Data Domain – DD6410	40TB	1PB +	\$46,000

These Dell Data Protection pre-configured solutions allow customers to start small and grow on demand by serving as a building block for the mission infrastructure's cyber protection needs. These solutions are designed to provide continuous protection for the core data center, the edge components and native cloud applications. Please review the specifications and reach out to your strategic partner or Dell Technologies account team if there are any further questions. All solutions have been designed with the following capabilities:

- Largest application ecosystem
- Guaranteed 55:1 efficiency
- 10GbE Networking
