Learn how [Princeton University](#), [Dartmouth College](#), [Penn State University](#), [University of Georgia](#) and more are doing it today!

Delivering Meaningful Digital Experiences for Higher Ed

The world of higher education is facing unprecedented transformation driven by evolving technology. The methods for attracting students, and maintaining solid relationships with them throughout their educational journeys and beyond, are shifting rapidly. Acquia has built and maintained

Today, both current and potential students expect access to the information and services they want, when they want them, on the platforms of their choosing. The ability to meet those expectations will be key to the success of any higher education institution.

While technology has created challenges for the world of higher education, Acquia's innovation and strategy can help you catch up, and keep pace, with today's students.

Acquia's digital experience platform is powered by the open source project Drupal - the most respected CMS in Higher Ed. Together, along with a massive partner ecosystem, are helping some of the best and brightest institutions to achieve the following:

- Deliver students the right content on the right channel at the right time
- Empower developers & content creators with easy to use, low-code technology
- Deliver personalized customer experiences to acquire and retain new students
- Ensure governance and unify branding at scale across sites
