Army ELA Distribution Guide

"Above the Line" Products

These products are included as part of the Army ELA, and may be downloaded at no up-front cost, upon Gov't approval. Note, there is a capped quantity of each license, and once those amounts are reached, organizations will then be required to purchase these licenses through their normal Army Contracting process. The Support and Subscription - SnS (maintenance) for these licenses will be automatically rolled into the Army ELA, and they will be part of the Major Commands/organizations next out year Sustainment Bill.

- vSphere Enterprise Plus
- vCenter Server Standard
- vCloud Suite Enterprise
- Workstation Pro
- vSphere Enterprise Plus w/ Security
- Site Recovery Manager Enterprise
- vRealize Suite Enterprise
- vRealize Network Insight Enterprise

The Army is utilizing the CHESS License Tracker for Software (LTS) for the request and G6 and G8 approval process. The CHESS LTS is now available to the Army on CHESS IT e-Mart: https://chess.army.mil/Static/LTS_OVR

"Below the Line" Products

Every other product not included on the above list can also be sold to the Army through normal Army contract channels.

Training

We offer a variety of self-paced VMware on demand training courses that include hands-on and interactive, simulated labs. Training requests are submitted using the Army CHESS LTS portal (https://chess.army.mil). Requestors must have a CHESS account to use LTS. If you do not have an account, you can register directly on the CHESS site.

Renewals

All licenses that had SnS on or after 1 April 2013 is included in the Army ELA and cannot be renewed outside of the ELA. All new licenses, including "Above the Line" downloads and/or net new "Below the Line" procured licenses will automatically be rolled into the ELA, and be covered maintenance wise. The renewal costs will continue to be billed at Command level, and will be completed by the CIO G6.
