For Maximum Productivity,
Learn, then **Certify**

VERITAS™ Education Services

New Software, New Features, and New Employees Require New Knowledge

No one is born with the skills to deploy, configure, manage, and support enterprise software in their business environment. It's something you have to learn.

Let Veritas Education Services teach you and help maximize the value of your technology investment.

> " **50**% of software functionality paid for and licensed by organizations is not actually used."[1]

VERITAS

Instructor-Led Training

Available directly from Veritas, or from highly skilled Authorized Training Partners

Gain the critical concepts and skills you need to efficiently deploy, configure, utilize and troubleshoot Veritas solutions.

Learn with the benefit of:

- Small class sizes

- Hands-on labs

- Certified instructors with intimate knowledge of Veritas products, and extensive, real-world experience in information managment environments.

VERITAS

Veritas Virtual Academy

Providing the same content as instructor-led training, but through a live, online learning experience

Skip the need to travel, and gain the best of live, personalized instruction from an expert trainer.

Learn with the benefit of:

- Live lectures and interaction with an expert instructor
- Practical, hands-on labs and opportunities for one-to-one sessions with instructor
- Same level of deep knowledge transfer gained in the classroom

VERITAS

Veritas eLibrary

A collection of free, on-demand, Web-based training courses that span the Veritas product line

Plan self-study to suit personal schedules, learn at a personalized pace and still gain the necessary skills to fully and more effectively utilize Veritas solutions.

Learn with the benefit of:

- Hundreds of regularly updated courses

- Modular content that can be taken as sequential courses or accessed for just-in-time reference

- In-depth topics cover installation, configuration, deployment, administration, and troubleshooting

VERITAS

Veritas Certification

Providing the highest levels of staff expertise with validated technical skills on a product or solution level

Certified professionals possess high-performance technical problem-solving expertise, and are tested and proven in their ability to administer Veritas solutions.
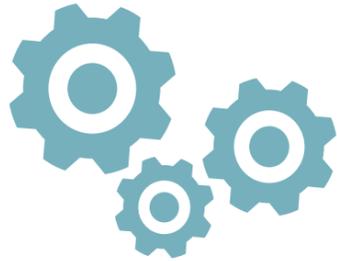

Become:

- A Veritas Certified Specialist with expertise on a specific product, including installation, configuration, deployment, and management

- A Veritas Certified Professional with expertise on a solution level with the skills covering multilple products

VERITAS

"When preparing for a project, teams receiving 40 hours of training per member met their significant project objectives three times as often as teams that received 30 hours of training or less."[1]
