

### Efficient and Cost-Effective Cyber Resilience with Commvault

Government agencies face difficulties managing vast amounts of data, with the most stringent security requirements, while operating under tight budget constraints. Commvault offers a cyber resilience solution that can significantly enhance efficiency and reduce costs all while providing leading data security technologies, automated intelligence, and rapid recoverability in the face of advanced cyber threats.

- Unified Platform:** Commvault consolidates backup, recovery, archiving and data protection into a single user-friendly platform, reducing complexity and streamlining operations.
- Automation:** Customizable automated workflows handle routine tasks, freeing IT staff to focus on strategic initiatives and reducing the risk of human error.
- Scalability:** Commvault's flexible architecture supports on-premises, cloud and hybrid environments, allowing your agency to scale as needed without incurring unnecessary costs.
- Advanced Data Protection:** With advanced indexing and rich security built-in, agencies ensure data is always safe and recoverable, minimizing cyber threats, downtime and potential financial losses.
- Cost-Effective Storage:** Built-in deduplication and compression technologies optimize storage usage, while tiered storage management moves less frequently accessed data to more cost-effective solutions.
- Compliance and Governance:** The only FedRAMP High and DODARMP solution ensuring data management practices meet regulatory requirements, remediate data spillage, avoid costly fines and maintain public trust.
- Data Insights:** Advanced analytics provide valuable insights into data usage and performance, enabling more informed and efficient decision-making.
- Support:** Robust support and built-in resolution guidance ensures quick issue resolution and optimal use of the platform.

By adopting Commvault, your agency can achieve cyber resiliency and an automated, secure, cost-effective data management environment, enhancing your ability to serve the public.

# Efficient and Cost-Effective Cyber Resilience with Commvault

Government agencies face difficulties managing vast amounts of data, with the most stringent security requirements, while operating under tight budget constraints. Commvault offers a cyber resiliency solution that can significantly enhance efficiency and reduce costs all while providing leading data security technologies, automated intelligence, and rapid recoverability in the face of advanced cyber threats.

**Unified Platform:** Commvault consolidates backup, recovery, archiving and data protection into a single user-friendly platform, reducing complexity and streamlining operations.

**Automation:** Customizable automated workflows handle routine tasks, freeing IT staff to focus on strategic initiatives and reducing the risk of human error.

**Scalability:** Commvault's flexible architecture supports on-premises, cloud and hybrid environments, allowing your agency to scale as needed without incurring unnecessary costs.

**Advanced Data Protection:** With advanced indexing and rich security tools built in, agencies ensure data is always safe and recoverable, minimizing cyber threats, downtime and potential financial losses.

**Cost-Effective Storage:** Built in deduplication and compression technologies optimize storage usage, while tiered storage management moves less frequently accessed data to more cost-effective solutions.

**Compliance and Governance:** The only FedRAMP High and StateRAMP solution ensuring data management practices meet regulatory requirements, remediate data spillage, avoid costly fines and maintain public trust.

**Data Insights:** Advanced analytics provide valuable insights into data usage and performance, enabling more informed and efficient decision-making.

**Support:** Robust support and built in resolution guidance ensures quick issue resolution and optimal use of the platform.

By adopting Commvault, your agency can achieve cyber resiliency and an automated, secure, cost-effective data management environment, enhancing your ability to serve the public.
