

ZL Tech for SOCOM

Trusted Intelligence for
the AI-Enabled Decision
Advantage

Thank you for your interest
in exploring this content.

Carahsoft is the **Trusted Government IT Solutions Provider**® supporting a broad portfolio of industry-leading technologies through NASA SEWP V, ITES-SW2 and a wide range of other contract vehicles.

As the **Master Government Aggregator**®, Carahsoft connects government agencies, industry partners, and technology providers to deliver innovative, mission-focused solutions.

In partnership with ZL Technologies, we provide technology solutions that drive modernization, strengthen operations, and ensure compliance with evolving government standards.

ZL Tech for SOCOM

Trusted Intelligence for the AI-Enabled Decision Advantage

Building the Data Foundation

As SOCOM continues investing in AI, quality of the underlying data is critical. Missions can't wait for data to be moved, copied, or stitched together. Yet, most systems still duplicate intelligence before it can be extracted – slowing analysis, increasing risk, and fragmenting the operation.

ZL Tech helps commands establish the trusted data foundation required for AI-enabled decision advantage. Our platform captures, classifies, governs, and analyzes command data in place, without unnecessary duplication or movement across authorized boundaries.

Act at the Speed of Warfare

- ✓ **Find Intelligence Instantly:** Search across all mission data sources in seconds – no replication, no delay.
- ✓ **Eliminate Data Fragmentation:** Unify visibility across cloud, on-prem, and tactical systems without creating duplicate data stores.
- ✓ **Scale Without Limits:** Operate and securely share information across billions of records spanning dispersed, multi-domain environments.
- ✓ **Operational Speed for Decision Advantage:** Deliver answers at mission speed to support time-sensitive operations.

Trusted Data. Decisive Action.

SOCOM operators and commanders need to act quickly- requiring dependable technology and answers, built from a trustworthy data foundation. ZL Tech embeds governance directly into the data layer so intelligence is always reliable, compliant, and ready for operational use.

- ✓ **Trusted Data for Critical Decisions:** Every record retains full context, lineage, and policy alignment.
- ✓ **Built-In Governance :** Integrate privacy, classification, and retention into daily workflows.
- ✓ **AI Ready by Design:** Turn policies into frameworks that prepare data for analytics and AI.
- ✓ **Operational Confidence at Scale:** Ensure intelligence remains accurate even across complex, distributed environments.

Capabilities

Unified Data Governance

Power analytics, compliance, and mission awareness directly from data where it resides.

Hybrid Deployment

Support cloud, hybrid, and classified SCIF environments with in-place data access, minimizing risk and unnecessary movement.

Intelligent Data Management

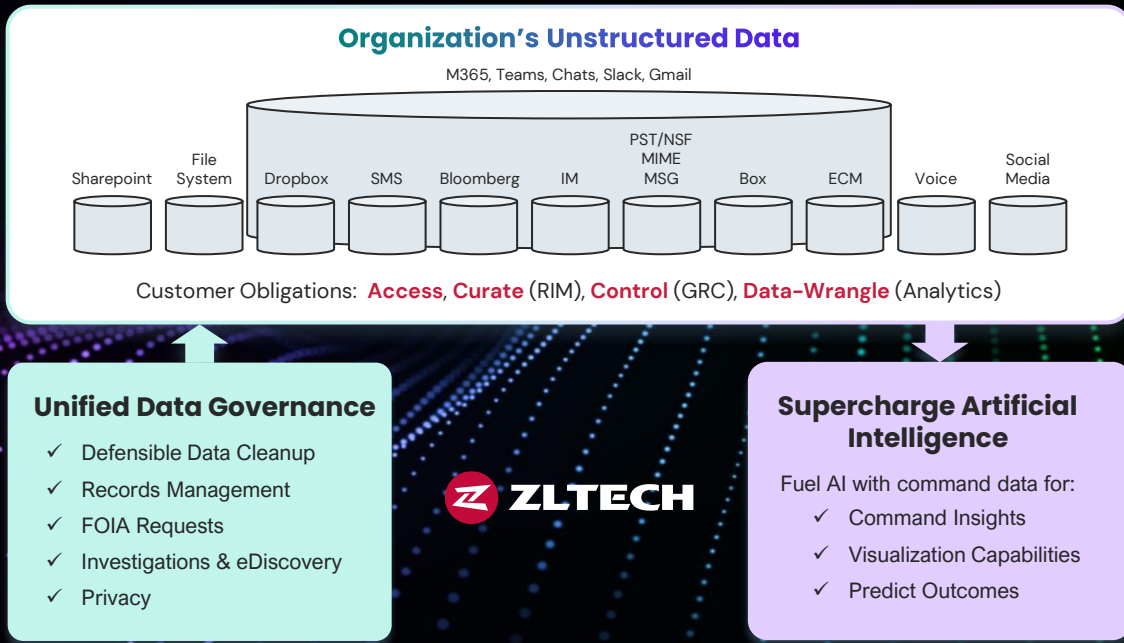

Automate retention, audit logging, and defensible deletion to meet zero-trust and insider-risk mandates.

Real Data, Artificial Intelligence

Prepare and protect sensitive content for AI and analytics, ensuring only governed, compliant data feeds your models.

Security & Compliance

- ✓ IL5 in process
- ✓ 5015.02 Certified
- ✓ HIPAA Compliant
- ✓ SOC2

From Ingestion to Insights: Complete Data Control

ZL Tech seamlessly connects to data sources across the command's ecosystem, providing a unified platform for comprehensive governance guardrails. Designed to meet the most stringent Governance, Risk, and Compliance (GRC) requirements, ZL Tech's highly scalable architecture ensures organizations remain compliant while minimizing risk.

Beyond governance, the platform simplifies data curation, enabling organizations to extract actionable insights and unlock the full potential of AI and advanced analytics—all from a single, secure solution.

Platform of Choice for Federal Agencies

Trusted by NARA

Selected to establish the Capstone standard for federal records management.

Security as a Core Value

- ✓ Pursuing IL5 in process
- ✓ DoD 5015.02 Certified
- ✓ HIPAA Compliant
- ✓ SOC2
