

## Modern Analytics Experience

We help businesses transform using a unique and modern analytical visualizations approach.

## THE CHALLENGE

- Analytics not helping organizations transform.
- Analytics can not keep up with the pace of change in business
- Defining analytics requirements defeats the purpose. The need is for a way to see how the technology can change the business process
- Aggregate KPIs across the organization are difficult to visualize in order to cause action
- Analytics are causing "paralysis by analysis". The need is for actionable insights.

## THE SOLUTION

- Modern Analytics designed for business transformation.
- A fluid analytical framework, not pre-defined dashboards
- A solution build using iterative prototypes. Each prototype helps see how the business process can be changed.
- A unified portal to visualize and analyze aggregated KPIs across the organization.
- Visualization that are tailorable on the fly until the insights become actionable

## SOLUTIONS

### Industry

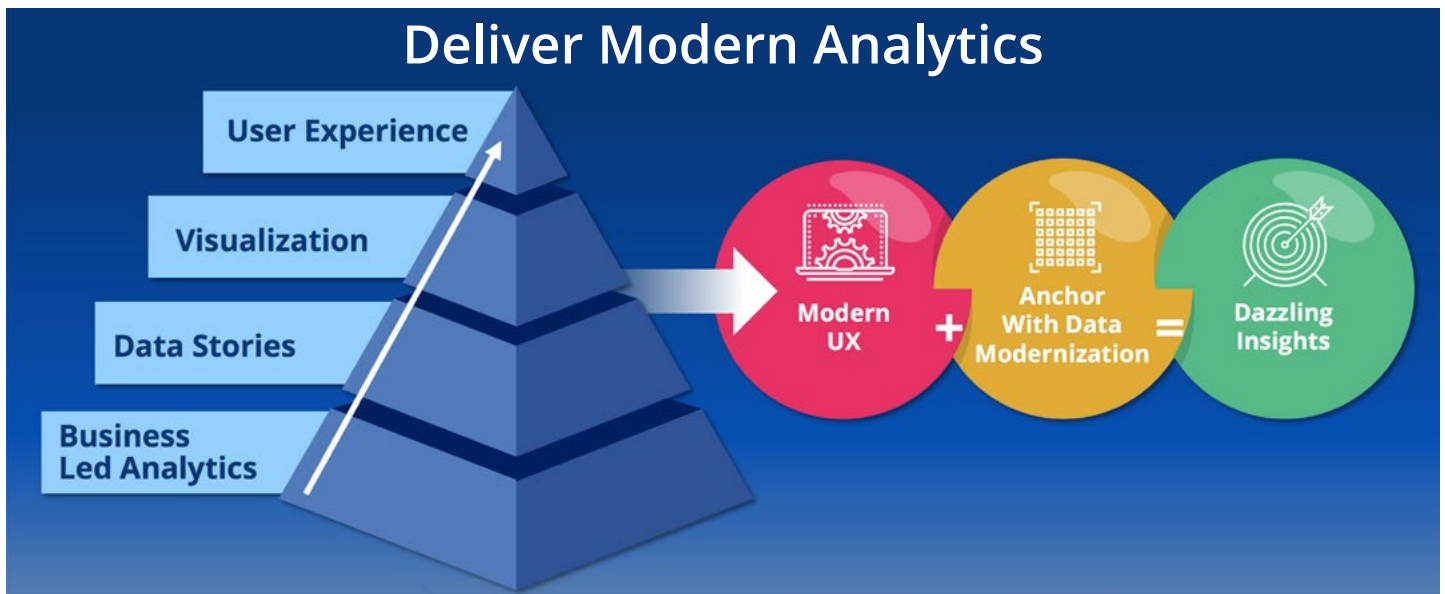

- Airport 360
- Transit 360
- Water 360
- Utility 360

### Function

- Asset 360
- ITSM 360
- HR 360
- Finance 360
- Project 360
- Procure to Spend 360

## Deliver Modern Analytics

## WHAT WE DO

### Industry Focus

Transits

Airports

Utilities

Health Care & Pharma

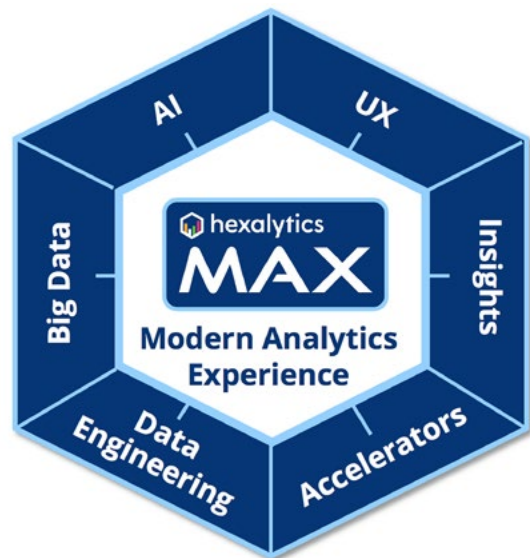

Retail & Consumer Products

Financial Services

## WHY WE ARE UNIQUE

- 1 Storyboarding**  
Paint the picture the way you want
- 2 User Experience**  
Better use of the analytical data
- 3 Framework**  
Unique portal to gain quick insights
- 4 Data Modernization**  
Cloud based connectors for data platforms
- 5 Modern Analytics**  
Dazzling analytics that trigger actions
- 6 Custom Visuals and Accelerators**  
Visuals enriched to the way you work

## WHAT WE OFFER

- Industry & Functional Data Solutions
- Consulting and Implementation Services
- Data and Analytics Services
- BI Platform Modernization

- ✓ Founded 2010
- ✓ 450+ Employees
- ✓ 125+ Customers
- ✓ 350+ Projects
