SEWP V has earned OMB’s “Best-In-Class” GWAC designation.

The Best-in-Class (BIC) acquisition designation identifies government-wide contracts that are well-managed, vetted and recommended, satisfying key criteria defined by OMB.

Getting BIC designation is a rigorous process. Multiple requirements have to be met to obtain designation. The one that gets the most attention is the collection of transactional data – i.e. prices paid.
ADVANCED FEDERAL IT SOLUTIONS TO ENABLE INNOVATION, SECURITY & AGILITY

We make it possible for our clients to harness the limitless power of IT to drive their business forward. By taking the time to deeply understand how your business works we architect transparent, enduring technology solutions that meet your immediate needs – and prepare you for tomorrow.

Whatever You Want, SEWP Simplifies Buying ICT

I want **AGENCY REPORTS** documenting our purchasing.  
See pages 6, 8, 18.

I want a virtual **AGENCY CATALOG** that is unique to my Agency’s IT wants.  
See pages 6, 8, 16.

I want a cloud provider who is **FEDRAMP COMPLIANT**.  
See pages 8, 32, 46.

I want help using the **MARKET RESEARCH TOOL**.  
See page 26.

I want the **LOWEST PRICE** possible.  
See pages 32, 37, 42.

I want help to solve a **CONTRACT HOLDER ISSUE**.  
See page 48.

I want **SEWP TRAINING** for a variety of users and contracting officers.  
See pages 4, 50.

I want assistance to formulate a **STRATEGIC PURCHASING** plan.  
See pages 6, 8, 14.

I want to make **CREDIT CARD MICROPURCHASES**.  
See pages 7, 20.

I want to make sure of the **SUPPLY CHAIN** for purchases.  
See page 8.

I want to track my **ORDER STATUS**.  
See page 26.

I want help using the **QRT TOOL**.  
See pages 28, 46.

I want to know the **EPEAT** rating for the products I want.  
See page 7, 30.

I want to check **CONTRACT HOLDER PERFORMANCE**.  
See page 48.

I want to buy **ICT SERVICES**. Can I?  
See pages 4, 6.

I want **CUSTOMER SERVICE** that puts me first.  
See pages 7, 10.

I want to make sure products purchased are **508 COMPLIANT**.  
See page 7.

I want to buy desktops using a **GOVERNMENTWIDE STRATEGIC SOURCING (GSS)** vehicle.  
See page 22.

I want a **Q&A TOOL** with Contract Holders during the purchasing process.  
See pages 28, 46.

I want to check **CONTRACT HOLDER PERFORMANCE**.  
See page 48.
SEWP V: Federal IT Procurement...Simplified

The question is not whether an ICT product is on SEWP; the question is what do you want to buy?

Product Based Services

These are basically any services that a customer needs that have a product basis to them. It doesn’t have to be a specific product.

Examples are support for AV systems or network optimization services or even a consultant to help determine how best to use existing IT products.

The key word is “product”. As long as there is basis of a “product” in that requirement, it will now be within the scope of SEWP.

What services CAN’T you buy on SEWP?

There are only two types of services you cannot get on SEWP V.

1. General support. You can’t hire general support like a business analyst to help you change your business processes at your Agency. There is no product involved.

2. General software development. If someone wants to build a brand new software package, those services are not on SEWP. There is no existing product involved.

If you are uncertain if a product or service is in scope, send your requirements to help@sewp.nasa.gov for review.

SEWP Ingredients

• Multi-award GWAC (Government-Wide Acquisition Contract)
• Open to all Federal Civilian and Defense Agencies and their approved Contractors
• OMB Authorized Executive Agent
• Latest commercial Information and Communications Technology (ICT) products and services
• More than 15 million CLINs and over 6.5 million unique part numbers
• 143 pre-competed, vetted Prime Contract Holders
• Contract Holders include more than 110 small businesses:
  • Service Disabled Veteran-Owned Small Businesses (SDVOSB)
  • Woman-Owned Small Businesses (WOSB)
  • Economically Disadvantaged Woman-Owned Small Businesses (EDWOSB)
  • HUBZone Small Businesses
  • Veteran-Owned Small Businesses (VOSB)
  • Small Disadvantaged Businesses (SDB)
• Low Prices (generally below GSA schedule prices)
• Web tools make buying easy
• EPEAT Ratings for products/services
• EARP (Established Authorized Reseller Program) ensures Supply Chain integrity
• Customized Agency Catalogs
• Government-Wide Strategic Purchasing (GSS)
• Micropurchasing for Desktops/Laptops (under $10,000)

SEWP is by your side through every step of the IT buying process.

Contact the SEWP FASST Team and “pick our brains” for policy or procurement guidance on how to more efficiently buy Information & Communications Technology (ICT).

**Always Looking To Do More To Serve Agency Customers**

**Joanne Woytek**
SEWP Program Manager

We are constantly targeting new ways to support customers and their procurement or contracting office beyond what we currently do. We get requests from Agencies all the time asking for specific information about products that can or can’t be purchased; or can we provide specialized products or processes unique for that Agency; and in general, more targeted assistance with their IT needs.

To address these expressed needs, customers can use SEWP’s strategic platforms, which include Agency Catalogs, Agency specific web pages and Agency specific reporting capabilities.

We also talk with senior executives who ask: How do I buy products and services for my Agency? That requires much more than an email; that requires meetings and forging a working relationship via our Federal Agency Strategic Support Team (FASST).

**Get EPEAT Rated Products**

**Cathy Shry**
Q&A Reports Manager

As products are put on the EPEAT registry, we make sure we match that part number exactly and we have the correct rating — Gold, Silver or Bronze.

If they don't match, we do the research and go back to the Contract Holder to make sure the correct manufacturer part number is in the system and on the EPEAT Registry. When customers use the QRT tool, they put in their product information and find out the EPEAT rating.

The GSS catalog also has that information. We work hard to make sure that the information is accurate and available for the customer.

**SEWP: Your Solutions Contract**

**Darlene Coen**
Deputy Program Manager

SEWP is called Solutions for Enterprise-wide Procurement for a reason. We are a solutions contract. You can do a full solution with services — as long as the service is product-based. Some don't know that we do much more than we did in the past.

If you can tie it back to an IT product, it doesn’t matter whether you bought it off SEWP, you can use SEWP for engineering services, site planning or a Help Desk. SEWP doesn’t do general services because you can’t tie back to a product.

The SEWP 0.375% fee applies to services as well whether you buy product services or solutions. The bottom line: people know a good thing when they see it.

**Understand The Ecosystem, Improve The Process**

**George Nicol**
Contract Holder Relationship Manager

One of our goals is to improve the acquisition process; our goal is to engage with manufacturers and distributors, the suppliers, the service providers and other members of the supply chain to understand the full ecosystem of IT acquisition and improve the process for the customer.

We want to help Agencies better understand how industry is here to support their mission and their goals. One new initiative is standing up our Industry Team, which will help us get a broader view of the market beyond our Contract Holders; and get a full view of the supply chain and how those companies can work with SEWP.
Unlike the traditional catalog-based contract where requests for products are based on what is available in a catalog, SEWP is a request-based contract vehicle where the catalog is based on customer requests. There is no static catalog to search. SEWP has an on-line, dynamic, constantly updated catalog.

As long as your requirements are within the scope of SEWP, you can send out a Request for Quote (RFQ) or a Request for Information (RFI) for the IT products or services you are looking to obtain. And if the product is not in the SEWP database you can use the Market Request Tool (MRT) to have it added within 24 hours.

All products are in scope, been approved and are already on contract. We have already looked at everything as fair and reasonable. Anybody who has a credit card can go to one of those websites and make a purchase directly from there — without competition. Or you can get 3 quotes, if you want competition and pick directly from those three.

After the order is placed, SEWP checks that the price is reasonable and all information is correct. It's logged into our database; then sent to vendor who fulfills the order and takes the credit card.

Even with oversight, the approval process is fast — usually under 1 hour.

Customers appreciate our live support. Often, they are surprised to talk to a live person.

And using our new Customer Service Support portal, a customer can submit a ticket or send an email inquiring about an existing order or find out about delivery. Also, if a customer needs assistance using the QRT Tool, we will follow up with a phone call to them. We provide walkthrough assistance to customers.

We are the frontlines of customer service. We get the orders, enter them into the database and send them to the Contract Holders for processing.

The bottom line: We help the customer make sure orders are issued properly with all needed information.

SEWP is unique because when a customer goes to the website, they can just click a button and tell Contract Holders who respond that 508 conformance documentation is needed with the quote. Then industry provides an assessment of their product against the conformance standards.

Acquisition people need to be aware of their processes and unless the government is asking for exception, we hold Contract Holders accountable to showing 508 ICT conformance to the 2017 standards.

We help wherever we can to make that information available to customers and provide guidance to OEM or reseller; making them aware of the standards and making sure their products are compliant with new standards.
EXECUTIVE VIEWPOINT

Getting Closer With Our Customers

Joanne Woytek
SEWP Program Manager

On why SEWP continues to grow...
A growing customer base has translated into a growing use of SEWP by Agencies governmentwide. A growing visibility in the IT community, a growing staff (nearly 100) and a growing dollar spent per order — all those elements are the result of a lot of hard work coming to fruition.

A growing number of Agencies are looking to partner with SEWP to purchase more strategically. To help customers, we provide easy-to-use web tools to buy; and then provide them with access to reports tracking purchasing that they can tailor to their unique needs.

On why SEWP has a FedRAMP webpage...
FedRAMP is a prime opportunity where SEWP as a program can be an educator and informer. There was no reason for us to have a FedRAMP web page, but we were seeing confusion among our customers.

It was an opportunity for us to provide information on our website that helps customers with the acquisition process. We show customers a FedRAMP summary; and tell them this isn’t the real FedRAMP page, but here is information you can use and we provide a link to GSA’s FedRAMP website.

I was told anecdotally that it was “cool” that SEWP was doing this! Learn more on page 31.

On EPEAT — meeting specific customer requirements...
SEWP has the best information on EPEAT for customers anywhere, with detailed, verified data. We have a dedicated team that keeps the information up-to-date. We do things in depth; so if the contracts say a product must be EPEAT compliant, we verify it.

The same goes for Supply Chain Risk Management. We verify; we go back to manufacturer and ask for confirmation that a company is approved. Learn more on page 30.

On the growth of Agency Catalogs...
The number of Agency Catalogs has grown with more than 100 catalogs so far. The Agency Catalog puts the power of the SEWP database in the hands of the Agencies. They can specify what they need out of SEWP, not just what we might give them.

We work with individual Agencies helping them set up their Agency Catalog. We set the rules and help them fit it into their process. We help them get started, go through the actual steps with them and make sure they know how to use the systems.

We often get asked: Do you have a template? If we did, it probably would not be the template they need. We need to sit down and talk with them strategically, and work with them to give them what they want. Learn more on page 16.

On Training...
We train 40-50 people a day; 25% are people who were SEWP users, have changed Agencies and want to continue to use SEWP. We train at Agency sites and have training at events such as the National Contract Management Association annual conference.

Training used to be 1½ hours; now it’s more than 2 hours; and we have even developed a 4 hour session. There’s a lot of stuff we go through. Contact us for schedules, details and questions.

Videos and training materials (e.g. SEWP webinars) are the products of a dedicated SEWP Content Team dedicated to providing useful, clearly written information. If you visit the SEWP website you can view a number of short informational videos that are clear, fun and fast-paced. Learn more on page 50.

On the Customer Service PMO...
Everyone is part of the Customer Service team. We all talk to customers either by phone, chat or through our Help Ticketing system. Our frontline responders take care of issues right away and have a knowledge base to help customers usually within the hour, certainly within 1 business day.

The bottom line: SEWP provides a lot of information for our customers they can’t get anywhere else in a timely fashion and an easy way. We are proud for what we are doing for the acquisition world and proud of our successes. Learn more on page 10.

SEWP: Solutions For Enterprise-Wide Procurement

SEWP Mission
The SEWP Program Office manages a suite of government-wide IT products and services contracts that enable NASA and all Federal Agencies to achieve their missions and strategic initiatives by providing streamlined access to critical technologies and solutions.

The Program provides best value for the Federal Government and American taxpayer through innovative procurement processes, premier customer service and outreach, acquisition insight, and partnership with Government entities and Industry.

SEWP Vision
SEWP will provide Federal Agencies high availability access and insight to strategic solutions through utilization of SEWP’s suite of ICT products and services.

High level Agency decision makers will have direct access to their acquisition data to assist with strategic oversight and control of internal ICT acquisition and external supply chain processes.
The success of your agency’s mission depends on two things: people and the tools they have at their disposal. For more than 35 years, our team of experts has transformed technology into complete solutions that advance the value of IT.

As a SEWP V Contractor, Connection® Public Sector Solutions offers professional services, complete lifecycle support, innovative ideas, and the vast purchasing power to:

• Streamline processes
• Reduce costs
• Increase productivity
• Maintain sustainability initiatives

Take advantage of online credit card ordering to make procurement even easier.

Complete IT Solutions and Services

SEWP Customer Support Center

As the Gold Standard, SEWP customer service responds to you within 1-day — often faster.

Visit the SEWP Customer Support Center web page and everything you need to learn about products and services is available here via browse or search.

Dedicated to responding immediately to customers, the SEWP Customer Support Team helps customers make sure orders are issued properly with all needed information. It also manages and provides day-to-day phone, Live Chat and Help Ticket support.

The goal is to serve and solve issues. Three dedicated teams (Customer Support, Order Management, and Contract Holder Relationship Management (CHRM)) have the same mission — to serve customers, solve issues and simplify acquisition.

Muhammad Rehman
Customer Service Manager

Customers appreciate our live support. Often, when get a call from customer they are shocked to talk to a live person. They are not used to getting a live person on phone or chat. So when they contact SEWP and get a quick, live one-on-one response, they appreciate that.

Using our new Customer Service Support portal, a customer can submit a ticket or send an email inquiring about an existing order or find out about delivery.

Also, if a customer needs assistance using the QRT Tool, we will follow up with a phone call to them. We provide walk-through assistance to customers.

We are the frontlines of customer service. We get the orders, enter them into the database and send to the Contract Holders for processing. The bottom line: We help the customer make sure orders are issued properly with all needed information.

SEWP Support Is Always By Your Side 24/7/365

Live Chat

Customers can communicate with the SEWP Program Office LIVE via instant messaging during business hours 7:30am - 6pm ET.

Frequently Asked Questions (FAQs)

Browse or search SEWP FAQs for a wide variety of solutions as well as a glossary of SEWP definitions.

Create A Case (Submit A Ticket)

If you submit a Help Ticket or send inquiries to the Help Line, the information is used to create service tickets in the Support Center. An automatic e-mail reply automatically acknowledges receipt and provides a tracking number.

You can then track the status of your ticket in My SEWP Support, which tracks communications with customers. You can access ticket history at https://support.sewp.nasa.gov.

Forms and Documents

Browse the SEWP library of forms and documents and download SEWP training videos.

Scope and Statement of Work (SOW) Review

Have concerns about an SOW and/or scope of requirements? Get the answer by submitting information to help@sewp.nasa.gov for review and advice.

Quote Issues

If the number of quotes you received is less than expected, SEWP can assist in researching the cause and resolution: If quoted price is higher than expected or otherwise questionable.
Technology solutions you’re going to be **Wild about!**

Wildflower is honored to serve the United States Federal Government, including its National Laboratories, doing so for three decades. We have long-term experience delivering complex technologies and services with a proven record of consistent, successful accomplishments. Our program and supply chain methodologies are a commitment to delivering the highest quality products, service, and support for customers in the public sector.

**Solutions:**
- Unmanned Aerial
- Cyber Security
- Data Infrastructure

- FOCI
- Q Clearance
- L Clearance
- HubZone
- Small Business
- Woman Owned
- Minority Owned

Our SEWP V contracts are Group B NMG15SSD05B and Group C NNG15SC97B
How To Order Using SEWP

SEWP is a “Catalog By Request”, not a “Request By Catalog”.

The internal ordering process of each Agency varies.

The typical process, however, is for an end-user to determine a requirement and generate a purchase request (PR). The PR along with any necessary funding information is sent to that Agency’s procurement office which results in the issuance of a delivery order (DO). Any valid Federal Agency DO form and the associated delivery order number may be used.

The NASA SEWP Program Management Office (PMO) does not issue DO’s — these must be issued through the issuing Agency’s procurement office. The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

Some Agencies have special requirements for issuing IT Delivery Orders. It is the Issuing Agency's Contracting Officers' (COs/KOs) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government Wide Acquisition Contracts.

There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement offices, except as directed through their own internal policies.

Regardless of Agency-specific Ordering processes, visual below outlines the general flow for SEWP orders.

Pre-Order Support
- Assistance on SEWP Processes include step-by-step walk through
- Review Requirements upon request

Order Processing
- Review, process and forward orders and mods
  - Orders/Mods must be sent to SEWP Program Management Office (PMO) via sewporders@sewp.nasa.gov by Government Agency
  - All orders verified by PMO prior to forwarding to Contract Holder

Post-Order Support
- Reconcile and track orders through completion
- Process and post order status data
- Assist with problem resolution

SEWP strives for one business day turnaround in all facets of the program.

0.375% Low Fee
It's a fee you don't see; paid by Contract Holders and included in price.

KG Woltz
IT Operations Manager

There is no static catalog to search. SEWP has an on-line, dynamic, constantly updated catalog.

As long as your requirements are within the scope of SEWP, you can send out a Request for Quote (RFQ) or a Request for Information (RFI) for the IT products or services you are looking to obtain.

And if the product is not in the SEWP database you can use the Market Request Tool (MRT) to have it added within 24 hours.

The Contract Holders will add the items to the contract based on your request and send you back a quote. You can then order the items based on the quote. If you are uncertain about the scope, send your requirements to the SEWP Customer Service team who will perform a scope review.
Today, agencies are in the midst of a major transformation at every level of their IT infrastructure. But where do you start? And how do you divvy up your dollars in an environment where shrinking budgets continually face exploding enterprise-wide demands?

Customers come to Affigent because they believe the way we work helps take the complexity out of their transformation effort.

We don’t rip and replace.

We don’t see the traditional silos of facility, network and systems.

We see your agency and all of its IT assets organically as an integrated whole.

It’s why you can trust us to be the one solution provider with a vision broad enough to help transform your IT enterprise into the seamless, adaptive, on-demand service center citizens and employees can depend on well into the future. Contact us today to learn more.

Get the FASST Advantage

The SEWP Federal Agency Strategic Support Team (FASST) assists Agency CIOs, IT decisionmakers and procurement chiefs with strategic purchasing.

The FASST really plays a role as business advisors at a strategic level. The Team meets with heads of Agencies, CIOs, and others in strategic positions. We ask how you are buying; what your challenges are; and how we can help you move forward in a more advantageous way?

Areas where SEWP has provided assistance include acquisitions with Mobility, Cyber, Emerging Technologies and cloud initiatives.

The FASST can also provide help establishing an individual Agency Catalog and targeted Agency Reports.

Get FASST Now

- The FASST meets with CIOs and Procurement Chiefs to deliver two messages of assistance:
  1. **We listen first.** Our first question is: How can we help your Agency? Then we tell you what we can do for you. Often CIOs and Agencies are wary of using outside contracts because Agencies don’t want to give up control. Using SEWP gives CIOs more control.
  2. **SEWP can be your vested partner.** Don’t look to SEWP to just ‘buy an item’; see SEWP as a tool and a vested partner in your acquisitions of IT and IT related products and services. Come to SEWP for help with your overall acquisition requirements.

Want to learn more? Simply give us an idea of what you are attempting to accomplish. Within one business day you will get a FASST call.

Darlene Coen
SEWP Deputy Program Manager

We meet with Agencies that are not only in a planning mode, but also those Agencies that need some advice about their current situation. The goal is to provide government with information on how to purchase in the most efficient way rather than wait until they have problems.

Half of our work is coming from customer demand where we hear from Agencies who want to pick our brains for policy or contractual guidance on how to be better buyers in the government arena.

Some Agencies come to us and tell us they are going to use SEWP. They describe their scenario, often wanting to consolidate the number of contracts they have. They are particularly interested in Agency Catalogs and how they work and how they can get started.

The success of SEWP has been amazing. And it’s constantly being updated with services and tools such as the Agency Catalog. The bottom line: people know a good thing when they see it.
Walker and Associates’ comprehensive solutions set us apart by enabling Federal Customers to lower network costs through consolidation and investment protection, as well as provide the solutions for speed of mission deployment through value-added services.

Walker, a family owned and operated company since 1970, has partnered with Ciena® to deliver outstanding next generation communication solutions.

SOLVING TOMORROW’S PROBLEMS TODAY

Ciena Solutions for Government

We build products and solutions focused on the belief that the network needs to transform from a rigid, inflexible, static resource to an intelligent, secure, dynamic, and mission-centric strategic tool.

With the growing adoption of cloud-based applications, today’s network designs must be intelligent, resilient, and flexible to respond to application needs and provide security to the most sensitive data.

Walker and Associates is a trusted SEWP partner offering full solutions for your network modernization. Reach out to us today at walkerfirst.com or call 1-844-WALKFED

(1-844-925-5333)
Virtual Agency Catalogs Individualize Buying

The cool thing is that government doesn’t have to fund this mechanism until an Agency actually buys something. Like Amazon, you are not going to pay in advance; it stays in your cart.

An Agency Catalog is a virtual, dedicated and pre-competited ordering vehicle populated with products and/or services, as defined within an Agency’s requirements documentation, and as available for procurement through the SEWP V contracts.

Like Amazon, go to the website, see the products, the price, read all about it and if you decided to purchase it you would just put it in your cart.

The products/services identified in the Agency’s requirements are competed among the selected group(s) of SEWP Contract Holders, resulting in two or more Contract Holders selected for ongoing competition and fulfillment of each order through the life of the catalog.

Catalogs provide Agencies with speed and flexibility, offering ‘point and click, on-demand purchasing’ (similar to an e-commerce website), with no restrictions on the quantity purchased or frequency of usage.

When an Agency’s procurement has some (or all) of the following criteria, an Agency Catalog may be a viable option to consider:

- Known Set of Specifications / Requirement
- Unpredictable Procurement Ordering Cycle
- Unpredictable volume and/or funding of products/solutions
- Standard technology updates
- Multiple ordering locations.

Your catalog sits in a virtual space with everything negotiated and ready to go if they need it, and there is no commitment to buy. There is a lot flexibility.

If you have questions about Agency Catalogs or would like to discuss setting one up for your Agency, please email: help@sewp.nasa.gov.

Darlene Coen
Deputy Program Manager

We try to make it as easy as possible to understand. Like Amazon, customers create a virtual catalog specific to their Agency based on pre-competited and negotiated solicitations and responses. And in this virtual space anyone in the Agency can procure as they need things.

Your catalog is good for 5 years and is based on actual requirements, solicitations, and responses and everything that goes into normal award, such as the FAR, terms and conditions, everything you would need for a procurement.

The cool thing is that government doesn’t have to fund this mechanism until they actually buy something. Like Amazon, you are not going to pay in advance; it stays in your cart.

This is great for Agencies: There is NO requirement to fund this virtual catalog which really helps those Agencies who may have not gotten their budget funding approvals.

Benefits:
1. They only have to do this one time
2. No funding requirement until they buy something
3. No commitment by the government to actually buy anything through this.

When Agencies hear this, they love it. It’s simply the “best offer around”.

Agency Reports
Track Buying!

Reports Track Spending, Trends

Benefit by using SEWP reports to track spending, long-term usage trends, set-aside compliance and to consolidate buying efforts.

Attention CIOs and Procurement Chiefs!

SEWP reporting and tracking capabilities give customers the ability to see what they are spending and buying over the long term. Benefit by using SEWP reports to track spending, long-term usage trends, set-aside compliance and to consolidate buying efforts.

For example, you can compare monthly versus yearly spending. The goal is to let the Agency get whatever data they need when they want it, download it to their systems and see results in summary or detail format.

Reports cover:

- **Product Categorization** — products on contract are categorized for tracking and reporting
- **Item-level tracking** — tracking of Agency level purchase history
- **Purchase history** — customers can request data on program purchases, for example:
  - Product classification data
  - Supply Chain data
  - Easy tracking of requirements
  - Whether purchase match up with their requirements
  - Whether purchasing is helping meet requirements.
  - Energy Star compliant
  - Trade Agreement Act (TAA) compliant
  - Adherence to FITARA and other government initiatives.
  - Total $ spent with SEWP
  - Total $ spend and/or quantities by Product Categories
  - Set-Aside Breakdown (Total spend and % of spend by set-aside)
  - Strategic Sourcing Statistics (Total $ of SEWP spend applied to SS options)

To find out what SEWP can do for your Agency, contact help@sewp.nasa.gov.

Cathy Shry  
Q&A Reports Manager

There is a hand-in-hand relationship between good and accurate data and good and accurate reports.

To make our reports even more valuable, we are establishing a self-service Report Tool where Agencies can come in and pull their Agency data. So, instead of us sending out a standard template reports, customers can come in and pull data however often they want or however frequently. The tool is web-based with login required.

The goal is to automate multiple types of reports, with the convenience of Agencies being able to pull the data themselves and not wait for us to send out monthly reports.

With the new tool, customers can save data and export to their desktop. It empowers Agencies to choose their own data points and pick and choose the elements they think are most important.

FedRAMP and SEWP!

LYME.COM
Use Credit Cards for Under $10,000 Buys

Buy direct because Fair Opportunity is not required for orders less than $10,000.

Contact SEWP Contract Holders directly to request a quote for credit card purchases under the micropurchase limit (typically under $10,000).

The SEWP Credit Card/Micropurchases web page lists all Contract Holders and their contact information for those taking credit cards. Those with a specific company Credit Card Website have their website link included in their listing. (SEWP does not take credit cards; purchases must go through the Contract Holder.)

To obtain a quote, send a Request For Quote e-mail to all SEWP Contract Holder POCs (Clicking this link will open an e-mail already addressed to the SEWP Contract Holders accepting Credit Card Orders).

If you have a suggested or known company or companies (SEWP Contract Holder(s)) from which you would like to obtain a quote, you can contact them directly by e-mailing the Credit Card POCs.

You may also use the Quote Request Tool to receive quotes, if desired, but it is not necessary.

Visit www.sewp.nasa.gov/micropurchase. For any questions or support, please call SEWP Customer Care at 301-286-1478.

Attention Laptop and Desktop Buyers!

GSS systems are available for order now. The most recent version plus the last version will be available. Learn more on page 22.

Theresa Kinney
Deputy Program Manager of Operations

All products are in scope, been approved and are already on contract. We have already looked at everything as fair and reasonable.

Anybody who has a credit card can go to one of those websites and make a purchase directly from there — without competition. Or you can get 3 quotes, if you want competition and pick directly from those three.

After the order is placed, the Contract Holder sends the order to SEWP and we check that the price is reasonable and all information is correct. It’s logged into our database; then sent to vendor who fulfills the order and takes the credit card.

Even with oversight, the approval process is fast — usually under 1 hour. The point is to expedite and keep things moving.

SEWP strives for one business day turnaround in all facets of the program.
Allow Awdata to take your technology to new heights. Focus on your business objectives and let us integrate technology for both today’s needs and tomorrow’s strategy.

Excellence, aligned with your mission

We are committed to supplying clients:
- Industry experience and expertise
- Comprehensive solutions that align IT with business and public sector requirements
- Unsurpassed commitment to customer satisfaction
- Research and Technical teams to assist in building custom resolutions for IT requirements
- Quick response for Quote requests
- Thousands of diverse manufacturers with over a million products in warehouses across the US ready for immediate delivery

Government-wide Strategic Solutions (GSS) for Desktops and Laptops

This OMB policy mandates Federal Agencies use GSS to fulfill the bulk of their desktop and laptop requirements.

To reduce costs and increase value government-wide, a team led by NASA of 25 Agencies identified desktop and laptop configurations that meet Federal requirements for approximately 80% of systems purchased, and also incorporated best practices in spend management.

In October 2015, OMB issued M-16-02: Category Management Policy 15-1: Improving the Acquisition and Management of Common Information Technology: Laptops and Desktops (Download PDF).

This policy mandates the use of GSS for Federal Agencies to fulfill the bulk of their desktop and laptop requirements.

GSS is offered through NASA SEWP, the NIH NITACC CIO-CS, and GSA Schedule 70 (Hardware). It is a collaborative effort to drive down costs and increase value for Federal customers.

Betsy Sirk
GSS Program Manager

GSS provides proven, and forward looking technology — and it is driving the value for Agencies.

**Benefit:** GSS provides streamlined acquisition, with products vetted and terms and conditions that include 508 and EPEAT conformance.

**Benefit:** Better warranty value; 3 year warranty includes keyboard and battery — that’s a big deal. Customer can get extended 4 or 5 year warranties when they buy.

**Benefit:** Terms and conditions mandate products are all new components; and conformance with different regulations are built into using GSS.

**Benefit:** New technology can be infused in to GSS; companies can upgrade offerings if they want to.

**Benefit:** GSS is refreshed regularly — look for ongoing updates that save customers money.

GSS Systems Now Available

GSS systems are available for ordering through the SEWP GSS Catalog. The specifications include:

- Three desktop configurations (small form/all-in-one, mini-tower, high-end)
- Three laptops (laptop, lightweight, high-end)
- Tablet
- Thin Client/Chromebook (Pilot offering)

These robust GSS systems offer many options to meet customer needs, including:

- Enabled security
- Upgraded memory/storage
- Imaging,
- Docking stations,
- Warehousing,
- Asset tagging and more.

All of the GSS systems also follow terms and conditions agreed upon by the workstation Category Team, including EPEAT, Energy Star, Section 508, and Trade Act Agreement Compliant, 30-days or less delivery, and extended warranty options.

The offerings will be evaluated and refreshed every 9-12 months based on customer feedback and industry updates.

Attention Laptop and Desktop Buyers!

GSS systems are available for order now. The most recent version plus the last version are available.
Sterling combines the industry’s broadest range of IT products, paired with objective, experience-based guidance to help agencies efficiently design, procure, deploy, and maintain the solutions they need.

We ensure a secured supply chain and simplified procurement through our wide range of contracting vehicles, set-asides, and Pre-sales engineering support.

From simplified IT products to complex customized solutions, Sterling can meet your agency’s specific needs.
Why Red River for SEWP V?

• Proven SEWP performance and established management team
• Top-level partnerships with leading SEWP V OEMs
• Improve the speed, ease and flexibility with which you can acquire and expand technology capabilities
• Over 1M innovative products and best in class services on contract updated daily
• Access to technology experts with the highest technical certifications and credentials
• Proud Platinum Partner of DellEMC products and solutions

Our SEWP V Contracts include:
• NNG15SC85B (Group C-Small Business) - NNG15SC46B (Group D)

User-Friendly Web Tools Make Buying Easy

From market research to product delivery, SEWP is by your side every step of the way.

Provider Lookup Tool
No Login Necessary
This tool lists all Providers whose products, equipment or services are available on one or more SEWP contracts. The Provider table indicates how many contracts and how many line items (CLINs) are available for the given Provider. Selecting a Provider will display more details including the SEWP Contracts with that Provider and a link to their website.

Although customers can see line item pricing, the problem is that this price was charged at one time and is not necessarily the current price. Customers would need to use QRT tool to get best pricing. The tool does show customers what has already been asked for and the companies that are available on contract.

Order Status Tool
This tool allows customers to access the order status of their SEWP orders and saves time putting together Help Tickets, if needed. With this tool the customer gets a list of all orders by you or that reference you, with tracking and order numbers.

You can also request status information, view order history and obtain copies of orders and related documentation such as the original Request for Quotes (RFQ), date awarded, current status, worth of order, delivery date and a question tool for contract Holders and a means to asking SEWP only.

View our 3 minute Order Status video clip for an introduction to this tool: www.sewp.nasa.gov/events/multimedia/index.shtml.

KG Waltz
IT Operations Manager

The Market Research Tool is a much more enhanced version of Provider Lookup that will actually turn your search into criteria that can forward to the Contract Holders to get a response.

Start with looking up a Provider, for example Dell, and you get feedback which you can forward to the contract holder to get more detailed information.

The QRT, Market Research and Provider Tools are all ways that customer can identify the types of business it want to use e.g. small business or set-aside of some type.

Finally, don’t come to SEWP if you just want to buy from a catalog. Come to SEWP and ask what product you want.

MRT — Market Research Tool
Login Required

The SEWP Market Research Tool (MRT) allows users to simply and quickly perform a search for products and providers available within the SEWP contract. Then take your search results and create a Request for Information (RFI) in minutes, using SEWP Quote Request Tool to acquire pricing and availability.

Even if the search returns few or no results, as long as the desired item is in scope, we recommend submission of an RFI. Products and providers are added to the contract, typically in one business day, often within 30 minutes.
Brilliant Solutions for Secure IT

Intelligent Waves is a Service-Disabled Veteran-Owned Small Business (SDVOSB) providing end-to-end information technology (IT) solutions to federal government customers. As a systems integrator and value-added reseller (VAR), we offer customized hardware, software and product based services to meet your complex IT requirements. Our technical expertise and extensive experience in deployed environments enables us to provide cost-effective, turnkey solutions that you would not get from a traditional IT company or equipment reseller.

SEWP V Contract: #NNG15SD32B
Group B - SDVOSB

intelligentwaves.com
info@intelligentwaves.com | 703.766.7999

Available through SEWP. Learn more at hypori.com.

BYOD that’s Secure & Scalable

☑ ZERO FOOTPRINT
☑ 100% DATA SEPARATION
☑ MILITARY-GRADE SECURITY
Use The Quote Request Tool aka QRT Tool

The QRT Tool is used to request pricing and availability information. Use of the SEWP Quote Request Tool method for obtaining quotes automatically incorporates price reasonableness, scope and availability determination and Fair Opportunity compliance. Order tracking and support, and display and flagging of issues at the contract, manufacturer and line item level are also incorporated.

**QRT functionality provides:**

**Profile Administration** — Customers now have increased ability to manage their user profile.
- Information on savings compared to market prices
- All records from previous quotes are available; you can have Contract Holders requote from previous quotes.

**Quote Verification Tools** — Functionality has been added to the QRT.
- Verification Files will now include:
  - Product Description for each CLIN
  - EPEAT (Electronic Product Environmental Tool) compliance
  - Energy Star compliance
  - TAA (Trade Agreements Act) compliance
  - Supply Chain Data for each provider.

**“Would Quote button”**
- Customers receive a notice when more information is requested from Contract Holders on an RFQ or a Contract Holder would quote if given more time to respond.

**“Plan to Quote” button**
- When Contract Holders see RFQ they can click on the “Plan To Quote” button and tell the customer immediately they plan to quote.

**Plus the ability to:**
- Do a Request For Information (RFI) through the QRT. Does the exact same thing as MRT; it’s not verified and just for information purposes.
- Have multiple contacts within Agency see quotes
- Update, modify quotes
- Notify who is getting award and if desired, give winning bid so the winner can get ready for the order and losers can learn what they need to do to be competitive.

Plus the QRT system is verified throughout the process. So, if it takes more time to get quotes back than expected, you can easily update the request, so you don’t have to start all over again.

**Q&A Tool Enhanced!**
Learn more on page 46.

Check out the latest video

**NEW! The Q&A feature**
The Q&A feature allows Contract Holders to submit questions to the customer concerning open quote requests. Now Contract Holders and customers will be able to communicate questions and answers within the SEWP QRT tool with the proper tracking ID and other pertinent information of the open quote request.

Further when a customer submits an answer all Contract Holders solicited, will be able to see that answer. SEWP has been very careful to include security measures and insure that proper care is taken so that Fair Opportunity is maintained and proprietary information is not shared when a solicited Contract Holder’s question is sent to the customer.

View the 2 minute video clip for an introduction to the Question and Answer feature: www.sewp.nasa.gov/events-multimedia/index.shtml.

**KG Woltz**
IT Operations Manager

SEWP web tools are built around customer needs.

For example, with the QRT tool the first thing we ask for is a group of Contract Holders or a subset like a Woman-Owned Small Business (WOSB). So, if you have set aside criteria you can include at the start.

Your information in the QRT Tool is saved. You can see what you have opened and closed. You can hide data and notify Contract Holders you are going to make an award.

The Q&A feature to the QRT tool is used after you put in an RFQ. If the Contract Holders have questions they can ask you using this feature. If you get more than one question, you can answer them in the database and all the Contract Holders you contacted get to see the questions and answer them. The Q&A Tool lets both customers and Contract Holders initiate the conversation. Both customers and Contract Holders initiate the conversation.
Govplace delivers a game-changing model for federal IT through streamlined access to transformative technology solutions. Our sales and engineering expertise brings a strategic approach to IT modernization by focusing on business outcomes, not just technology outcomes – resulting in greater mission impact.

**GOVERNMENT DEDICATED**
We are a team of people with passion and dedication for solving complex mission challenges for the federal government.

**INNOVATION DRIVEN**
Our Silicon Valley heritage coupled with our beltway expertise drives us to connect our customers with leading innovations in an authentic way.

**SOLUTIONS FOCUSED**
We deliver by combining selected proven products, trusted partners, and reputable delivery services as complete integrated solutions.

Learn more about Govplace and our SEWP V contracts at **www.govplace.com/sewp-v** or email us at **sewp@govplace.com**
Get EPEAT Ratings for Millions SEWP CLINs

The Electronic Product Environmental Assessment Tool (EPEAT) is a registry of environmental product ratings supplied by manufacturers.

The SEWP Quality Assurance Team makes certain all parts sold through SEWP match the EPEAT database (true part number).

The EPEAT registry does not include part number data, but the SEWP Quality Assurance team has bridged the gap and connected EPEAT product ratings to manufacturer part numbers on SEWP.

Currently there are more than 13 Million CLINs in the SEWP database that have been matched and approximately 20,000 CLINs are updated, added or deleted daily.

SEWP continually monitors the EPEAT registry for new additions. For example, phones and servers are now included as part of the updated registry.

In addition to the initial pairing of the data, SEWP has established several QA processes to maintain the SEWP CLIN EPEAT Gold, Silver, and Bronze ratings to provide more accurate data for customers.

Cathy Shry
Q&A Reports Manager

The QA Team maintains the data and monitors the EPEAT registry as they receive updated CLINS. This data is very valuable to customers who want to make sure to have that energy saving product.

While each is different, Agencies often mandate that new IT products purchased are EPEAT registered and rated. But finding details on vendors and ratings is not that easy. That’s why SEWP created our tool.

As manufacturers put their products into the EPEAT registry, we make sure we match that part number exactly and we have the correct rating — Gold, Silver or Bronze.

Our QA team takes the part numbers and confirms them. If they don’t match, we do the research and go back to the Contract Holder to make sure the correct manufacturer part number in the system and on the EPEAT Registry.

When customers use the QRT tool, they can put in their product information and find out the EPEAT rating for the particular laptop or desktop.

The GSS catalog also has that information. We work hard to make sure that the information is accurate and available for the customer.
Take SEWP’s FedRAMP to the Cloud

SEWP gives you the tools you need to assure your cloud solutions are FedRAMP authorized.

The Federal Risk and Authorization Management Program (FedRAMP) is a government-wide program that provides a standardized approach to security assessment, authorization, and continuous monitoring for cloud products and services. Learn more at https://www.fedramp.gov/.

So which products and services on SEWP are FedRAMP certified or authorized?

The SEWP FedRAMP page lists and gives you the ability to search for products and providers who are FedRAMP authorized and can be purchased through SEWP.

Search by:
- Product details
- Provider details
- Service Model — SaaS, PaaS, IaaS or a combination
- Impact Level — Low, Low Impact — SaaS (LI-SaaS), Moderate, High
- Status — Authorized, Ready, In process
- Agency Authorizations — list of Agency Authorizations that have authorized a product as FedRAMP compliant on the SEWP contract.

Please use the QRT tool and indicate which products need to be FedRAMP certified in your attachments and/or enter the requirements in the Summary text box.

Note: While SEWP continually monitors the FedRAMP website, the listing is for general information — it is not updated in “real-time”. It should be viewed as an overview to provide guidance on SEWP products identified as FedRAMP compliant.

Cathy Shry
Q&A Reports Manager

As another service to our customers, SEWP developed our FedRAMP webpage to help them buy cloud solutions. We tell them:

1. What cloud providers and/or products are FedRAMP authorized and on SEWP?
2. What cloud providers and/or products are in the process or ready to be authorized and on SEWP?
3. What the impact level is?
4. What service models are available?
5. What are the details of the Agency Authorizations?

When the customer logs into the QRT Tool, they can see what Contract Holders provides these products. We do manual updates constantly. It’s all part of our dedication to sharing information and help ease the procurement process for customers. It’s all about getting closer to the customer.

Agency Catalogs
Save Time, Money!

Learn more on page 16.
143 Vetted Contract Holders Serve You

The scope of products and services that can be provided is the same for all 5 Contract Holder groups.

SEWP V is composed of 143 prime Contract Holders, both manufacturers and resellers of IT equipment. The contracts were awarded in 5 contract Groups — 2 full and open and 3 set-aside competitions — based primarily on business size and business model.

Group A has a manufacturer NAICS code of 334111. The other groups have a Value-Added Reseller (VAR) NAICS code of 541519.

Solicitations to Contract Holders in Group A, which has a different NAICS Code, cannot be made in combination with Contract Holders in other Groups.

The method of determining which group or groups to use is dependent on your market research and your Agency requirements. In regards to competition and selection of SEWP Groups, selecting multiple groups provides the best opportunity of acquiring responses and competitive pricing. However, pre-defined selection criteria, such as a HUBZone small business set-aside, is an acceptable practice using the SEWP contracts.

Fair Opportunity to all Contract Holders within one or more SEWP Groups or set-asides is required. There is no requirement to obtain 3 quotes as long as all Contract Holders within a Group were provided opportunity to provide a quote.

Get Your Best Price
- Contractual Processes set pricing and:
  - Must be less than Contract Holder’s GSA Price
  - Must be comparable to other contracts
- Consolidation and internal competition maximizes price discounts
- Product prices may be negotiated and/or questioned

Taking the complexity out of IT

Today, Agencies are in the midst of a major transformation at every level of their IT infrastructure.

But where do you start? And how do you divvy up your dollars in an environment where shrinking budgets continually face exploding enterprise-wide demands?

Customers come to Affigent because they believe the way we work helps take the complexity out of their transformation effort.

We don’t rip and replace.

We don’t see the traditional silos of facility, network and systems.

We see your Agency and all of its IT assets organically as an integrated whole.

It’s why you can trust us to be the one solution provider with a vision broad enough to help transform your IT enterprise into the seamless, adaptive, on-demand service center citizens and employees can depend on well into the future.

Contact us today to learn more at www.affigent.com or call us at 1.866.977.8524.

**Best Price, Best Value and Best Solution**

American Wordata, Inc. (AWDATA), a government focused IT value-added reseller (VAR) and Economically Disadvantaged and Woman Owned Small Business (EDWOSB), provides direct contractual support to the Defense Contracting Company from its headquarters in Tampa, Florida.

AWDATA is well postured to provide pre-qualified and competitively priced information technology commodity products and services to customers worldwide. With over 30 plus years of distribution and solutions-based experience, we have continued success in on time delivery of IT solutions that meet the continually changing needs of our customers.

We continue to attract and maintain relationships with over 30 of the largest technology manufacturers worldwide and these relationships are fundamental to our business model – providing best price, best value and best solution.

Our professional relationships are hinged on utilizing manufacturers and distributors who: 1) provide technology solutions that align with the Department of Defense’s mission 2) maintain a leading edge and consistently work with the Department of Defense to forecast future needs and demands and 3) stand behind their warranties to ensure best results, and best value to our customers.

AWDATA possesses strong partnering agreements with large businesses across the United States and stands ready to distribute competitively priced technology commodities, and customer support to our valuable customers.

Technical Expertise, Exemplary Performance

Founded in 2011 as a veteran- and minority-owned small business operating in a HUBZone, BahFed Corp specializes in the timely and accurate delivery of IT products, commodities and support solutions.

We have built our business reputation on our customer service and post-award services. As a NASA SEWP V contract holder and SBA 8(a) certified business, we serve government Agencies and organizations with our technical expertise - specializing in the areas of system design, layer 2/3 networking, storage, high performance computing and SATCOM.

Our staff brings decades of experience within the federal IT marketplace. We have supported several major deployments for the US military, NATO, Departments of State, Homeland Security, Health and Human Services, as well as NASA. These deployments have ranged from a network outfitting for the consulate in Erbil, Iraq to a block refresh of all hardware for a DOD first responder program — and have always executed with exemplary performance records.

Additionally, BahFed maintains well-established relationships with vendors, suppliers and manufacturers, including Dell, HPE, Microsoft, Cisco, Violin Systems, VMWare, Adobe, Symantec, Red Hat and more. These partnerships help us provide effective solutions for our SEWP customers at the best possible value.

**Best-of-Breed Technology, Flawless Execution**

Carahsoft is the trusted Government IT solutions provider. Founded in 2004, the company’s dedicated Solutions Divisions proactively market, sell and deliver VMware, Sy-mantec, EMC, Adobe, F5 Networks, Open Source, HP, SAP, and Innovative and Intelligence products and services. These are in addition to complementary solutions from additional manufacturers whose products are also now available via Carahsoft’s SEWP V contract.

As the master government aggregator for many of these best-of-breed technology vendors, Carahsoft supports an extensive ecosystem of software manufacturers, value-added resellers, system integrators, and consulting partners. All are committed to helping government Agencies select and implement the best solution at the best possible value.

This vibrant partner network includes small businesses representing every major SBA classification, set aside category, state and commonwealth; and now with the addition of SEWP V, Carahsoft offers even more choice and convenience when it comes to procurement vehicles.

To ensure the same responsive service and flawless quote/order execution that Carahsoft’s government customers and partners have come to rely on, Carahsoft has added a dedicated SEWP PMO team that offers 30-minute (or less) quote turnaround and same-day order processing.

**SEWP V**

Coast to Coast Computer Products, Inc., has expanded to represent a large diverse line of PC and enterprise hardware, software, consumables and services from manufacturers such as Hewlett Packard, APC/Schneider electric, Brocade, Barracuda, Canon, CyberPower, Lexmark, LG, Samsung, Xerox, Zebra, and dozens of others.

Headquartered in Simi Valley, CA, and with satellite office around the nation, we are a value added reseller with an in depth understanding of the total cost of ownership for imaging equipment, and lifecycle management for PC’s and datacenter infrastructure equipment.

Our specialty is the development of custom equipment configurations, and customer defined service and lifecycle management solutions for IT and office equipment assets.

We assist customers with decreasing operational overhead and improving systems performance, and we work closely with customers and manufacturers to ensure the complete lifecycle of new equipment has been considered prior to acquisition, and that associated services to meet customer defined SLAs and minimum customer data security requirements have been completely addressed.

Our NASA SEWP contract enables us to rapidly respond to requests for custom configured equipment or customer defined SLAs by creating unique part numbers for any custom requirement, and making them available at a competitive cost.

To learn more call 805-244-9500 ext. 378 or visit www.coastcoast.com/government.
Solutions — On Time, On Budget

With more than 35 years of connecting Federal Agencies to IT products and services, Connection® Public Sector Solutions can help you build complete solutions on time and on budget.

Our team of Account Managers boasts one of the longest average tenures in the industry, and our relationships with over 1,600 vendor partners allow us to offer best-in-class products and services.

When you partner with Connection, you get the knowledge of our team of solutions experts, plus fast, efficient procurement through NASA SEWP V with online credit card processing.

By using Connection® Public Sector Solutions to order through NASA SEWP V, you work with a strategic partner to access a wide range of advanced technology, including digital displays, desktops, and servers; IT peripherals; network equipment; storage systems; security tools; software products; cloud-based services; video conferencing systems; and more.

Plus, you can easily purchase related services, such as installation, training, and maintenance.

To learn more call 603-683-2337, 800-800-0019 x 2337 or visit www.govconnection.com.

Cynergy Professional Systems, LLC (Cynergy) is a Value-Added Reseller offering a full range of communication and information technology products and services, spanning all elements of the information technology and communications landscape.

This includes the design, engineering, planning, project management, system integration, and quality assurance for information technology and communications systems, with a particular emphasis on supporting the U.S. Federal Government. We build and deploy systems within both the Continental United States (CONUS) and internationally Outside the Continental United States (OCONUS). In the communications sector, we specialize in seamlessly integrating mission-critical voice, wireless, microwave, land mobile radio systems, fiber, and next-generation Long Term Evolution (LTE) technologies.

Our Federal IT practice focuses on core technologies in Communication, Storage, Advanced Computing, Virtualization, Systems Modernization, Managed Print Services, Medical IT Solutions, Security, and Networking products.

Cynergy is an SBA Certified 8(a) Small Disadvantaged Business, HUBZone, Economically Disadvantaged Woman Owned Small Business (EDWOSB), and Service Disabled Veteran Owned Small Business (SDVOSB).

Founded in 2009, the California based company has built its business reputation on providing excellent customer service and proven post-sale implementation practices. Cynergy holds specific Ordering Agreements with Government Agencies, as well as NASA SEWP V contracts in Group B & C.

Learn more at www.cynergy.pro or email charlotte.borg@cynergy.pro.

Professionals and Engineers Add Value

There are many benefits to working with Govplace on the SEWP vehicle, such as the ability to access a range of solutions like Cloud, Cyber and Data Center offerings. These technologies are true areas of expertise for Govplace where our certified professionals and engineers add discriminating value through working with our customers to determine the best approaches to jointly achieve their mission goals.

Thanks to our partnership with Dell Technologies, Govplace is authorized to sell among the widest array of technology available as small business reseller. Govplace delivers a full suite of solutions from a variety of OEM’s, while also helping Agencies meet their small business goals.

Govplace has helped many Agencies create Agency catalogs to assist our customers in easy procurement. We pride ourselves on helping our customers find the most efficient approaches to acquisition of technologies in a price conscious era.

SEWP provides the latest in IT products and services for all Federal Agencies and their approved contractors. SEWP offers low prices, the lowest surcharge (0.375%) and the easiest and fastest ordering procedure using pre-competed contracts.

Through SEWP, gain access to a vast selection and wide range of commercial advanced technologies including Intelligent Waves’ Hypori, an agentless Virtual Mobile Infrastructure (VMI) solution that allows end-users BYOD physical devices to connect to COPE virtual devices in a secure datacenter, while leaving no data at rest. Agencies can find an exact fit for their needs at the best overall value by choosing the right solutions with leading hardware and software technologies and our experienced integration and innovation team.

Learn more at www.intelligentwaves.com or email Tina.henderson@intelligentwaves.com

**Intelligent Waves** is a Service-Disabled Veteran-Owned Small Business (SDVOSB) providing end-to-end information technology (IT) solutions to federal government customers. As a NASA SEWP V prime contractor, systems integrator and value-added reseller (VAR), we offer customized hardware, software and product-based services to meet your complex IT requirements. Our technical expertise and extensive experience in deployed environments enable us to provide cost-effective, turnkey solutions that you would not get from a traditional IT company or equipment reseller.

NASA SEWP V 41
On Time and On Budget

Lyme Computer Systems is an ISO 9001:2015 certified, employee-owned IT solutions provider serving federal government customers and prime contractors since 1983. We are a principles-based organization that believes in treating our customers, vendors, and employees with the utmost integrity and respect. Lyme has established strong, long-term customer relationships as the trusted source for IT.

Lyme partners with industry-leading providers to present our customers with the most efficient and cost-effective technology solutions available including:

- **Hardware**: Client/server/storage products and a wide range of peripherals from the industry’s top technology manufacturers.
- **Software Solutions**: Enterprise software licensing and support, software asset management, and application development and migration.
- **Support and Deployment Services**: Support and extended warranty services, enterprise installation, and configuration services.
- **Infrastructure, Cloud, and Security Services**: Infrastructure and security managed services, cloud computing, infrastructure consulting, and security consulting and threat intelligence.

Lyme has put in place a dedicated SEWP V account team to support our customers in all phases of the IT procurement process. From initial solution engineering to final delivery, the Lyme team is available to ensure fast and accurate responses to federal Agency requirements, allowing our customers to complete their missions on time and on budget.

Presidio is a market leading integrator that has been providing advanced technology solutions on NASA SEWP for over ten years. Our broad portfolio of leading OEMs paired with our extensive service offerings will enable your organizations to capture economic value from the digital transformation of their businesses by developing, implementing and managing world class, cloud ready, secure and agile IT infrastructure solutions.

Presidio has an extensive portfolio of IT solutions that have proven instrumental in achieving the business needs of the Federal Government. For example, our secure mobility solutions directly enable the government workforce to collaborate securely in order to educate, protect, and serve — from any location.

Presidio partners with industry leaders to develop and support the answers to our clients’ IT challenges. We’ve earned the highest certifications from all of our strategic partners in the areas of data center, collaboration, cloud, security, and core networks.

For more information call 301-623-1884 or visit www.presidio.com.
Red River brings together the ideal combination of talent, partners and products to disrupt the status quo in technology and drive success for government in ways previously unattainable. Red River serves organizations well beyond traditional technology integration, bringing more than 20 years of experience and mission critical expertise in security, networking, analytics, collaboration, mobility and cloud solutions.

Red River’s seasoned SEWP management team maximizes value for customers with more than one million innovative solutions and best-in-class services to meet technology needs.

“Red River’s proven past performance and superior Program Management and Sales personnel make us the right partner for SEWP V users,” said Jeff Sessions, Red River CEO. “With our industry-leading technical expertise, strategic partnerships and exceptional customer service, we enable SEWP Agencies to maximize the value of the technology investments.”

Red River is ISO 9001 certified and its technology experts hold the highest technical certifications, credentials and partnership levels with key OEMs, including Cisco Systems, Dell, HP, NetApp and more.

### Exceptional Performance, Extensive Product Range

NASA SEWP V provides a streamlined method for searching among the various product offerings, providing a user-friendly single portal to obtain quotes, place orders, and track delivery.

**Sterling** differentiates itself on the platform through an exceptional performance rating, an extensive range of products made available on three distinct contract portfolios, and through a broad scope of certifications including FedRAMP products, EARP requirements, and other authorizations and supplier relations.

Few SEWP Contract Holders possess authorization for more than one portfolio; Sterling retains Group A: F & O, Group B: SB, and Group D: VAR, a positioning that presents customers with a marked advantage.

Sterling offers best-in-class technology products including computer hardware, tablets, storage, security, servers, IT peripherals, Cybersecurity tools, and mobile devices. SEWP provides a trusted method of certifying FedRAMP compliancy for both software and Cloud Computing products.

Through it, Sterling provides full lifecycle services (Beginning-to-End engineering, installation, maintenance, and disposal) and offers a complete product portfolio that is OMB compliant. Sterling also offers Government-wide Strategic Purchasing (GSS) systems and custom solutions for Agency-specific catalogs.

To learn more call 605-242-4060 or visit [www.sterlingcomputers.com](http://www.sterlingcomputers.com).

The NASA SEWP Program Management Office (PMO) is pleased to introduce the Industry Relations Team. The mission of this team is to educate, assist, and provide guidance to Information Technology companies on the NASA SEWP Government-Wide Acquisition Contract, (GWAC).

Ken Brown heads up this team and brings with him years of experience on SEWP’s FASST team along with a wealth of industry experience.

For more information, please contact us at help@sewp.nasa.gov.

Question and Answer Tool Enhanced

SEWP’s latest enhancement to our Question and Answer (Q & A) tool expands our customers’ ability to communicate with providers. Previously, the tool only allowed customers to respond to questions submitted by providers. Now, customers can initiate communication through the tool such as additional order information and answers to questions that are received outside of the Question and Answer tool via e-mail or phone conversation.

https://events.sewp.nasa.gov/documents/qna_intro.mp4

https://events.sewp.nasa.gov/documents/qna_instructional.mp4

FedRAMP Webpage Enhanced

SEWP’s online FedRAMP tool now lists all FedRAMP authorized products and services, in an easily readable, single page format that is not currently available on the FedRAMP website.

Additionally, the listing is not limited to only products from SEWP providers; it includes all products and services from providers not currently listed on the SEWP contract. There is also the added value of additional product details for registered users of SEWP.

Committed To Cutting Edge Technology

Founded in 1991, Wildflower has decades of experience and past performance supporting the U.S. Federal Government and its National Laboratories. We’ve spent these 30 years staying ahead of technology advancement, supporting our customers in science, security, and the military to help them keep pace.

On SEWP V, Wildflower provides solutions from Dell, Canon, Juniper, HPE, and other top-tier manufacturers. Our partnerships create successful outcomes for our government customers in the datacenter, the cloud, and even in the sky with unmanned aerial data collection and analysis.

Wildflower’s program and supply chain methodologies are a commitment to delivering the highest quality products, service, and support for customers in government environments. The company is a small, minority, woman-owned, HUBZone business, with ISO 9001:2015 certification.

Wildflower is FOCI cleared, with many years of experience working in secure and classified Agencies. Wildflower currently maintains a Q-level clearance for work within the Department of Energy.

To learn more call 505-365-2475 or email sewpsales@wildflowerintl.com.

Pegging Program Performance

The CHRM (Contract Holder Relationship Manager) leads a team dedicated to serving the lifeblood of SEWP — its Contract Holders.

The SEWP PMO views the Contract Holders as trusted partners in delivering IT solutions. But the PMO also relies on this strong relationship to solve any issues that might arise.

At the forefront of that effort is the SEWP’s Contract Holder Relationship Managers or CHRM. The CHRM helps Contract Holders when they have issues; and to resolve issues when customers have concerns with a Contract Holder.

The CHRM Team works with Contract Holders on a day-to-day basis resolving any issues with customers or implementing processes and procedures. The CHRM Team is responsible for disseminating information, Contract Holder training and keeping communications going between contract holder and Agency and the program.

The ongoing mission is to improve SEWP’s relationship with industry and bridge the gap between industry and the contract.

Contract Holder Program Performance

Current Program Performance ratings are done by the SEWP Program Office based on the criteria described below. This does not constitute the official Past Performance ratings based on FAR Part 42.15. Past Performance reports are completed annually and can be obtained by requesting a copy through your Contracting Officer. Criteria include:

- **Reports** — rating is based on the contract holder ensuring that all required reports are submitted to the SEWP Program Office in a timely manner and accurate.
- **Customer Satisfaction** — rating is based on the quality of products and services, responsiveness, and interaction with customers and problem resolution.
- **Information Distribution** — rating is based on the accuracy of the information provided by Contract Holder to Customers through sales agents, associated companies, website, handouts and etc.

![George Nicol](image)

**George Nicol**

**Contract Holder Relationship Manager**

The life of the contract depends on our relationship with the Contract Holders. The CHRM Team is dedicated to Contract Holder relations. We reach out to them and resolve issues a customer may have.

In that role, we provide oversight, holding SEWP Contract Holders to the contract.

At the same time we provide an entire suite of tools for Contract Holders on the CHOP (Contract Holders Only Page). This gives them access to as much information as the Agencies have so that they can better serve them.

We are making the process as smooth as possible so Contract Holders can respond to as many requests as possible and meet the needs of government customer.

So just like the public side we are working on new tools for the Contract Holders to make it smooth for them and in turn smooth for customers.

- **Contract Adherence** — rating refers to the Contract holder’s ability to adhere to all contractual require including but not limited following the correct quoting procedures and SEWP order fulfillment guidelines.
- **Delivery** — rating refers to the contract holder’s ability to meet the expected delivery date as agreed upon by both the contract holder and ordering Agency during the quoting period of a SEWP request.

Ratings for all but Delivery are on a 3 month basis. Delivery is based 6 months.

ANACAPA's Secure Supply Chain risk management system (SCRM) leverages our best practices, processes, and tools to provide our SEWP V clients the SAFEST and most cost effective IT Hardware, Software and Cloud solutions available - on Contract!

YOUR QUALITY MATTERS TO US.......  
• ISO 20243 certified - Mitigating maliciously tainted and counterfeit products  
• AS9120 certified - Quality Management for Aviation, Space & Defense  
• AS9100 certified - Quality & Value Added Integration for Aerospace  
• Robust AS5553 & AS6081 - Counterfeit Risk Mitigation Strategy

ANACAPA is HUBZone and Small Business

For 28 years and growing, ANACAPA has been a leader in SCRM with our aerospace clients and now with SEWP V, you can enjoy the same security on all of your IT requirements.

The Best IT Solutions  
The Finest in Customer service  
The Safest Supply Chain

Partner with ANACAPA on SEWP V in 2019!
Free Training; Lots of Options
While in-person training is recommended, SEWP provides a variety of convenient alternatives.

**Free In-Person Training**
Free training is open to users from both the federal acquisition and technical communities who are new to SEWP, and those users who may just need a refresher on the new SEWP tools & capabilities.

Some of the valuable topics covered (approx. length: 2 hours):
- **GSS** — SEWP explains Government-wide Strategic Solutions (GSS)
- **Quote Request Tool, Provider Tool, Q&A Tool** — Learn how SEWP's enhanced online tools can make procurement more efficient
- **Agency Catalogs** — Standardize technology while reducing cost
- **Agency Report: Item Level Tracking and Reporting** — Gain valuable insights to make better purchasing decisions

**City-wide and Regional Training**
City-wide and Regional Training sessions are conducted across the country as stand-alone events or as part of larger events SEWP is participating in.

For example, free training is offered at events such as the National Contract Management Association annual conference.

These training events are typically 1.5 — 2 hours and provide 2 CLPs. Dates, events and registration information for these events are located on the SEWP Events page.

Visit the SEWP Outreach page at https://events.sewp.nasa.gov/ for the current schedule of events.

**Mandatory Training For DoD Customers**
DoD requires employees to be trained in order to purchase through SEWP. Please contact the SEWP Program Office to review your options for SEWP training.

Training only needs to be fulfilled once.

**Training Videos**
SEWP videos teach you what you need to know about SEWP.

The SEWP Content Team has produced a wide variety of informational videos covering the different aspects of SEWP. Videos include:
- SEWP Training (all the basics)
- SEWP Tools (QRT, MRT, Q&A)
- Established Authorized Reseller Program (EARP)
- Order Status Tool
- Question and Answer tool
- Question and Answer How-To Guide
- Program Performance — Delivery Ratings
- Award Notification
- FedRAMP

Get a copy of the SEWP Training DVD by sending an e-mail (including your name and mailing address) to help@sewp.nasa.gov.

**Webinar Sessions**
Monthly webinars provide customers with fundamental information about SEWP V. Webinar sessions are approximately 45 minutes in duration. Topics vary from month to month and may include:
- Program Overview
- SEWP Tools (including any new enhancements)
- Strategic Solutions
- Top 10 Procurement FAQs
- Assistance with challenging procurements

These webinars are informational sessions, not formal SEWP training.

One (1) CLP will be given for this session. Questions will be accepted and answered through our Q&A feature.

Dates and registration links are located on the SEWP Home and Events pages or visit http://sewp.nasa.gov/events.
