

BEYONDLIMITS

ZenithLive²⁰₂₀
ZSCALER VIRTUAL CLOUD SUMMIT

AMERICAS CONFERENCE
DECEMBER 8 – 9, 2020

INTERNATIONAL CONFERENCE
DECEMBER 9 – 10, 2020

THE FUTURE IS HERE.

The new IT enables business growth, but only when leaders look beyond the limits of legacy systems, legacy security, and legacy thinking.

[Zenith Live](#) 2020 will bring together innovators leading their organizations' secure digital transformation. This year's summit features inspiring speakers and practical training for CxOs, IT execs, network architects, security managers, and business leaders who seek opportunity beyond limits. Expect some surprise guests (!), community engagement, and insightful sessions, including CXO Perspectives Panels, Women in IT Exchange, Voice of the Customer Fireside Chats, hands-on training, breakouts with live Q&A, and much more.

This year, every seat's in the front row. Go virtual at Zenith Live 2020, the free Zscaler Cloud Summit December 8-10, 2020. [Register now.](#)

FIVE REASONS TO ATTEND ZENITH LIVE 2020

Attend any (or all!) of more than 100 sessions

Zscaler cybersecurity, tech thought leaders, and industry visionaries will lead core and masters' breakout sessions on cloud foundations, platforms, Zero Trust Network Access (ZTNA), network transformation, security transformation, data protection, securing apps and workloads, enhancing digital experience, and cloud for the public sector.

Learn from cloud innovators

Enterprise CxOs will share their expertise and experience leading their own secure digital transformation initiatives. Learn how they adapted to the latest "new normal" in CXO Perspectives Panels and customer-journey sessions.

Train with the best in the industry

Take a new step forward with your career and up-level your skillset with hands-on training. Available training sessions include security and networking essential classes for those who are just starting down the path of secure digital transformation, and Masters training sessions for those wanting to advance their skills further on Zscaler Internet Access (ZIA) and Zscaler Private Access (ZPA).

Connect with your peer leadership community

Zenith Live 2020 gives you the opportunity to leverage the collective insight of your industry peers. (Call it a real-world cloud effect.) Engage with other tech leaders.

Participate in interactive demonstrations

See the latest innovations in cloud and zero-trust technologies from Zscaler and Zscaler partners in featured innovation showcases.

WHO SHOULD ATTEND?

CIOs

IT is the new enabler of business. Strategic CIOs are breaking barriers — both real and metaphorical — to realize opportunity.

Architects

Building the future: Learn and share cloud best practices for network, security, and enterprise architects.

CISOs

Get the latest cybersecurity insight from Zscaler's expert research and threat-protection teams.

Practitioners & Operations Professionals

Join the Zenith Live 2020 community of IT operations pioneers leading the cloud cybersecurity charge.

CTOs & Heads of Infrastructure

See the cloud as a management tool: Learn how comprehensive visibility into enterprise data traffic changes the game for infrastructure administration.
