with limited budgets, lean IT teams and growing technology demands. Whether protecting a school district, county government, municipality or statewide agency, organizations need security solutions that are both powerful and practical to deploy.

As Symantec's dedicated State, Local and Education (SLED) cybersecurity partner, Carahsoft helps make enterprise-grade cybersecurity more accessible to organizations of every size. Through SLED-specific licensing with government and education pricing and discounts, dedicated support, an ecosystem of trusted implementation partners and deep public sector expertise, Carahsoft helps agencies simplify the path to enterprise-grade cybersecurity. From solution evaluation and procurement to implementation, onboarding and ongoing technical support, Carahsoft is a trusted partner at every stage of the customer journey.

Solution Overview

- **Endpoint Security:** Protect desktops, laptops, servers and mobile devices with AI-powered prevention, detection and response capabilities that help stop attacks before they disrupt operations.
- **Data Loss Prevention:** Safeguard sensitive information wherever it resides or travels by monitoring data movement, enforcing security policies and helping prevent accidental or intentional data loss.
- **Network Security:** Defend users and networks with comprehensive web and network protection that helps identify threats, secure internet traffic and reduce cyber risk across on premises and cloud environments.

Why Carahsoft?

Built for SLED

Backed by decades of experience serving the public sector, Carahsoft combines deep SLED expertise with specialized resources designed to help agencies strengthen cybersecurity:

- Government and education-specific licensing model with SLED pricing and discounts
- Simplified procurement through established SLED contract vehicles and authorized reseller partners
- Dedicated Symantec licensing specialists, pre-sales engineers, implementation partners, and customer and technical support
- Simplified procurement backed by U.S.-based government experts
- Access to a trusted ecosystem of implementation partners that provide customization, deployment and specialized technical services

Enterprise-Grade Security Without Enterprise Complexity

Backed by decades of experience serving the public sector, Carahsoft combines deep SLED expertise with specialized resources designed to help agencies strengthen cybersecurity:

- Government and education-specific licensing model with SLED pricing and discounts

- Simplified procurement through established SLED contract vehicles and authorized reseller partners
- Dedicated Symantec licensing specialists, pre-sales engineers, implementation partners, and customer and technical support
- Simplified procurement backed by U.S.-based government experts
- Access to a trusted ecosystem of implementation partners that provide customization, deployment and specialized technical services

Enterprise-Grade Security Without Enterprise Complexity

Symantec cybersecurity solutions help agencies reduce complexity by bringing together endpoint, network, email, identity, information and cloud security into a unified solution.

Prevention-First Security

Symantec's prevention-first approach helps agencies stop threats before they occur. This reduces the workload on security operations teams while improving threat detection and response.

Built Around Your Environment

Flexible deployment options and open integrations allow Symantec cybersecurity solutions to fit into existing cloud, on-premises and hybrid environments, allowing agencies to strengthen security without replacing the tools they already rely on.

Symantec By the Numbers

Trusted Across SLED

- **1,500+** SLED customers
- **500,000+** SLED endpoints protected
- Trusted by whole of state entities like New York Department of Education & Department of Information Technology with endpoint & network protection
- Extensive Federal, State, Local, and Education customer footprint

Dedicated Customer Support

- **2,000+** support cases handled annually
- Support for **51** Symantec cybersecurity products
- **22** dedicated support engineers
- **A-rated** service based on Symantec scorecard metrics

Your Public Sector Cybersecurity Partner

From licensing and procurement to implementation, technical support and customer success, Carahsoft provides agencies with a trusted partner dedicated to helping them get the most from their cybersecurity investment.
