www.humansecurity.com

HUMAN disrupts online fraud and abuse on web and mobile apps and APIs. Our all-in-one Human Defense Platform features an award-winning suite of solutions to protect education platforms from cyberattacks, including account takeover, web scraping, and digital skimming. We deploy a modern defense strategy to not only stop real-time threats, but also execute responses that increase the cost to bad actors and reduce the cost of collective protection. This disrupts cybercriminals' mission, deters future attacks, and preserves trusted operations.
