# Virtual Collaboration Software for Microsoft Teams

Get More Done Together

## Empower your team

Increase cross-functional collaboration and encourage diverse thinking with less technical friction.

## Nurture your culture

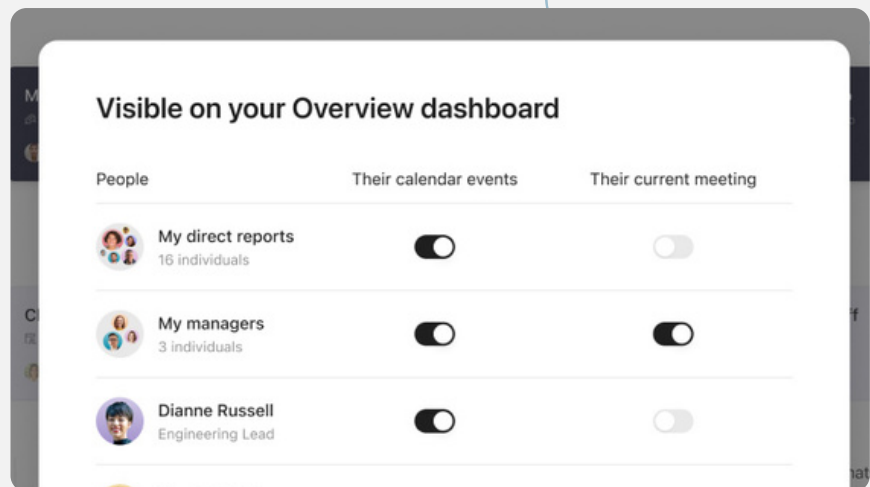

Reduce stress for those working a hybrid or remote schedule without losing the connectivity and culture benefits of the office.

## Work how you like

Alleviate calendar explosion by making it easier for remote teams to host or join ad-hoc conversations.

## See what's happening

Customize who and what you can see. Your Overview dashboard shows you what's happening now and keeps you up to date with colleagues without jumping to Outlook.

## For Leaders

Foster a problem-solving culture. Encourage your team to assemble as necessary to tackle whatever needs tackling.

Help at the right time. Break down silos and enable distributed teammates to see, help, and engage with each other's work seamlessly.

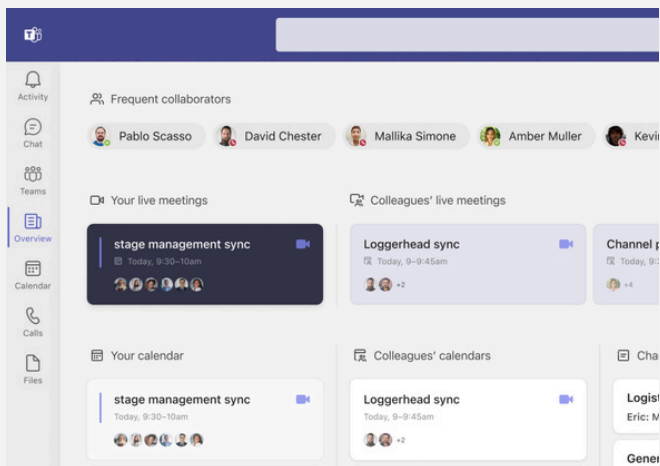

Build a sense of trust. Visibility leads to accountability, and accountability leads to trust. It all goes hand-in-hand!

## For Teammates

Contribute at the right time. See where your key colleagues are to check in, join, or contribute.

Make yourself available. Ensure your key colleagues can connect with you at the right time and see what you're working on, so they can help.

Work together naturally. Align your efforts and tasks with what your key colleagues are working on so that you can help each other fluidly.

Everything you need, now in one single view
