

The Case for Federal DevOps

Agencies who adopt a DevOps approach bring their teams together to innovate and produce better outcomes.

The US Government lost **\$32B** to failed IT projects in 2017.

Implementing
DevOps strategies
can help

78%

of Agencies believe
implementing DevOps
strategies will help their
agency innovate faster

60x

fewer failures with
solutions delivered 30x
more frequently

75%

of agencies already
using DevOps say it
reduces cost and risk
of project failure
