# NO NEIGHBORHOOD LEFT BEHIND! ENABLE GIGABIT TO MILLIONS IMMEDIATELY

**Fiber-Hybrid  
Networking.**

**Because it's time  
to finish the job.**

The first wave of fiber deployment is now done, accommodating affordable and easy to reach locations. Now it's time for the next wave to connect the harder to reach locations, where the 2nd generation of fiber-hybrid networks use both fiber and gigabit speed copper to provide fiber-grade connectivity quicker and much more economically.

**Actelis**

# CONNECT MORE HOMES & BUSINESSES

## Flexible Solutions For Immediate Fiber-Grade Connectivity

### LONG REACH ETHERNET SERVICES

- Connectivity to your hardest to reach locations
- Fiber-grade performance over bonded twisted pair
- Symmetrical user bandwidth
- High speed Ethernet services out 10+ miles
- G.SHDSL based ethernet
  - Mobile, 5G, Wi-Fi, Small Cell, Business Ethernet

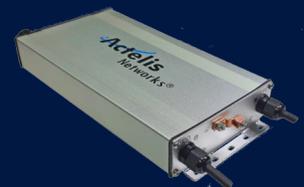

### LAST MILE FIBER SOLUTIONS

- Instant gigabit connectivity over your existing wiring
- Bridges the gap between the fiber point and the out of fiber reach building
- Gigabit connectivity throughout the building without the unnecessary construction
- G.hn, G.fast, VDSL 35a/17b
- Seamless PON Extension

### BROADBAND AMPLIFIERS

- Enable high speed premium services over longer distances
- Cost effective delivery of broadband
- Downstream improvements of greater than 100%
- Interoperability with various DSLAM and CPEs
