Pop-up Test Clinics

Reacting with a Sense of Urgency in Times of Peril
The world has been hit with the most devastating pandemic in recent history - devastating economies, clearing out stores, and spreading fear and anxiety on a global scale. We’re in a race to staunch the spread, to protect those that need it most, and deliver support to those that are battling the virus on the frontlines: our healthcare workers and their systems.

Facilitating COVID-19 tests has introduced even more complexity as healthcare officials try to limit potential virus carriers from congregating in emergency rooms and doctor’s offices. Instead, make-shift tents and drive-by testing facilities are popping up in many cities and towns to test greater portions of the population without putting them in harm’s way.

These pop-up facilities require connectivity to the cloud in order to access patient records. Often there is not convenient connectivity or a circuit anywhere near these tent locations. But, using VMware SD-WAN, healthcare workers would simply use an LTE-enabled SD-WAN appliance or one with a USB port to connect to a Cradle Point LTE device to connect to the internet and gain reliable and secure access to the cloud and hospital datacenters.

How You Can Empower Your Team
To help organizations quickly empower a remote digital workforce, VMware is introducing the VMware SD-WAN Work @Home free trial offering, which provides end user hardware and hosted services using one of the following Work @Home bundles:

- Up to 100 VMware SD-WAN Edge 510/Edge 510-LTE for up to 90 days with Horizon or VMware Cloud on AWS
- Up to 50 VMware SD-WAN Edge 510/Edge 510-LTE for up to 60 days

Both bundles come with the following:

- Hosted VMware SD-WAN Orchestrator and Hosted VMware SD-WAN Gateway
- Secure connectivity to the enterprise data center
- Three hours of professional service for existing customers or six hours for new customers

To schedule a meeting or discuss how VMware can assist you quickly, please email or call our dedicated VMware Team at vmware@carahsoft.com or 888-686-9273.
