

Cybera and Carahsoft Canada AWS Award

On January 30, 2026, Carahsoft Canada, with Rackspace, was awarded a contract with Cybera to expand and simplify access to Amazon Web Services (AWS) for Alberta and Saskatchewan's universities and education institutions.

Through the Cybera & Carahsoft Canada AWS Award, institutions now have a faster, simpler, and more strategic way to access AWS & AWS Marketplace - the world's leading cloud platform for research, data, and digital transformation.

The Cybera & Carahsoft Canada AWS agreement was awarded through a competitive selection process with input from public and private institutions. Post-secondary institutions (universities, colleges), K-12 school districts and boards, Libraries, and Research facilities and labs of Alberta now have access to:

- Direct technical support from AWS
- Unlimited master payer accounts
- End User control of master payer root credentials
- Programmatic access to billing data for third-party tools
- No-cost FinOps support
- Discounts on AWS services, including Marketplace
- Transparent billing and terms
- Proactive, customer-focused support

How to get started:

Beginning March 1st, 2026, Contact Carahsoft to begin onboarding

Email: AWS-Cybera@carahsoft.com

1. Initial discussion to review your institution's goals, use cases, and timeline.
2. Provide Period of Performance, metrics/budget, and receive quote
3. Sign Carahsoft Order Form
4. Specify billing preferences:
 - New account or Transfer?
 - Monthly Billing or Pre-Paid?
5. Begin work in new account or initiate Account Transfer Process
