WHY ASUS BUSINESS

Reliable and secure solutions you can trust

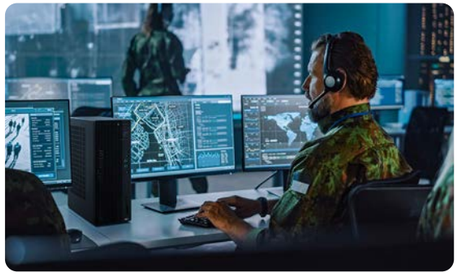

We are committed to providing reliable solutions that meet the unique needs of businesses of all sizes. With decades of innovation experience, we understand businesses today need incredible partners they can trust to achieve their goals, stay ahead of the competition, and thrive in an ever-changing business environment.

Always-on reliability

We are committed to delivering reliable devices and services you can trust. With 5,000+ world-class, in-house engineers, we leverage our industry-leading expertise to build rock-solid products, from operations to product design. We hold hundreds of world records and have been honored with tens of thousands of awards, so you can always depend on ASUS for excellence.

Agile solutions

We offer a wide range of agile solutions that are deeply rooted in industry and customer insights, flexibly designed with your growth vision in mind. From motherboards, PCs and peripherals to servers, software and integration with every cloud, we design solutions that fit your needs today — and tomorrow.

All-around partnership

We deliver comprehensive services and support across the device lifecycle. Whether it's a dedicated account team, a door-to-door delivery and return service or continuous feedback-tracking to understand and reflect your needs for future products and services, we partner with you every step of the way so you receive maximum value from your investment.

Accountable sustainability for the future

Our dedication to accountable sustainability is unwavering. We're on a mission to reduce carbon emissions, uplift communities and adhere to the highest ethical business standards. What sets us apart is our holistic approach, empowering organizations of all sizes to realize sustainability goals with genuine, measurable impacts on both people and the planet.

We provide holistic technology solutions

ASUS Business offers comprehensive solutions for diverse industries, with a wide range of evolving products, easy-to-use software to streamline business operations, and excellent support. We're committed to helping business customers achieve their vision.

NEW WAY TO WORK WITH AI

To support AI-driven workplaces, exclusive ASUS AI ExpertMeet elevates meeting experiences with noise-canceling audio and camera, and AI-generated transcripts, summaries and live-translated captions – all processed on-device to keep business data secure.

ASUS Ai ExpertMeet -
an ASUS exclusive app

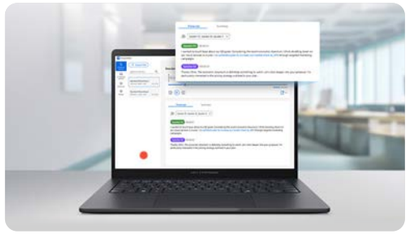

AI translated subtitles

AI ExpertMeet* offers speech-to-text transcriptions with unique speaker IDs. After the call, the meeting is recorded and saved as an audio file.

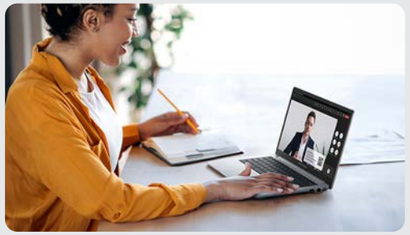

AI meeting summary

With AI ExpertMeet*, you no longer need to spend time writing meeting minutes during or after conference calls. You can fully focus on what matters most, AI ExpertMeet2 will expertly summarize the key points for you.

Multiple speakers recognition

AI ExpertMeet* offers speech-to-text transcriptions with unique speaker IDs. This feature captures everything said, extracts key points from multiple speakers, and clearly identifies who presented each key point using speaker IDs.

AI camera

For the best video-call experience, the AI Camera ensures you always look your best during virtual conferences.

Two-way AI noise cancelation

ASUS ExpertBook features AI-powered noise-canceling technology that cancels out unwanted background noise and pick up the user's voice for optimum conference-call quality.

Webcam watermark

Enhance your presence in video conferences by displaying your business card as a watermark-so your name, position, company and contact information are there for everyone to see.

Screen watermark

The Screen Watermark function ensures your data and information are secure from the moment you start sharing your screen, protecting your confidential information.

* For the full AI feature experience, 12 GB of memory is required.

COPILOT+ PC

Power your day, the AI way

A whole new way interacting with your PC is here. With Copilot+ PC experiences, you can accelerate your productivity and creativity. Let the new ASUS Copilot+ PC transform the ordinary into the extraordinary, making every day an adventure filled with endless possibilities.

Copilot

Your everyday AI companion

Microsoft Copilot comliments your capabilities and creativity with intelligent assistance anad relevant answers.

Recall

Recall instantly

Searching for a document, email or web page on your PC can be time-consuming. Now you can just describe how you remember something and Recall will find it, instantly.

Live Captions

Connect with Live Captions

When you never miss a word, you never miss a beat. Get accurate subtitles in real time with automatic Live Captions.

Windows Studio Effect

Engage your audience with Windows Studio Effects

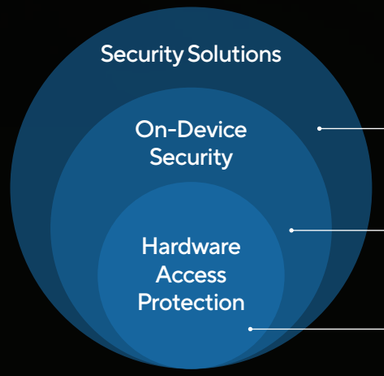

Improve lighting and blut dustractions in the background during video calls. When presesentation matters, turn on Windows Studio Effect.

ASUS EXPERTGUARDIAN

Enterprise-grade security

Modern IT threats target businesses from various angles, making comprehensive security essential. ASUS ExpertGuardian provides enterprise-grade protection across hardware, firmware and software, ensuring end-to-end security – from the BIOS to AI-powered web protection and real-time antivirus defense. Engineered with a commercial-grade, NIST SP 800-155-compliant BIOS, ExpertGuardian offers robust security alongside five years of ASUS BIOS and driver update support. Integrated biometric login with FIDO authentication further safeguards critical data. Additionally, ASUS business laptops empower IT managers with endpoint management, ensuring seamless control over company assets and securing all digital data.

Multifactor authentication with robust security

IT Management

Allows IT staff to remotely control and manage business assets, making sure all digital data is safe and sound.

OS/Software Features & Applications

Prevents malicious attackers from accessing encryption keys or sensitive data with multifactor identity authentication.

Firmware/BIOS Features

Protection prevents unauthorized manipulation of hardware resources.

Hardware-access protection

NIST guideline compliant

Meets NIST security standards for high protection.

BIOS self-recovery

Automatically fixes BIOS issues if they occur.

Rollback prevention

Stops the system from reverting to an unsafe older version.

Tamper detection

Prevents unauthorized BIOS changes. Suspect firmware events are logged in the System Log Page, and a warning prevents OS access on startup.

USB access lock

Blocks unauthorized USB devices.

Security updates

Provides security updates for up to 5 years to keep the system secure.

SECURED-CORE PC

On-device security

Windows 11 security level 2

This security level is ideal for environments handling sensitive data, such as finance, healthcare and government, ensuring comprehensive protection against modern threats.
In addition, account protection is enhanced with multiple layers of verification.

dTPM

Discrete Trusted Platform Module(dTPM) is designed to be compliant with TCG standards, ensuring it meets rigorous security requirements for trusted computing environment

Trusted computing group (TCG) compliant

TCG guidelines protect the OS from unauthorized changes, ensuring only trusted software runs for security and reliability.

Security solutions

ASUS cloud recovery

ASUS Cloud Recovery simplifies the process of restoring your computer's operating system, requiring just a few easy steps. It automatically installs the latest versions of drivers and software without manual installation.

Anti-virus software

Protects the computer from malware and other malicious software. ExpertBook B-series and P- series devices come with McAfee+ Premium, including AI Deepfake detection[1], email detection, McAfee antivirus, VPN, Scam Protection and Identity Monitoring – offering comprehensive online protection.

1. McAfee AI Deepfake Detector works for English language - at launch in US, UK, Australia, Ireland, New Zealand, India and Taiwan. Available on selected models/ SKUs.

Windows 11 secured-core PC

Provide an “on-by-default” security experience for businesses and user.

Secured-core PCs provide protections against sophisticated attacks and provide increased assurance when handling mission-critical data in some of the most data-sensitive industries, such as healthcare workers that handle medical records and other personally identifiable information (PII), as well as commercial roles that handle high business impact and highly sensitive data, such as a financial controller with earnings data.

PC identity protection

- Provide advanced identity verification and protection

OS malware defense

- Protect the OS from execution of unverified code

Hardware and firmware security

- Secure Boot
- Trusted Platform Module 2.0 (TPM)
- Direct Memory Access Protection (DMA)
- Defend against firmware level attacks
- Dynamic Root of Trust for Measurement (DRTM) protection
- Virtualization-based Security

HIGHEST MILITARY-GRADE DURABILITY

US MILITARY GRADE
MIL-STD 810H
Multiple Tests Passed

Commercial products are remarkably robust with highest military-grade durability standards in the business-laptop marketplace. It endures multiple individual tests that adhere to the exacting US military-grade MIL-STD-810H standard.

Temperature Shock Test
Endure a sharp change of temperature from -51°C to 71°C three cycles for an hour.

Shock Test
Withstand 18 harsh shocks at the speed of 40G/11ms with power on.

Vibration Test
Withstand 5-500Hz physical vibrations for 60 min.

Sand & Dust Test
Resist ingress of particles with 1.2g/m3 density.

Altitude Test
Handle extreme 15,000-ft heights, with power on.

High Temperature Test
Endure 32°C~49°C for 3 x 24 hr. Cycles with power on.

Low Temperature Test
Endure -37°C~ -46°C for 3 x 24 hr. cycles with power on.

Explosive Atmosphere Test
Tested in a fuel-vapor environment with power on.

Fungus Test
28 days exposure to common fungi.

Shipboard Vibration Test
4-33Hz for 2 hours to mimic shipboard transit.

Freeze/Thaw Test
Withstand rapid 30°C to -10°C temperature change at 95% relative humidity.

Solar Radiation Test
Endure three 24-hour cycles of simulated radiation.

Humidity Test
Tolerate 95% relative humidity at temperatures of 30°C and 60°C.

ROBUST ASUS SUPERIOR DURABILITY TEST

INCREDIBLE TOUGHNESS ASUS

ASUS ensures that every component of commercial products delivers long and reliable service, no matter how tough the going gets.

Hinge Test (Clamshell)
Up to 50,000 open/close cycles, replicating usage of 12 times per day for over 11 years.

Hinge Test (Flip)
Simulates entering and exiting flip mode 10,000 times, or 4 times per day for over 7 years.

Drop Test
Survives a single up to 120 cm[1] accidental drop on its base, onto a concrete floor.

Rump Pressure Test
Both the lid and bottom side can withstand a 50 kg[2] squashing force.

Keyboard Durability Test
Up to a 10,000,000 keystroke lifespan, simulating continuous typing for 4 hours per day for 6 years.

Keyboard Durability Test
Up to a 10,000,000 keystroke lifespan, simulating continuous typing for 4 hours per day for 6 years.

Keyboard Spill-resistant Test
Withstands water spills of up to 405 cc[4].

Port Durability Test
Mimics a users connecting a USB Type-A device 5,000 times, or 3 times a day for over 4.5 years.

Twist Test
50,000 chassis twist tests to simulate normal handling and carrying with one hand 30 times per day for 4.5 years.

ASUS BUSINESS SOLUTIONS

ASUS provides scalable, customized solutions for business of all sizes. The comprehensive lifecycle services include seamless device deployment and management, advanced security, and simplified device retirements — empowering your IT team to enjoy enhanced productivity and efficiency.

Transform your IT lifecycle with ASUS business solutions

ASUS Business Solution offers efficient deployment, simplified IT management, enhanced productivity, and robust security. With features such as real-time protection and rapid recovery, businesses gain a comprehensive, efficient, and secure IT environment.

ASUS CUSTOMIZE

- Efficient deployment
- Efficient IT management
- Effortless customization
- 70% Reduced in setup effort

ASUS MANAGE

- Streamlined drivers management
- Timely update
- Enhanced productivity
- 55% Productivity increased
- 2X Faster
- 0 Zero-touch

ASUS SECURE

- Trusted defense
- Real time protection

ASUS RETRIEVE

- Enhanced security
- Rapid recovery
- Comprehensive protection
- Tailor-made to your IT needs

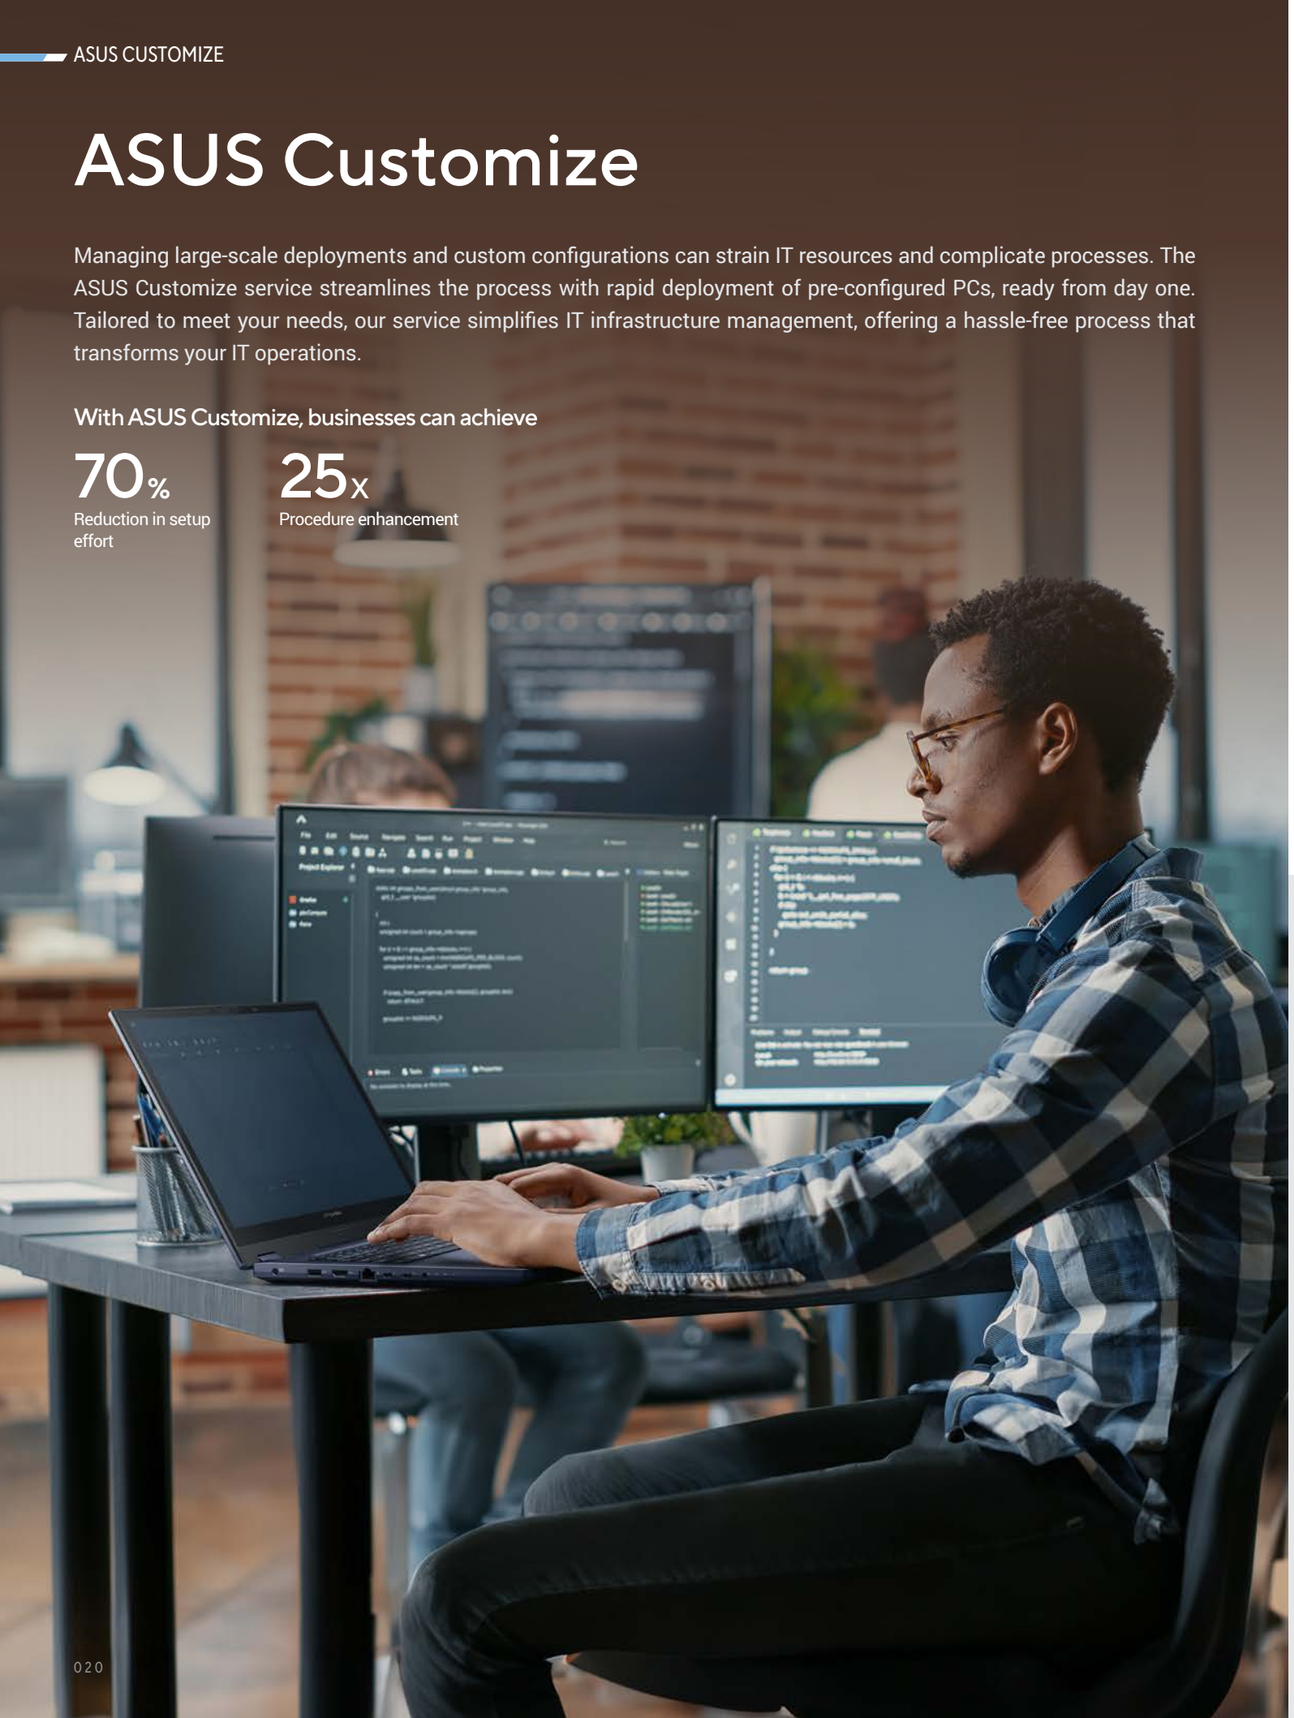

ASUS Customize

Managing large-scale deployments and custom configurations can strain IT resources and complicate processes. The ASUS Customize service streamlines the process with rapid deployment of pre-configured PCs, ready from day one. Tailored to meet your needs, our service simplifies IT infrastructure management, offering a hassle-free process that transforms your IT operations.

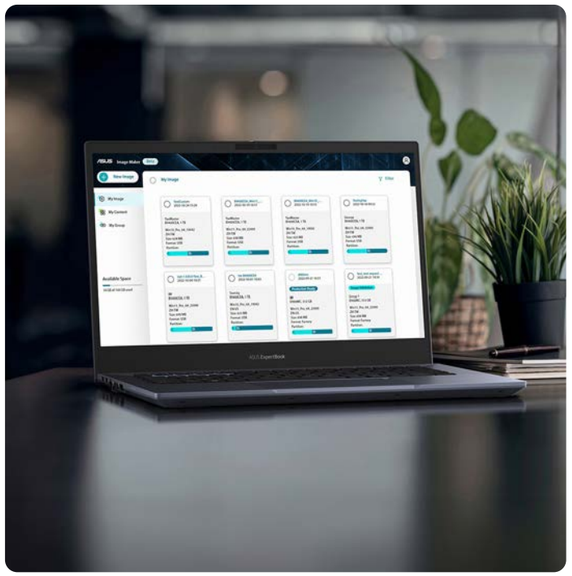

With ASUS Customize, businesses can achieve

70%
Reduction in setup effort

25x
Procedure enhancement

Features & benefits

ASUS Image Maker

A one-stop cloud service with a handy customizable image tool for IT managers to easily create custom, ready-to deploy Windows OS images.

- Comprehensive online platform for instant custom image deployment
- Reduce third-party software installation time for Sis and VARs
- Reduce Windows OS bloatware complaints

ASUS BIOS Config Tool

A powerful solution for enhancing BIOS customization capabilities on multiple devices and upgraded integrations with third-party UEM solution providers.

- Easily modify BIOS settings
- Configure all managed devices at once
- Prevent unapproved access to BIOS settings

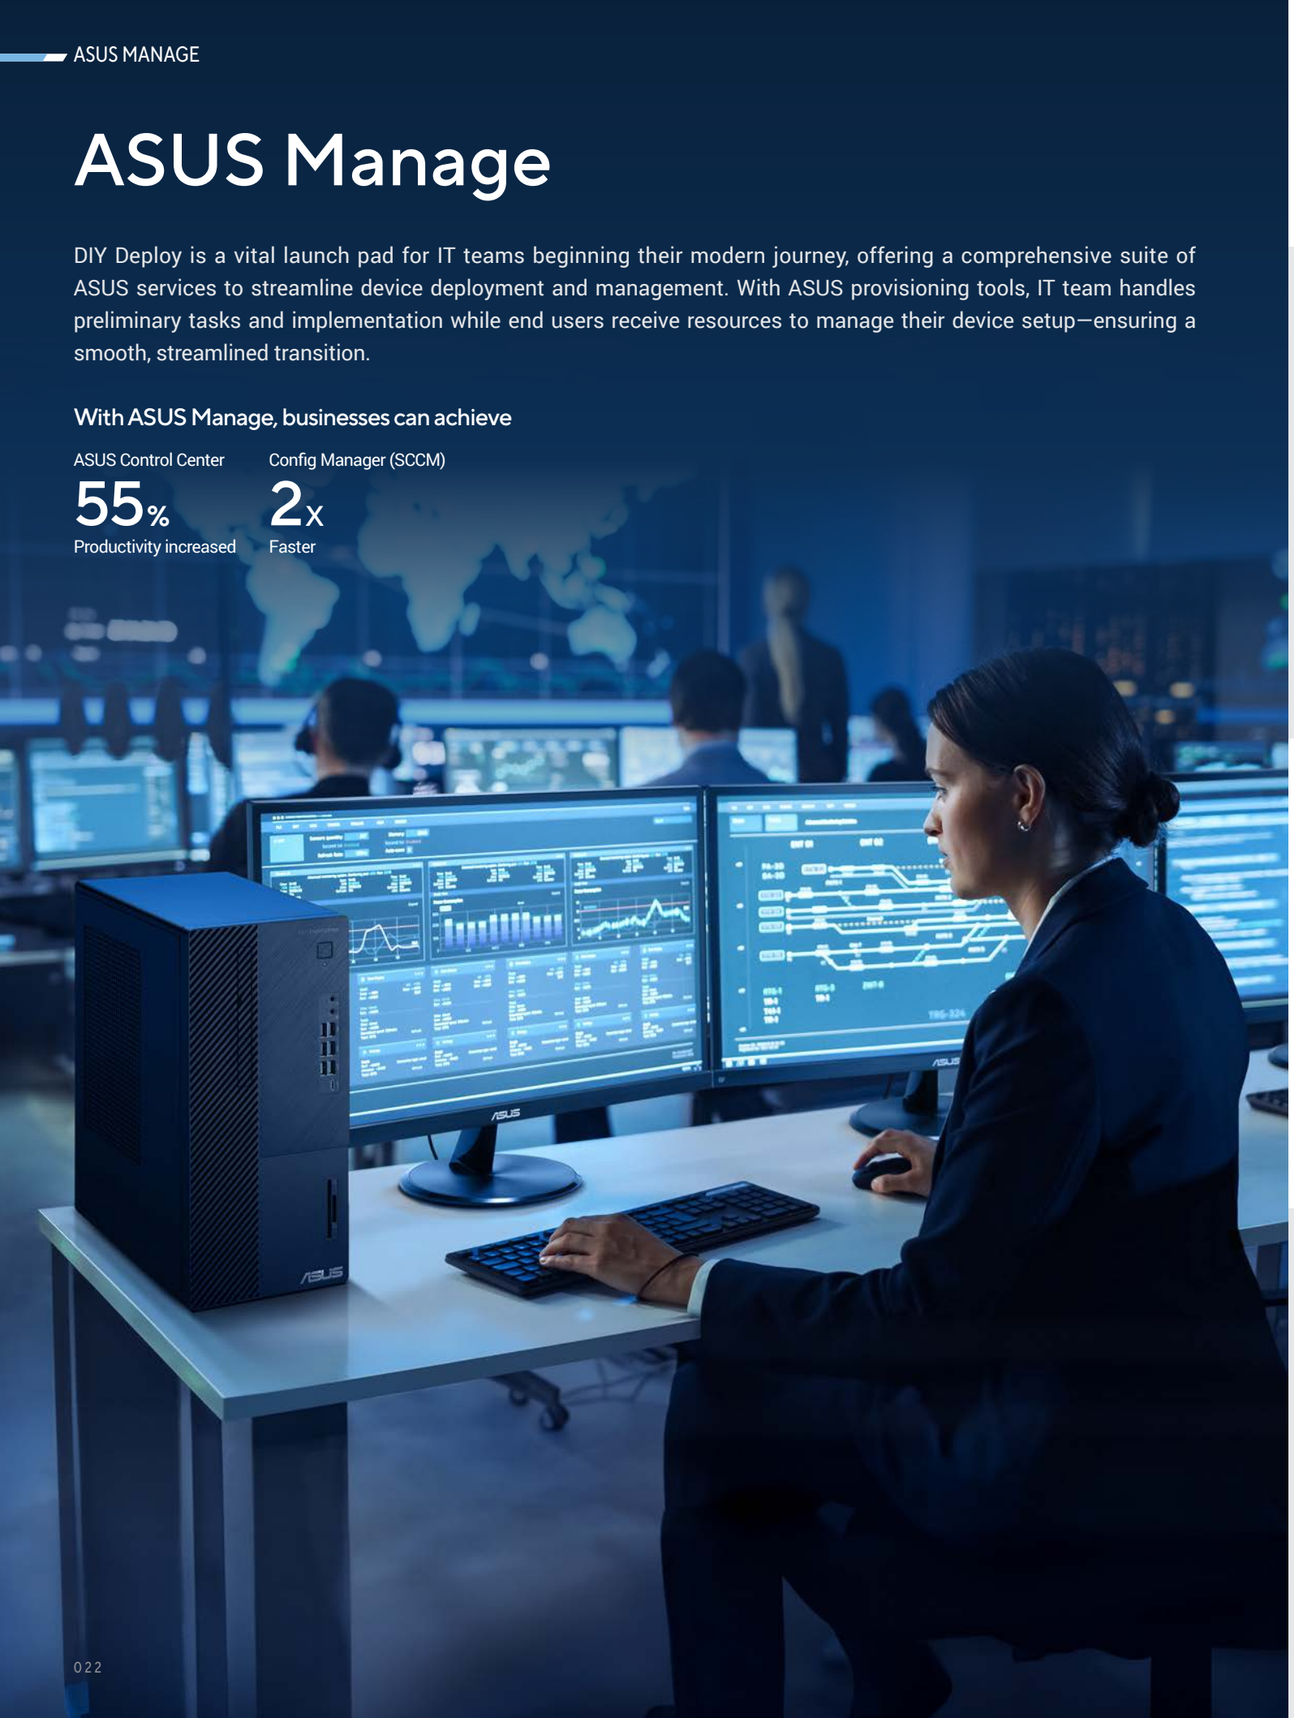

ASUS Manage

DIY Deploy is a vital launch pad for IT teams beginning their modern journey, offering a comprehensive suite of ASUS services to streamline device deployment and management. With ASUS provisioning tools, IT team handles preliminary tasks and implementation while end users receive resources to manage their device setup—ensuring a smooth, streamlined transition.

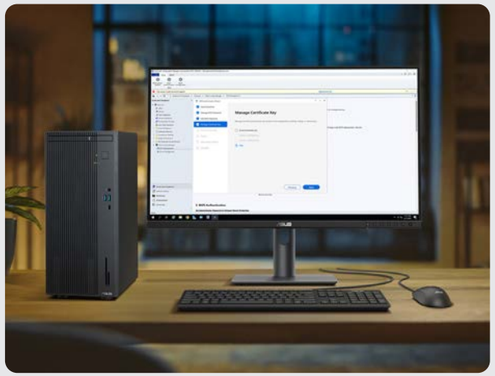

With ASUS Manage, businesses can achieve

ASUS Control Center
55%
Productivity increased

Config Manager (SCCM)
2X
Faster

Features & benefits

ASUS Config Manager (SCCM)

Enhances SCCM by adding BIOS configuration, speeding up updates, and enabling remote BIOS management via Intune.

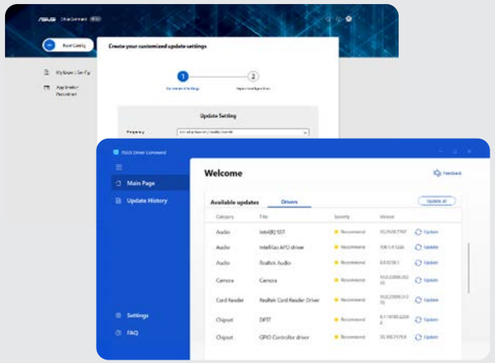

- 2X times faster than managing drivers and BIOS in standard SCCM
- Visual interface for remote BIOS configuration
- More secure and convenient for BIOS password and certification deployment

ASUS Control Center

A centralized IT-management suite that offers IT staff a visible, controllable and manageable hardware and software inventory.

- Automate software dispatch and scheduling processes
- Remotely configure and troubleshoot software
- Get insights via a visualized dashboard and intuitive interface
- Ensure security by setting up software block list, device access

ASUS Driver Command

Allows IT staff to effectively manage driver updates across multiple devices, ensuring security with up-to date drives and pre-defined driver setting align with corporate IT policies.

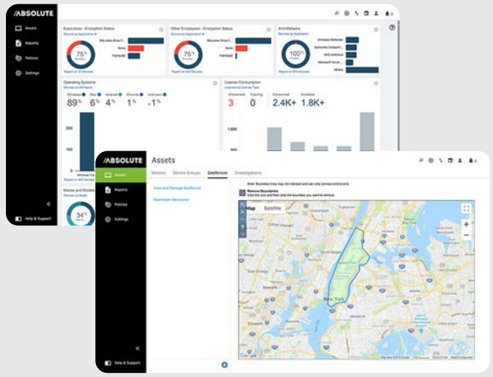

- Accurate driver version detection
- Support GUI update, providing an intuitive interface
- Allow customization of update frequency, severity filters
- Support Windows Knowledge Base updates

ASUS Secure

Secured-core PC features multiple application security layers that shield critical data. Application protection, privacy controls, and least-privilege principles enable developers to build in security by design. ASUS Business PCs also include embedded Absolute, McAfee Anti-virus, a Deepfake protection package*, and exclusive tools such as ASUS SafeGuard Backup—giving MIS teams greater control and streamlined asset management.

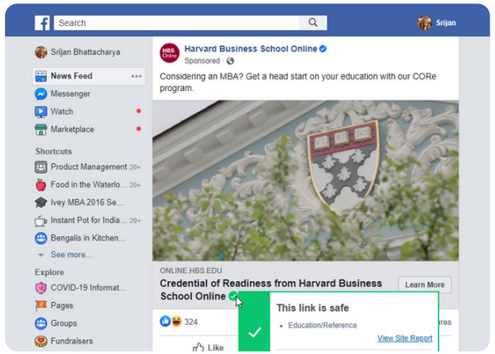

Features & benefits

ABSOLUTE® Secure endpoint

Absolute Secure Endpoint enable IT personnel monitor and address computer problems and enables the equipment and their critical applications to self-heal —supporting IT management, security, and compliance.

- Self-healing protects the digital enterprise, at-risk data and critical IP assets
- Track devices anytime and freeze ones
- Send secure, on-device end user communications or alerts
- Enable firmware protection without bringing devices in

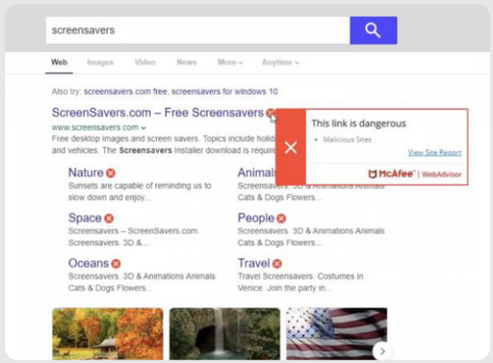

McAfee™ WebAdvisor

Browse securely with McAfee Smart AI™ threat detection, featuring real-time alerts on hazardous websites, social media URL filtering, and safe download management, ensuring peace of mind online.

- AI-powered URL filtering
- Social Media Protection
- Safer downloads

* McAfee AI Deepfake Detector works for English language - at launch in US, UK, Australia, Ireland, New Zealand, India and Taiwan. Available on selected models/ SKUs.

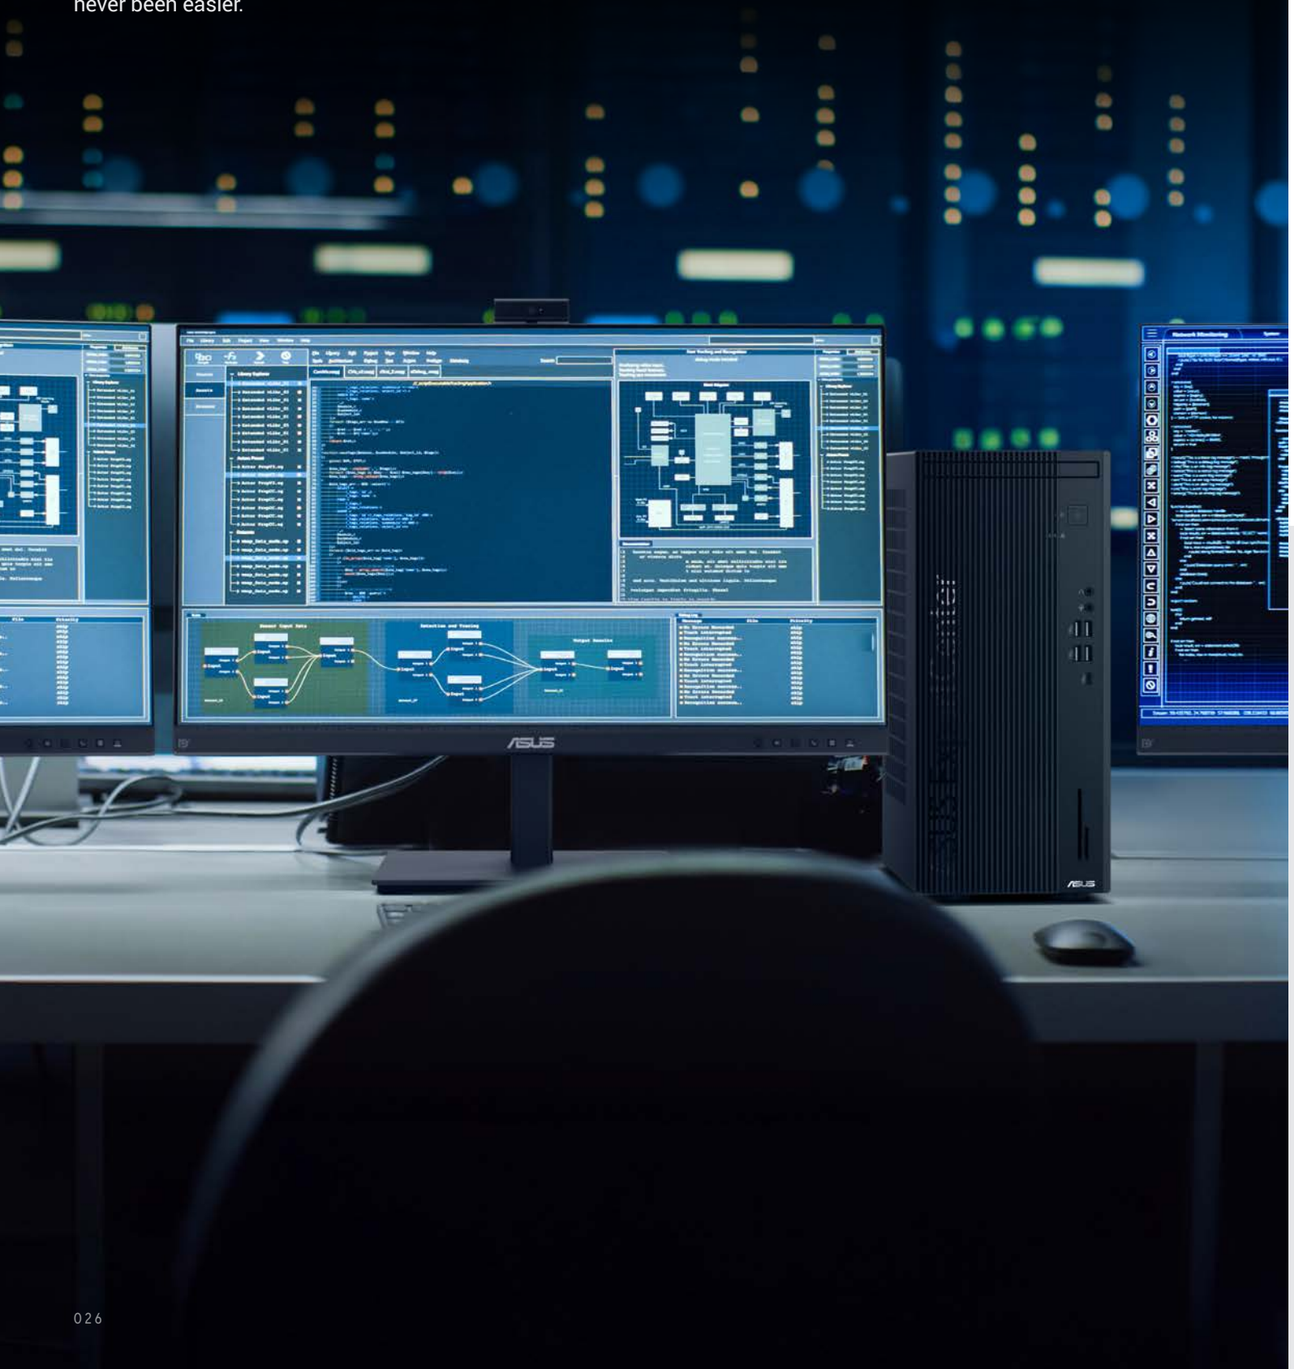

McAfee™ Deepfake audio detection

Advanced AI-detection empowers consumers to discern what's real and what's fake in a time of misleading AI-generated content.

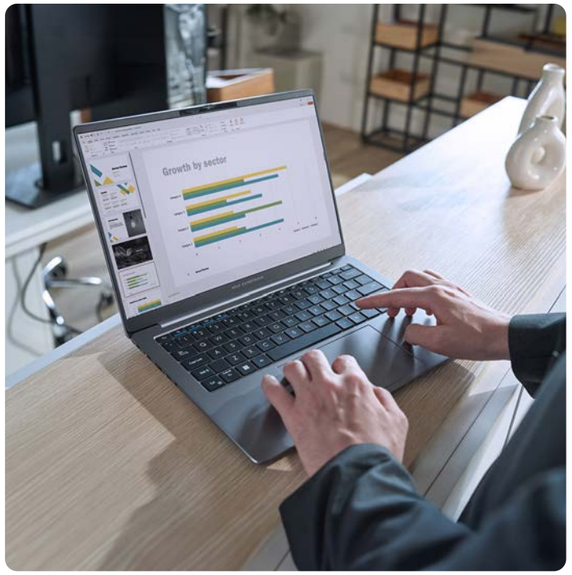

- The power of AI in deepfake detection
- Seamless and robust customer experience
- Enabling the technology ecosystem

ASUS Retrieve

Securely decommissioning old devices filled with sensitive data can be a daunting challenge. Advanced remote clean and cloud recovery ensure every byte of data is erased and securely backed up, protecting your company's confidentiality and integrity. With the ASUS-developed retrieve and retire solution, achieving this level of security has never been easier.

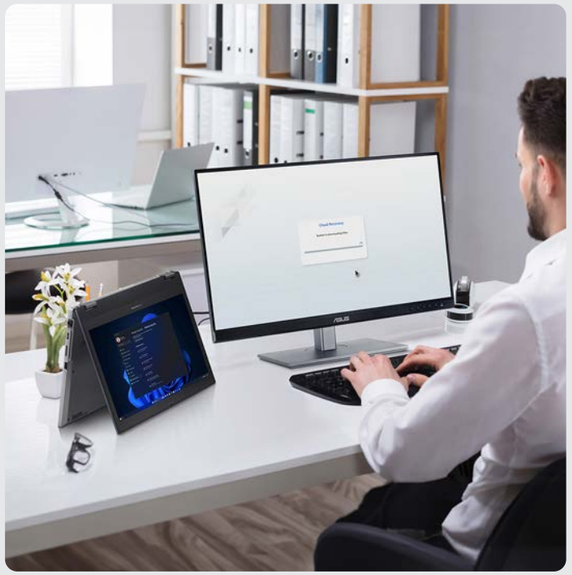

Features & benefits

ABSOLUTE® Data wipe

Absolute Remote Clean securely wipes data from multiple devices remotely, ensuring thorough data protection and compliance with minimal effort.

- Enable remote data wipes on multiple devices for centralized control
- Ensures complete and secure data erasure, minimizing data leakage risk
- Supports data protection compliance through secure devices decommissioning
- Reduces the time and resources required for manual device sanitization

ASUS Cloud Recovery

This tool quickly and securely reimages devices in UEFI during pre-boot when the OS is dysfunctional.

- Accessible from anywhere with an internet connection
- Enable faster recovery time in UEFI environment
- Restore devices to factory defaults with the latest OS from the ASUS cloud server for a more reliable and secure recovery

ASUS Business Support for Commercial PCs

We offer all-around support for businesses of all sizes, providing dedicated assistance from the very beginning and proactively addressing your needs every step of the way. From hardware support to ASUS-designed deployment and IT-management software, we're here to support you from first enquiry to purchase and beyond. With our flexibility and instant support, you can focus on upgrading your business to incredible heights.

More than just support

Our ASUS Business Support Plus goes beyond traditional support, offering image customization software and centralized IT management tools to help IT teams tackle complicated PCs deployment, maintenance, and management tasks with ease.

Tailor-made to your IT needs

Whether you're a small or medium firm or a large enterprise, you can find the right ASUS Business Support package for your business. We also offer the flexibility to choose the individual services you need.

Minimize downtime

Our instant remote response and on-site support are designed to ensure minimal downtime for your business.

* Warranty policies vary by country.
* Service and warranty coverage may vary depending on country and territory. Please check with your local detailer to confirm the options available

Warranty Extension

We offer up to five years' warranty extension for commercial laptops, desktops and all-in-one PCs, so you can enjoy continuous hardware support from us.

Local Accidental Damage Protection

Provides repair or replacement coverage for free or partial cost for drops, falls, liquid damage, electrical surges, and accidental breakage outside of normal use, once per year[1]. This coverage goes beyond our standard warranty protection, giving you added peace of mind.

Next Business Day Local On-site Service

Professional technicians repair devices at your business location with labor and parts prioritization to minimize disruption.

VIP Hotline

Enjoy privileged contact via a dedicated support line, or priority access when you need any support from us.

Repair Reports

For a better management and tracking, we provide a report to you after every repair.

ASUS System Diagnostics

A versatile utility that identifies hardware issues and works even in the absence of Windows or a functioning system drive. It also delivers streamlined support through generated QR codes, optimizing the efficiency of RMA and service workflows — making it highly desirable for diverse business scenarios.

HDD/SSD Retention

To secure business confidential and sensitive data, our service allows you to keep defective HDDs or SSDs that have been replaced by ASUS-authorized technicians.

Battery Service Package

You can extend the period of coverage beyond the standard battery warranty. With our Battery Service Package, if your laptop battery is found to be defective, a replacement battery will be provided — even once every year, if needed.

International Warranty

Remote working is the new normal. Our global support network ensures worry-free laptop[2] operation and productivity for your employees, whether they're simply working at home for the day or traveling the world on business.[3]

Service Account Manager

Our professional and responsive technicians dedicated to your needs — so our service always comes with that personal touch.

ASUS Image Maker (IM)

A highly-demanded, comprehensive cloud service for the customization of Windows images that empowers increased system-deployment productivity and efficiency for enterprise IT professionals, all via an intuitive and user-friendly interface.

ASUS Control Center (ACC)

A centralized IT-management suite that offers IT staff a visible, controllable and manageable hardware and software inventory — with zero touch.

3. Service levels and response times for International Warranty may vary depending on your geographic location.

SUSTAINING AN INCREDIBLE FUTURE

RE100 | CLIMATE GROUP | CDP

We always search for the incredible. Our commitment to environmental, social, and governance is to empower you and everyone else we work with to push forward for a more sustainable future. Let's make it sustainable — together.

Our 2025 sustainability goals:

100% renewable energy usage in Taiwan-based operations centers by 2030, and in global operations centers by 2035

50% carbon emissions reduction from global operations centers by 2030

30% above Energy Star standard efficiency from key products

30% reduction in carbon intensity rates from key suppliers

NET-ZERO

We collaborate with stakeholders to create a cleaner environment and mitigate the impact of climate change by increasing our energy efficiency, utilizing renewable energy, and fostering innovation.

CIRCULAR

We leverage Design Thinking and technological innovation to develop eco-friendly products, making our business model more environmentally-friendly to minimize our impact on the planet.

RESPONSIBLE

We work together with our partners to ensure environmental, labor, and human rights responsibility in our supply chain, protecting the rights of everyone our business touches.

SHARED

We explore innovations in digital inclusion, cross-sector collaborations, and sustainable business models that can create shared value for all.

A circular approach to sustainability

CUSTOMER STORIES

The UK | ExpertBook B3 Detachable, ExpertBook B5 Series, ExpertBook B9 OLED

Watford Football Club

Watford FC, founded in 1881 and competing in the EFL Championship, manages complex year-round operations. Committed to leveraging technology for efficiency, they've partnered with ASUS for advanced IT solutions. The ASUS ExpertBook B9 OLED, with up to 13th Gen Intel® Core™ processors and vPro support, offers secure and reliable remote-management capabilities. Both ExpertBook B5 and B9 models meet U.S. military-grade standards for durability and protection. This collaboration between ASUS and Watford FC demonstrates the transformative impact of innovative IT solutions in the sports industry, enhancing various aspects of club management.

Thailand | ExpertBook B1

JSSR Auction Co., Ltd.

JSSR Auction Co., Ltd. recognizes the importance of cutting-edge technology in its operations and has chosen ASUS as its technology partner. ASUS ExpertBooks, featuring state-of-the-art processors and WiFi 6, boost efficiency and mobility. Known for their reliability and performance, ASUS products are complemented by extensive warranty options, including on-site services. This partnership enables JSSR Auction Co., Ltd. to streamline its daily tasks, minimize downtime, and maintain its competitive position. By leveraging ASUS's advanced technology and comprehensive support, JSSR Auction Co., Ltd. is well-equipped to thrive in today's dynamic business environment.

France | ExpertBook B1 , ExpertBook B5

Groupe CB

Groupe CB, a family-owned enterprise since 1896, leads in aggregate quarries and refractory materials. Needing to modernize their infrastructure, they chose ASUS for computing solutions balancing performance and sustainability. ASUS supplied ExpertBook B1 and B5 laptops and ExpertCenter D7 desktops, praised for durability and consistent performance. Staff appreciated the laptops' lightweight design and portability. ASUS's responsive support ensured a smooth transition, validating Groupe CB's choice and reinforcing their industry position. This partnership demonstrates how innovative technology can support traditional industries in their modernization efforts.

Netherlands | ASUS Chromebook CX34 Flip

Lister

Lister, a 40-year-old mental healthcare institution in Utrecht, serves 1,900 clients with 900 staff members, focusing on recovery-oriented care. They chose ASUS Chromebook CX34 to meet their unique needs. Equipped with up to 12th Gen Intel® Core™ i7 processors and 10-hour battery life, these devices help staff assist clients with essential tasks. The CX34 Flip model's durability, adhering to US MIL-STD 810H standards, suits diverse care settings. This technology integration has streamlined Lister's IT infrastructure, enhancing security and staff efficiency. The Chromebook's portability, security features, and robust construction have significantly improved Lister's daily operations and client care.

- Powered by Intel® Core™ Ultra processors (Series 2) with up to 47 NPU TOPS
- Up to 120 total platform TOPS
- Up to 3 TB PCIe® 4.0 dual SSD
- 14" 2.5K 144 Hz anti-glare display
- ASUS AI ExpertMeet to superchage meeting productivty and efficiency
- ASUS ExpertGuardian with business-grade NIST Cybersecurity Framework

iF DESIGN AWARD 2025

P5405

1. Intel® Core™ Ultra processors (Series 2) availability varies by country and region. 2. Product weight may vary according to device configuration. 3. P5405CSA battery tests conducted by ASUS on August 27, 2024, using the Microsoft tool "Perf2.12April2024-RTM" testing scenario. Test configuration: INTEL(R) CORE(TM) ULTRA 7 258V, 32G LPDDR5X RAM, 2T PERF SSD, LCD 14' WQXGA WV EDP 400NITS, 63Wh Battery. Test settings: WiFi enabled, display brightness set to 240 nits (system brightness 75%), volume to 15%. 4. The testing regime includes the requirements of both military-grade standards and ASUS quality tests, and varies depending on device. MIL-STD-810H testing is conducted on selected ASUS products only. Note that the MIL-STD-810H testing helps to ensure the quality of ASUS products but does not indicate a particular fitness for military use. The test is performed under laboratory conditions. Any damage caused by attempts to replicate these test conditions would be considered accidental, and would not be covered by the standard ASUS warranty. Additional coverage is available with ASUS Premium Care.

Precisely perfect

Crafted for modern professionals, the ExpertBook P5 stuns with its brand-new aluminum body. The sleek design is a perfect balance of elegant appearance, comfort, ergonomics, optimized thermal, and eco-friendly manufacturing.

AI powerhouse for future

Equipped with Intel® Core™ Ultra processors (Series 2)1, featuring three AI processing engines, and up to 32 GB of onboard LPDDR5X, ExpertBook P5 empowers smooth, seamless daily work and AI-intensive tasks. Its SSD configuration provides up to 3 TB of storage, plus easy IT installation and cost-effective upgradeability.

Simply cool. Simply powerful.

ExpertCool thermal structure, a newly enhanced cooling design, ensures consistent, optimal cooling whether the lid is open or closed, guaranteeing peak performance even during extended usage.

ASUS ExpertBook P3 Series (P3405/P3605)

Productivity, leveled up

The ASUS ExpertBook P3 delivers the perfect blend of performance, security, and portability. Powered by up to a 13th-generation Intel® Core™ i7 processor, this laptop effortlessly handles demanding tasks and AI-powered productivity tools. It's stunning 2.5K 16:10 anti-glare display delivers immersive visuals, while the ample storage option with dual-SSD support ensures plenty of space for all your files. For added security, the ASUS ExpertBook P3 offers a built-in fingerprint sensor and an integrated TPM 2.0 chip, safeguarding your sensitive data.

- Dual-SSD support up to 3TB storage
- Up to 64 GB5 DDR5 dual memory
- AI noise-cancelling
- Business-grade security
- Military-grade durability
- 180° lay-flat hinge

- Up to 13th Gen Intel® Core™ i7 processor
- Lightweight starting from 1.36kg[1]
- Comprehensive IO ports meet all connectivity needs
- TPM 2.0 to safeguard sensitive data
- ASUS AI ExpertMeet to superchage meeting productivty and efficiency to supercharge productivity[2]
- ASUS ExpertGuardian with business-grade NIST Cybersecurity Framework

P3605 P3405

1. Weight may vary according to configuration. 2. For the full AI feature experience, 12 GB of memory is required.

ASUS ExpertBook P1 Series (P1403/P1503)

Elevate your efficiency, anywhere

Lightweight at just 1.4kg, the ASUS ExpertBook P1 boosts productivity with AI ExpertMeet, up to 13th Gen Intel® Core™ i7 performance, and dual-SSD storage. Its sleek design is built for business on the go, featuring a fingerprint sensor and TPM 2.0 chi[1] to safeguard your data—your secure, reliable work companion.

1. TPM may vary according to configuration. 2. For the full AI feature experience, 12 GB of memory is required. 3. Weight may vary according to configuration.

ASUS ExpertBook P3 Series (PM3406/PM3606)

AI-Powered. Expert-Crafted.

Built for today's agile businesses, the ExpertBook P3 delivers business-level performance in a portable, secure package. With up to AMD Ryzen™ AI 7 PRO processors[1], it powers through everyday workloads with confidence. The crisp 2.5K anti-glare display[2] and dual-SSD make it ideal for mobile productivity. For security, the ExpertBook P3 features ASUS ExpertGuardian, including a NIST SP 800-155 compliant BIOS, a built-in fingerprint sensor, and a TPM 2.0 chip — ensuring your sensitive data stays protected from silicon to software, wherever you work.

- ASUS AI ExpertMeet[3]
- Comprehensive IO ports
- Business-grade security
- Military-grade durability
- 180° lay-flat hinge
- AI noise-cancelling

- Up to AMD Ryzen™ AI 7 PRO processors
- Dual-SSD support up to 3TB storage[4]
- Up to 64GB DDR5 RAM[5]
- Power through AI workloads with up to 45W TDP
- Productivity on the go with high-capacity 70Wh battery
- Always stay connected with up to WiFi 7

PM3606 PM3406

1. AMD Ryzen™ AI PRO processors are optional, please contact ASUS local sales for more details. 2. 2.5K display is an optional feature. 3. For the full AI feature experience, 12 GB of memory is required. 4. Available options include single 2 TB SSD or 512 GB+512 GB dual SSD. 5. Memory may vary according to configuration. It's upgradable up to 32+32 GB.

Design and durability

Built for durability and modern workflows, the ASUS ExpertBook P3 features a sleek design with an up to 88% screen-to-body ratio, 144Hz refresh rate[6], a larger precision trackpad, and ExpertCool thermal technology that works open or closed—all tested to U.S. military-grade durability standards[7] for reliability anywhere.

AI Productivity

AI-powered for next-gen productivity, the ASUS ExpertBook P3 is a Copilot+ PC, delivering instant access to Microsoft Copilot features on demand. With ASUS AI ExpertMeet[5], users can generate meeting minutes, view real-time translated subtitles, and add watermarks—streamlining collaboration and communication with intelligent efficiency.

Business-grade security

ASUS ExpertGuardian is built to give growing businesses peace of mind, with enterprise-grade safeguards including a NIST SP 800-155 compliant BIOS, Windows 11 Secured-core technologies, biometric login with FIDO2 authentication, and five years of update support. It also comes with a complimentary 1-year McAfee+™ Premium membership[8]

ASUS ExpertBook P1 (PM1403/ PM1503)

Elevate your efficiency, anywhere

The compact and elegant ASUS ExpertBook P1 combines lightweight mobility at just 1.4kg[1] with sophisticated design. Enhanced by AI-powered features, it maximizes your productivity while delivering exceptional performance through up to an AMD Ryzen™ 7 processor and up to 1TB of dual SSDs storage. With comprehensive security technology protecting your privacy and business data, the ExpertBook P1 is your reliable companion for modern business.

- Up to AMD Ryzen™ 7 processor
- AI-enhanced productivity
- ASUS AI noise-canceling technology
- ASUS ExpertGuardian — business-grade security
- Military-grade durability

- Windows 11 Pro - ASUS recommends Windows 11 Pro for business
- Up to AMD Ryzen™ 7 processor with AMD Radeon™ Graphics
- Up to 64GB DDR5[2] and up to 1TB dual SSDs capacity for intensive task completion
- Experience AI-enhanced productivity with Copilot, ASUS AI noise-canceling technology and AI camera
- Engineered with military-grade[3] strength to ensure resilience to nvironmental extremes
- Safeguard your confidential data with the ASUS ExpertGuardian and free 1-year McAfee+ Premium membership

PM1503 PM1403

1. Weight may vary according to configuration. 2. Memory may vary according to configuration. It's upgradable up to 64GB. 3. The testing regime includes the requirements of both military-grade standards and ASUS quality tests, and varies depending on device. MIL-STD-810H testing is conducted on selected ASUS products only. Note that the MIL-STD-810H testing helps to ensure the quality of ASUS products but does not indicate a particular fitness for military use. The test is performed under laboratory conditions. Any damage caused by attempts to replicate these test conditions would be considered accidental, and would not be covered by the standard ASUS warranty. Additional coverage is available with ASUS Business Support.

ASUS ExpertBook B Series

Business excellence with AI

ExpertBook laptops are designed to focus on take-anywhere mobility, crafted with lightness, power, and toughness, while prove that business laptops can also be stylish, sophisticated and elegant, helping your business to project a truly professional outlook. Along with the robust security features, you're allowed to get things done fast, securely, and intelligently, anytime and anywhere.

The world's lightest 14" OLED business laptop[1]

Expertly crafted with meticulous attention to detail, ExpertBook B9 OLED boasts a premium magnesium-lithium build that makes it the world's lightest 14-inch OLED business laptop. Its sleek and sophisticated design exudes luxury, while its super-slim bezels allow for a 14-inch display to fit within a compact 13-inch-class chassis — providing both functionality and style.

ASUS ExpertBook B9 OLED (B9403)

The epitome of sustainable excellence

Designed with premium magnesium-lithium alloy, ASUS ExpertBook B9 OLED pushes the limits of lightness for ultimate portability and durability. With an environmentally-friendly design, brilliant 16:10 OLED display, AI-powered conferencing for modern work experiences, the latest Intel® Core™ 7 processor (Series 1) with Intel vPro® platform and a multitude of enterprise-grade security features, ExpertBook B9 OLED is the perfect partner for executives and business travelers, upping both your green credentials and professionalism — and setting a new benchmark for elite business laptops.

- Ultralight magnesium-lithium
- Sustainable technology
- MIL-STD 810H: 28 procedures passed
- Discrete TPM 2.0 chip
- NFC reader integrated
- Dual smart-cooling fans

- The world's lightest 14" OLED business laptop, weighing a mere 990g[1]
- Up to Intel® Core™ 7 processor (Series 1)
- Dedicated Copilot key for more AI exploration
- Sustainable across the product lifecycle
- All-metal premium magnesium-lithium alloy chassis
- MIL-STD 810H US military-grade durability

DESIGN AWARD 2024

B9403

1. As of November 17, 2023, based on internal ASUS market analysis comparing the size and weight of the highlighted ASUS laptop to competitor products from vendors including LG, HP, Dell and Lenovo. Actual weight may vary by specifications. 2. Actual results may vary depending on model and manufacturing processes.

Sustaining an incredible future

ExpertBook B9 OLED incorporates a sustainable design to help achieve a circular future toward net zero. It has been awarded multiple internationally recognized environmental certifications, while also employing the patented Thixomolding process to reduce production materials by up to 29%[2] and manufacturing time by up to 75%[2]. This maximizes product quality while minimizing environmental impact.

Modern work experiences

ExpertBook B9 OLED features a stunning OLED 16:10 screen, which delivers vivid and sharp visuals. It's equipped with dual smart-cooling dual fans that keep the laptop running cool and quiet during intense workloads. Along with an AI-powered camera and noise-cancelation technology for superior-quality virtual meetings, ExpertBook B9 OLED heightens modern work experiences.

ASUS EXPERTBOOK I B3 SERIES

ASUS ExpertBook B5 (B5405/B5605)

Smart, secure AI power for business

ASUS ExpertBook B5 is a lightweight, AI-enhanced marvel that combines the latest Intel® Core™ Ultra processor with Intel vPro® and built-in Intel® Arc™ graphics[1], ushering in a new era of productivity. It is your reliable business partner with superb on-the-go performance, enterprise-grade security and versatile customization for strategic-thinking professionals — and infused with AI to make lighter work of the modern business world.

AI-empowered productivity | Lightweight | Discrete TPM 2.0 chip | ASUS ExpertGuardian | Dual SSD up to 2TB with RAID support | All-day battery life

- Up to Intel vPro® with Intel® Core™ Ultra processors (Series 2)[1]
- Dedicated NPU capable of 13 TOPS, up to 99 total-platform TOPS[2]
- ASUS ExpertGuardian with enterprise-grade security
- Flexible configurations to streamline IT management
- Premium all-metal design, starting at 1.36kg[3]
- Sustainable design with Digital Product Passport (DPP) for circular economy

PC PRO BEST OF CES 2025

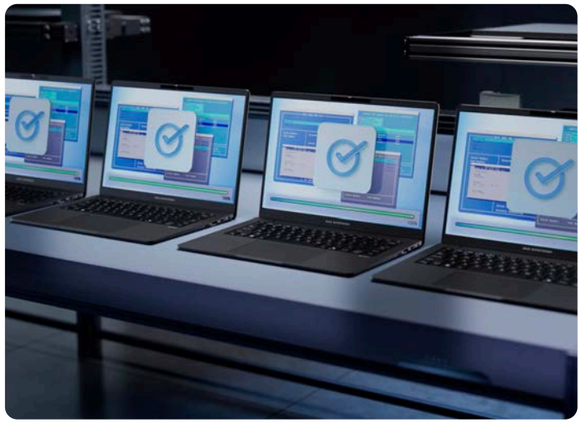

B5605 B5405

1. Intel® Core™ Ultra processors (Series 2) and Intel vPro® are available on selected models only. Availability varies by country and region. 2. The figures are based on theoretical performance. Actual performance may vary in real-world situations. 3. Weight may vary according to configuration.

Enterprise-grade security

Endpoint security is crucial for risk management. ASUS ExpertGuardian brings a host of advanced technologies to enhance enterprise cyber-resilience. Engineered with Dual BIOS ROM, NIST SP 800-155-compliant BIOS and Windows 11 Secured-core PC technologies, it offers comprehensive protection to safeguard your credentials starting at the hardware level and extending across software and services.

Flexible customization

To meet diverse demands within large workforces, ASUS ExpertBook B5 provides a wide range of configurable features allowing for easy standardization that fits into existing IT environments efficiently. Custom software configuration ensures devices are ready for productivity right out of the box, with custom images and applications tailored to your needs — ready for use.

Advanced manageability

Designed for effortless serviceability and advanced manageability, ASUS ExpertBook B5 empowers modern workforces. Modular design features, such as tool-free battery latch, allow for easy upgrades and repairs with a common crosshead screwdriver — reducing downtime and minimizing IT costs. Comprehensive lifecycle services, tailored to business needs, ensure optimal performance and security throughout the device's lifecycle.

ASUS ExpertBook B3 (B3405/B3605)

AI PC, configured for you

ASUS ExpertBook B3 AI PC offers extensive customization to empower your daily business needs. It is powered by up to Intel® Core™ Ultra 7 with Intel vPro®, AI Boost NPU, and Intel Arc graphics for seamless performance. It features AI tools such as ASUS AI ExpertMeet, Microsoft Copilot, and AI noise-canceling. With military-grade durability, Wi-Fi 6E, full I/O ports, advanced security, long battery life and eco-friendly design, this lightweight laptop delivers flexibility, and productivity—anytime, anywhere.

- AI-enhanced productivity
- Intel® Core™ Ultra processors (Series 2) with Intel vPro®
- Portable for practicality
- ASUS ExpertGuardian
- Comprehensive I/O ports
- Sustainable design

- Windows 11 Pro - ASUS recommends Windows 11 Pro for business
- Powered by up to the latest Intel® Core™ Ultra 7 processor with Intel vPro® and Intel® Arc graphics
- Intel AI Boost NPU and ASUS AI ExpertMeet[1] to supercharge productivity
- ASUS ExpertGuardian with the NIST cybersecurity framework, and McAfee Smart AI™ threat detection[2]
- Dual SO-DIMM up to 64 GB DDR5 RAM, 1.42 Kg[3] lightweight design, 14" display with up to 63 Wh battery[4]
- Brand-new design with optimized thermal performance, zero-screw quick battery servicing design, ensuring effortless battery replacement

iF DESIGN AWARD 2025

ASUS ExpertBook B3 Flip (B3402)

Maximum flexibility anytime, anywhere

ASUS ExpertBook B3 Flip is designed to help you work or learn with ease and flexibility—anytime, anywhere. Its versatile 360°-flippable design and handy garaged stylus[1] enables total flexibility, empowering use in diverse settings and scenarios. Two-way AI noise cancellation ensures clear, distraction-free calls—at home, in the office, or on the go. ASUS Antibacterial Guard[2,3] inhibits 99% of bacterial growth, while 4G LTE[4] and WiFi 6E[5] deliver fast, secure connectivity anywhere.

All-round versatility | Two-way AI-powered noise cancellation | Speedy mobile connectivity | Everyday health protection | Garaged stylus[1] | Enterprise-grade security

- Windows 11 Pro - ASUS recommends Windows 11 Pro for business
- Up to Intel® Core™ 7 processor (Series 1)
- 360°-flippable design with MPP 2.0 garaged stylus[1]
- ASUS Antibacterial Guard protection
- Two-way AI noise-canceling audio technology with instant mic-mute key
- Enterprise-grade security with fingerprint-reader power button

B3402

1. The garaged stylus is optional. 2. The antibacterial treatment is tested by an independent third-party laboratory according to the ISO 22196 standard (measurement of antibacterial activity on plastics and other non-porous surfaces), using bacterial cultures that include Escherichia coli and Staphylococcus aureus, with an antibacterial activity (R) result of R > 2. R = 2 indicates a 99% reduction in bacterial activity compared to an untreated surface. 3. The antibacterial treatment is registered by the US EPA and authorized under EU BPR. 4. 4G LTE is optional. MicroSD card reader + nano SIM combo is only for LTE SKU. 5. WiFi 6E network card is available on selected models. The connectivity of WiFi 6E band may vary according to the regulation and certification of each country/ region.

ASUS ExpertBook B1 (B1403/B1503)

Elevated, effortless and secure

ASUS ExpertBook B1 offers extensive customization options to empower your business. Powered by the latest Intel® Core™ 7 processor, it offers military-grade durability, a full set of I/O ports, Wi-Fi 6E, and strong security. In addition, it features AI tools such as Copilot in Windows and noise-cancelation. Its lightweight design, long battery life, impressive visuals and audio ensure flexibility on the go.

AI-enhanced productivity | Up to Intel® Core™ 7 processor | Portable for practicality | Full I/O ports | Sustainable design | Enterprise-grade security

D901MDR

Maximized Productivity for Demanding Professionals

The ExpertCenter D9 Mini Tower features Intel® Core™ 14th-gen vPro® processors, dual SSD RAID 0/1 support, and optional NVIDIA® GPU for graphics-intensive tasks. It drives four displays without extra cards, delivering unmatched productivity and data security for businesses.

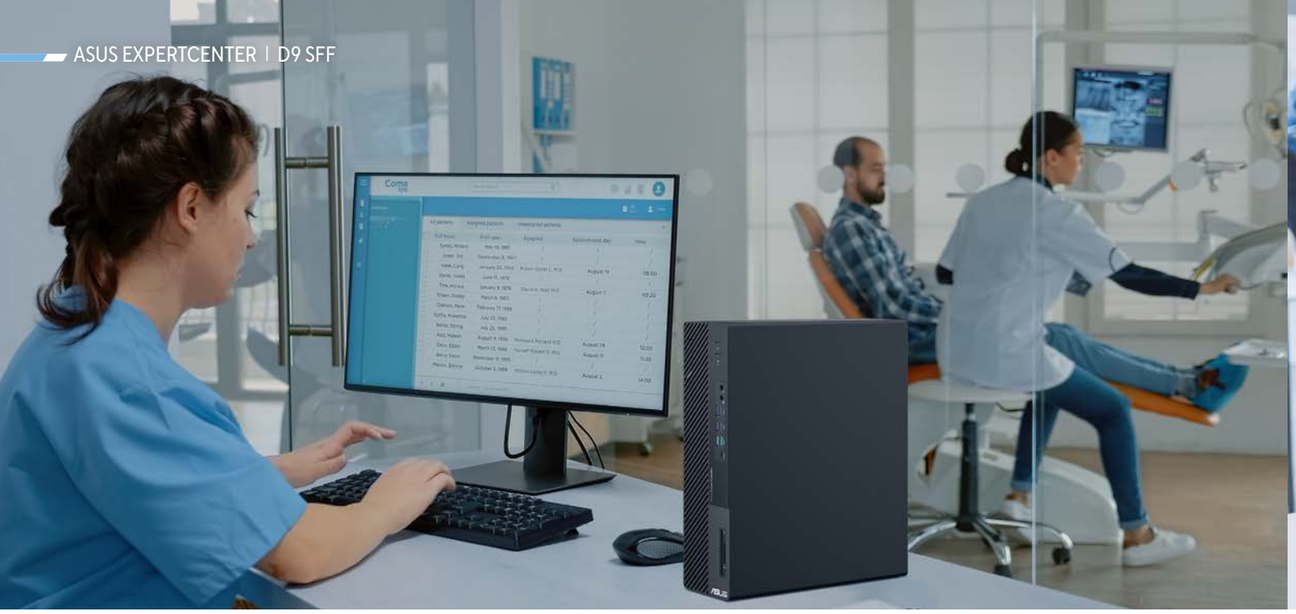

Unlock Next-Level Efficiency

Copilot in Windows with commercial data protection is your AI assistant at work. Supercharge your productivity and achieve more with less time and effort using Copilot. Experience your everyday AI companion now with the dedicated Copilot key. Just one click for endless exploration.

Ready for the business world

The ExpertCenter D9 Mini Tower delivers exceptional connectivity with five front USB ports (including USB-C®), legacy serial/parallel ports, plus optional smart-card and SD card readers - providing maximum peripheral compatibility while maintaining PCIe slots for critical business expansions.

ASUS ExpertCenter D9 SFF (D901SDR)

Maximum productivity, rock-solid reliability

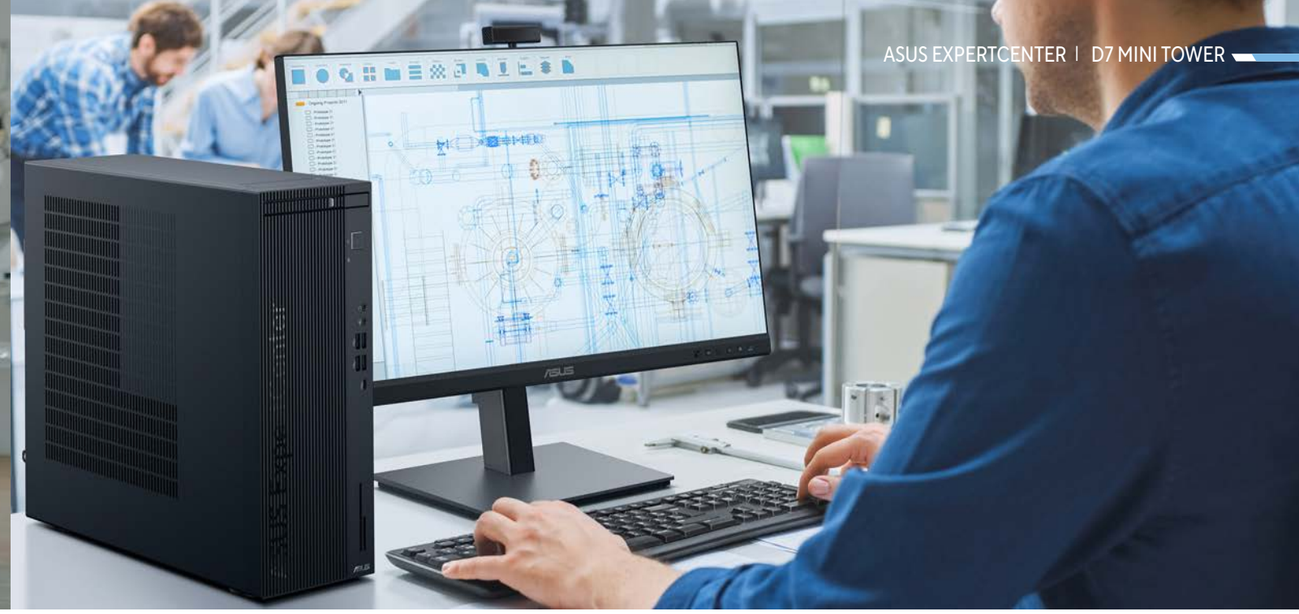

ASUS ExpertCenter B700 SFF combines high performance, enterprise-grade security with ASUS ExpertGuardian, and management features in an ultra-compact, sleek design, providing AI-driven business users with a flexible and organized workspace. Designed to withstand and meet MIL-STD-810H US military standards1, it features an expandable chassis, ensuring prolonged reliability and convenient upgrades for professionals.

Secure manageability | Efficient expandability | Tool-free chassis | Ultimate reliability | AI power built right in | ASUS ExpertGuardian

- Windows 11 Pro - ASUS recommends Windows 11 Pro for business
- Up to Intel vPro® with Intel® Core™ i7 14th gen processor
- Up to 128 GB DDR5 memory
- Up to 3TB HDD + 4 TB SSD storage
- MIL-STD 810H durability
- Optional firmware TPM

D901SDR

ASUS ExpertCenter D7 Mini Tower (D701MER)

Powerful, expandable and always reliable

The ExpertCenter D7 Mini Tower desktop with AI-driven Microsoft Copilot combines high performance, enterprise-grade security, and management features in a compact and sleek design, providing business users with a flexible and organized workspace. Designed to withstand and meet MIL-STD-810H US military standards1, it features an expandable chassis, ensuring prolonged reliability and convenient upgrades for professionals.

Secure manageability | Efficient expandability | Tool-free chassis | Ultimate reliability | TPM 2.0 chip | Kensington® slot / padlock

- Windows 11 Pro - ASUS recommends Windows 11 Pro for business
- Up to Intel® Core™ i7 14th gen processor
- Up to NVIDIA® GeForce® RTX 4060 graphics
- 15L compact and tool-free chassis for maximum expandability
- Durability-tested to MIL-STD 810H military-grade and ASUS in-house testing
- Extensive I/O ports to support all your connectivity needs

D701MER

Intel vPro® availability varies according to country. Please check with your local ASUS retailer for details. The testing regime includes the requirements of both military-grade standards and ASUS quality tests and varies depending on device. MIL-STD-810H testing is conducted on selected ASUS products only. Note that the MIL-STD-810H testing helps to ensure the quality of ASUS products but does not indicate a particular fitness for military use. The test is performed under laboratory conditions. Any damage caused by attempts to replicate these test conditions would be considered accidental, and would not be covered by the standard ASUS warranty. Additional coverage is available with ASUS Premium Care. Terms and conditions apply. For more details, please read the full terms and published on https://www.asus.com/content/asus-offers-adobe-creative-cloud/

- Unique integrated UPS design to protect your data from unstable power currents
- Fanless design for a quiet operation
- Compact productivity with expansive 15.6” multi-touch screen
- Standard VESA mount compatible
- Convenient IO selections for versatile business applications

E1600

1. The uninterruptible power supply (UPS) is an optional feature. Availability varies by country and region. VESA mount compatible. Wall-mount screws are optional accessories.

ASUS Chromebook

Simple, Fast, and Effective

Simple, yet effective — that's what the ASUS Chromebook Series is all about. ASUS Chromebook laptops provide full connectivity to give you quick and easy access to everything you have stored in the cloud. It’s easy to manage and update, and helps keep costs down. And with ChromeOS, it’s a convenient gateway to the immense variety of apps on the Google Play Store for work or school.

ASUS ExpertBook CX54 Chromebook Plus Enterprise (CX5403)

Elevate your competitive edge with AI

ASUS ExpertBook CX54 Chromebook Plus Enterprise is engineered to elevate your competitive edge. With 2x the power, speed, memory and storage of other devices[1], your people are empowered to do their best work. Built-in video call control tools automatically enhance clarity and lighting, cancel noise, and blur background. Powered by the latest Intel® Core Ultra 7 processor, ChromeOS, and new features, ASUS ExpertBook CX54 Chromebook Plus Enterprise drives your workforce, unleash your organization's creativity, and enable offline work from anywhere.

Intel® Core™ Ultra powered | High def viewing | Sustainably sleek | World-class WiFi | Google AI features | Thoughtful connectivity

- The first ASUS Expert Chromebook Plus with Intel® Core™ Ultra
- Intel vPro Enterprise and Chrome Enterprise upgrade
- 8M HDR web camera with AI-powered tools
- Ultralight all metal chassis
- High-resolution WQXGA (2560x1600) display with optional touchscreen
- 89% screen-to-body ratio with 3-sided NanoEdge design

reddot winner 2024

DESIGN AWARD 2024

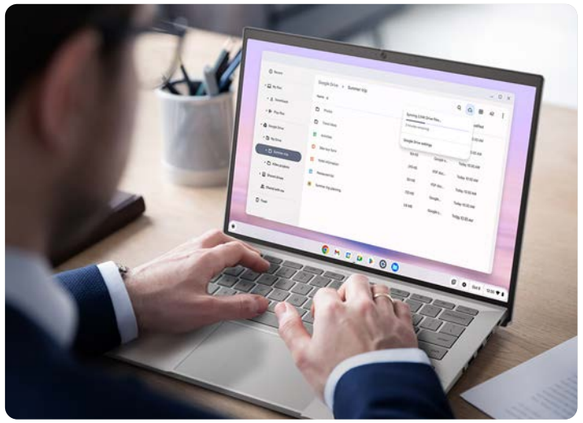

CX5403

1. When compared to top selling Chromebooks from July 2022 to Dec 2022.

Sustainably sleek and stylish

The sleek, ultra-light, 1.3 kg all-metal chassis is crafted from recycled aluminum, manufactured with renewable energy. The AI laptop is wonderfully thin, at just 1.69 cm — ensuring ASUS ExpertBook CX54 Chrome book Plus Enterprise is the ideal option for today's work paradigm, portable enough to travel with you anywhere.

High def viewing

ASUS ExpertBook CX54 features a bright 14-inch 16:10 optional touchscreen with sharp 2560x1600 resolution. Its three-sided NanoEdge design offers an immersive 89% screen-to-body ratio. An anti-glare finish minimizes reflections, and an oleophobic coating resists fingerprints, maintaining visual clarity.

Do more than you thought you could

Chromebook Plus offers 2x speed, memory, and storage[1] for increased productivity. ChromeOS enables offline work and easy zero-touch enrollment. ASUS ExpertBook CX54 benefits from Intel vPro, Chromebook Plus Enterprise Upgrade, and Google Admin console management for automatic updates and security.

ASUS Chromebook Plus CX34 (CX3402)

Every experience, stepped up

ASUS Chromebook Plus CX34 is powerful, portable and primed to push productivity further — offering double the speed, double the memory, and double the storage[1], plus AI-powered Google and Adobe features to do more of what you love. With a stylish, lightweight and durable design, it's the perfect choice for individuals and professionals striving for enhanced productivity. Packed with features to help you achieve more, ASUS Chromebook Plus CX34 is expertly engineered to step up every experience.

The power to stay productive | Crystal clear calls | Fast and stable connections | Seamless visuals | Perfect for on-the-go | Military grade strength

- Up to Intel® Core™ 7 processor
- Chromebook Plus with AI powered apps
- 14' inch 1920x1080 FHD 250nits display for immersive experience
- FHD webcam for high-quality visuals
- WiFi 6 technology
- Efficient and intuitive control with optional touchscreen

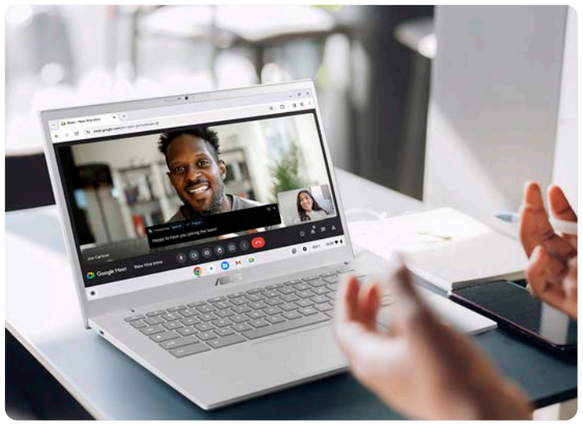

CX3402

1. When compared to top selling Chromebooks from July 2022 to Dec 2022. 2. Subscription required. 3. Touchscreen is optional.

The power to stay productive

The ASUS Chromebook Plus CX34, powered by up to an Intel Core 7 with 16 GB RAM and up to 512 GB SSD or 256 GB UFS, delivers responsive performance. It includes Adobe Photoshop Express[2] for photo editing and LumaFusion for video editing with features like track layering and keyframing.

Clear webcam and instant privacy

The FHD webcam delivers clear visuals for online meetings, learning, and photos, featuring a webcam cover. ASUS Chromebook Plus CX34 enhances video calls with AI-powered tools for improved clarity, lighting, noise cancellation, and background blurring, ensuring you always look and sound professional, regardless of the application you're using.

Seamless visuals

ASUS Chromebook Plus CX34 is engineered with a Full HD touch[3] display to deliver glorious visuals while remaining productive. The three-sided NanoEdge design maximizes screen space for immersive viewing experiences — so it's ideal for work or entertainment, at home or away.

ASUS Chromebook CM30 Detachable (CM3001)

Versatile modes, boundless delight

ASUS Chromebook CM30 Detachable is the perfect portable companion for study, work and play, with a versatile 2-in-1 design that allows it to transform seamlessly between laptop and tablet. With a two-way, push-pop stylus to quickly capture ideas and notes, both front and world-facing cameras, an impressive up to 12-hour battery life[1], fast WiFi 6 connectivity[2] and military-strength design, ASUS Chromebook CM30 Detachable is your effective, fun and freeing everyday partner — ready to delight at every turn.

Versatility for endless possibilities
Perfect for on-the-go
Packed with extra strength
Creative and productive
Fast WiFi 6 connectivity
Ergonomic keyboard

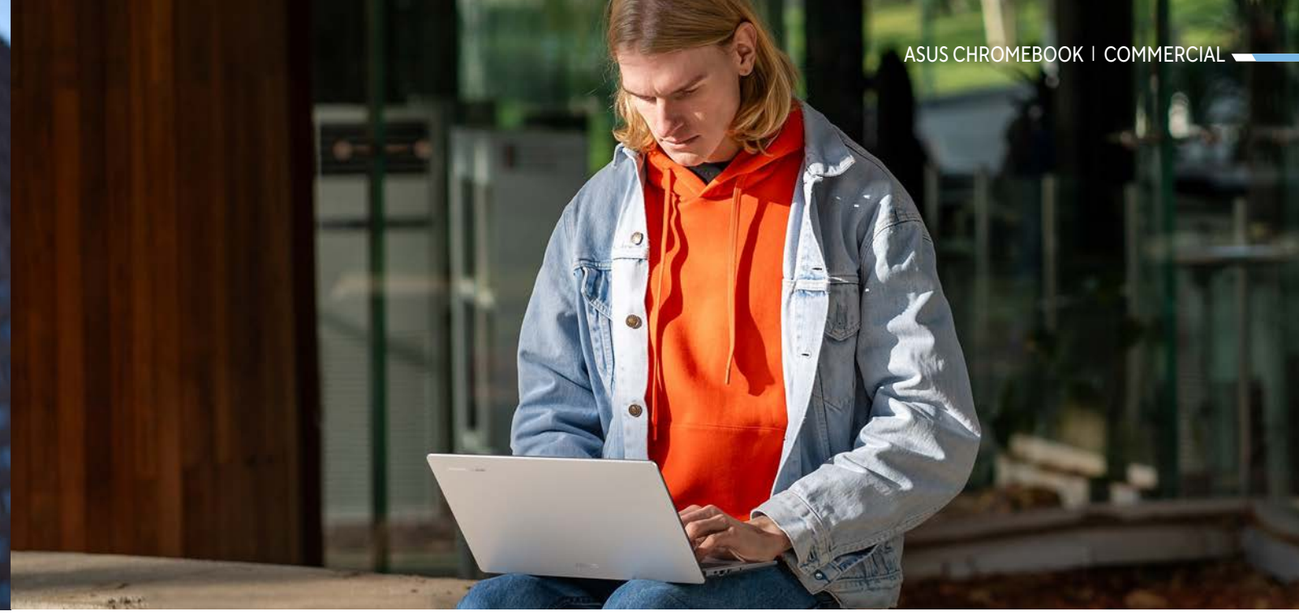

- Easily transform between laptop and tablet
- Two-way push-pop garaged stylus[3]
- 10.5-inch 16:10 WUXGA display
- US military grade MIL-STD 810H standard[4]
- Impact shield for optimal protection[5]
- WiFi 6 technology[2] and 4G LTE[6]

DESIGN AWARD 2024

CM3001

1. Battery life may vary based on device and upon usage and other conditions. 2. The connectivity of WiFi 6 band may vary according to the regulation and certification of each country/ region. 3. Stylus is optional 4. The testing regime includes the requirements of military-grade standards, and varies depending on device. 5. Impact shield is optional 6. The connectivity of WiFi 6 band may vary according to the regulation and certification of each country/region. 7. This feature varies by region.

ASUS Chromebook Plus CX14/CX15 Series (CX1405/ CX1505)

Style Meets Power

Take a closer look at the ASUS Chromebook Plus CX14 CX15 series with Google AI features built in! And with double the speed, memory, and storage[1] you have the power to do more. Suitable for all your daily tasks, and perfect for entertainment. Pick one of the two stylish colors and let this lightweight, user-intuitive marvel level up your lifestyle.

Stylish and sustainable
Lightweight and effortless
FHD display
Thoughtful connectivity
Intel® Core™ 3 N355 processor
180° hinge

- 1.39 kg lightweight design[2]
- Expansive FHD display with a wide-angle view and 87% screen-to-body ratio[3]
- 180-degree hinge for a variety of use scenarios.
- Full connectivity, including an HDMI port to enhance learning experiences
- Easy-to-swap battery design and simplified assembly
- Passed up to 24 MIL-STD 810H US military durability tests[4]

DESIGN AWARD 2025

reddot winner 2025

CX1505 CX1405

1. When compared to top selling Chromebooks in 2023. 2. For CX14 Plus 3. For CX15 Plus 4. The testing regime includes the requirements of both military-grade standards and ASUS quality tests, and varies depending on device. MIL-STD-810 testing is conducted on selected ASUS products only. Note that the MIL-STD-810 testing helps to ensure the quality of ASUS products but does not indicate a particular fitness for military use. The test is performed under laboratory conditions. Any damage caused by attempts to replicate these test conditions would be considered accidental, and would not be covered by the standard ASUS warranty.

ASUS Chromebook CX14/CX15 Series (CX1405/CX1505)

Style That Works

Take a closer look at the ASUS Chromebook CX14 CX15 Series, a helpful ChromeOS laptop that is always ready for work or play, wherever you are. It's speedy and secure, suitable for all your daily tasks, and perfect for entertainment. Pick one of the many stylish colors and let this lightweight, user-friendly marvel level up your lifestyle.

- MIL-STD 810H US military-grade durability
- Fast, stable connections with dual-band WiFi 6 (802.11ax)

CM1402F

1. Optional garaged stylus available on Flip model only. 2. The testing regime includes the requirements of both military-grade standards and ASUS quality tests, and varies depending on device. MILSTD-810H testing is conducted on selected ASUS products only. Note that the MIL-STD-810H testing helps to ensure the quality of ASUS products but does not indicate a particular fitness for military use. The test is performed under laboratory conditions. Any damage caused by attempts to replicate these test conditions would be considered accidental, and would not be covered by the standard ASUS warranty. Additional coverage is available with ASUS Premium Care/ASUS Business Support. 3.The antibacterial treatment is tested by an independent third-party laboratory according to the ISO 22196 standard.

ASUS Education

Tough, compact, school-ready

ASUS is dedicated to solving the unique challenges facing today's students and educators. We are here to help cultivate the minds of the next generation with a comprehensive, student-centered products that include Chromebooks, and Windows-based laptops to enable progressive and innovative learning in an ever-changing world.

ASUS BR14 Series (BR1402C/BR1402F)

Your dependable, flexible ally

ASUS BR14 is a great tool for K-12 education, featuring an expansive 14-inch display, a rugged, modular design with replaceable internal parts for an enhanced product lifespan. It's built to shrug off accidental drops, and is tested to stringent US military-grade standards[1] as well as our own industry-leading tests for assured durability.

TÜV-certified Display | Easy-to-service | Garaged Stylus[1] | Corning® Gorilla® Glass | Intel® Core™ i3 N305 Processor | Flexible Hinge

- Windows 11 Pro - ASUS recommends Windows 11 for Education
- Up to Intel® Core™ i3 N305
- Marvelous 14" rugged laptop
- MIL-STD-810H US military durability standard[2]
- ASUS Antimicrobial Guard protection[3]
- Modular design for easy maintenance

BR1402C BR1402F

1. Optional garaged stylus available on Flip model only. 2. The testing regime includes the requirements of both military-grade standards and ASUS quality tests, and varies depending on device. MILSTD-810H testing is conducted on selected ASUS products only. Note that the MIL-STD-810H testing helps to ensure the quality of ASUS products but does not indicate a particular fitness for military use. The test is performed under laboratory conditions. Any damage caused by attempts to replicate these test conditions would be considered accidental, and would not be covered by the standard ASUS warranty. Additional coverage is available with ASUS Premium Care/ASUS Business Support. 3.The antibacterial treatment is tested by an independent third-party laboratory according to the ISO 22196 standard.

ASUS BR11/BR12 Series (BR1104/BR1204)

Ruggedized excellence for limitless learning

ASUS BR11/BR12 Series stands out as an excellent tool for limitless learning in K-12 education, boasting a durable fingerprint-resistant finish and robust modular design that incorporates replaceable internal components, thereby extending its product lifespan. Smartly crafted to withstand accidental drops, ASUS BR1204F undergoes rigorous testing, meeting US military-grade standards[1] and exacting in-house ASUS assessments to ensure unwavering durability — making it the perfect choice for modern education.

- Ruggedized design
- Garaged stylus[1]

Copilot with commercial data protection requires Microsoft 365 E3, E5, Business Standard, Business Premium or A3 or A5 for faculty, or accessed using Microsoft Entra ID

BR1104 BR1204

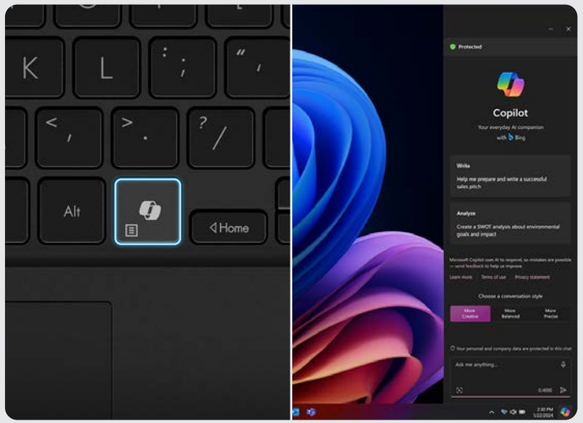

Ultimate ruggedized design

ASUS BR11/BR12 Series is a rugged laptop for students that is smartly designed to endure everyday knocks, bumps, drops and spills without damage. Whether it's accidentally dropped from a classroom desk or slips from a backpack while out and about, ASUS BR Series is crafted to keep on going.

Modular design

With a design that's intentionally easy to maintain, technicians can access, service and upgrade the internal hardware of ASUS BR11/BR12 Series in just in five steps. This minimizes downtime to maximize learning opportunities and productivity.

Microsoft Copilot for education

Microsoft Copilot[6] is your AI assistant for education, offering AI-powered chat with enterprise data protection at no additional cost. Experience your dedicated learning companion now with the exclusive Copilot key — just one click for endless exploration. Enhance your educational journey and make learning more efficient and engaging!

ASUS Chromebook CR Series (CR1204/CR1104)

Learning without limits

ASUS Chromebook CR Series provide a range of versatile tools and capabilities tailored for the needs of K-12 students, while also offering teachers seamless management. Its rugged and modular design, featuring replaceable internal parts, guarantees both durability and longevity.

All-round rubber bumper | Versatile 180° or 360° design | Comfortable 11-inch or 12-inch display | Modular easy-maintenance design | Military-grade durability | ASUS Antimicrobial Guard

- Powered by Intel® Processor N-series CPU
- Up to 16 GB RAM, 128 GB eMMC, WiFi 6E[1] and 4G LTE[2] for fast connectivity
- Up to 12.2-inch Corning® Gorilla® Glass touch panel[3] and rubber bumper for all-around protection
- MIL-STD 810H US military-grade[4] durability for everyday strength
- Up to 360°-flippable hinge provides adaptability for an enriched educational experiences
- Up to 1080p FHD front-facing webcam and a 13MP world-facing camera provide students with clearer image quality

CR1104 CR1204

1. WiFi 6E network card is available on selected models. The connectivity of WiFi 6E band may vary according to the regulation and certification of each country/region. 2. 4G LTE is optional. 3. Corning® Gorilla® Glass is optional and only applies to touchscreen SKU. 4. The testing regime includes the requirements of both military-grade standards and ASUS quality tests, and varies depending on device. MIL-STD-810 testing is conducted on selected ASUS products only.

ASUS Chromebook CZ Series (CZ1204/CZ1104)

The rugged, student-centric study mate

ASUS Chromebook CZ Series stand out as a durable and valuable laptop tailored for K-12 student, with a portable and durable design that guarantees enduring value and empowers engaged learning — anywhere. The series boasts up to 17 hours of battery life[1], empowering students to extend their learning beyond traditional limits.

All-round rubber bumper | Versatile 180° or 360° design | Comfortable 11-inch or 12-inch display | Modular easy-maintenance design | Military-grade durability | ASUS Antimicrobial Guard

- Up to 8 GB RAM, 128 GB eMMC, WiFi 6 and 4G LTE[3] for fast connectivity
- MIL-STD 810H US military-grade durability for everyday strength
- Up to 360°-flippable hinge provides flexibility and enriched educational experiences
- Easy-to-service modular design for easy maintenance and full I/O ports for convenient learning experiences

CZ1104 CZ1204

1. Based on Chromium OS Power Load Test. Actual battery life depends on usage, specifications, applications and environment, among other factors. 2. Corning® Gorilla® Glass is optional and only applies to touchscreen SKU. 3. 4G LTE is optional.

ASUS NUC Smaller, Faster, Better and AI Ready

US MILITARY GRADE MIL-STD 810H Multiple Tests Passed

ASUS NUC/Mini PC

The Business Mini PC for Maximize Productivity

The ASUS NUC/mini PC delivers industry-leading quality and reliability in a compact, modular design. Built for business, it powers AI, graphics-intensive workloads, and everyday enterprise tasks in the smallest form factor.

Best-in-Class Performance

ASUS NUC/Mini PCs offer high performance with advanced thermal design, reliable connectivity and easy upgrades—ensuring smooth operations and lasting value.

Enterprise-Grade Security

ASUS NUC/Mini PCs deliver enterprise-grade security with UEFI Secure Boot, self-healing BIOS, lock options, TPM, ACC management, and Intel® vPro.

AI-Enabled Mini PCs

ASUS NUC mini PCs can easily handle demanding AI workloads, making them well-suited for modern business needs.

Versatile & Customizable

From space-saving office mini PCs to rugged NUC boards and chassis for the factory floor, there's a solution for every business need.

Tested Tough for the Quality Beyond Military Standards

Top-Quality, Rigorously Tested

Exceeds MIL-STD-810H and industry benchmarks with thermal, shock, drop tests—ensuring only the highest quality mini PCs.

24/7 Reliability

Demonstrated Mean Time Between Failures of 50,000+ hours through 90 days of continuous testing at 40°C.

Durable Shipping

Survives 4,000 package bumps, ensuring safe delivery even under harsh shipping conditions.

ASUS NUC 14 Pro AI

Create, achieve, and stay secure with AI Innovation

Copilot+ PC | Fast, stable connections | Fingerprint Recognition | Voice Command Support

- World's first compact Copilot+ PC powered by the Intel® Core™ Ultra processor (Series 2)
- Delivering up to 48 NPU TOPS, tripled the AI performance of the previous generation with lower power consumption
- Built-in microphone and speaker with smart AMP support voice command to activate AI Applications.
- Fingerprint Recognition with Secure Boot for Enhanced Security
- Intel® Wi-Fi 7 (5 Gig), Bluetooth 5.4, Thunderbolt™ 4 (DP2.1)

- On-device encryption and verified boot self-check for security
- Accurate AI auto-framing for participants up to 7 meters away
- Advanced Wide Dynamic Range (WDR) technology for balanced exposure in varying lighting conditions

ASUS ASCENT GX10 AI SUPERCOMPUTER

Compact, Powerful, and Scalable

The groundbreaking ASUS Ascent GX10 AI Supercomputer, powered by the state-of-the-art NVIDIA GB10 Grace Blackwell Superchip found in the NVIDIA DGX Spark, brings petaflop-scale AI computing capabilities directly to the desks of developers, AI researchers, and data scientists.

- NVIDIA® GB10 Grace Blackwell Superchip
- NVIDIA® Blackwell GPU128 GB Unified memory
- NVIDIA® NVLink™-C2C
- Optimized Cooling Design

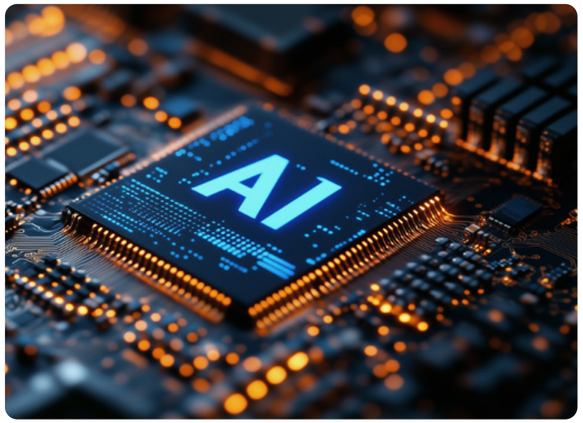

- NVIDIA® GB10 Grace Blackwell Superchip for next-gen AI performance
- Up to 1 petaFLOP of AI performance for demanding workloads
- 128 GB LPDDR5x Coherent Unified System Memory
- NVIDIA® ConnectX®-7 connects two ASUS Ascent GX10 systems to work with larger models
- NVIDIA® AI Software Stack supports AI development and deployment
- Precision-crafted for ultimate thermal efficiency, delivering 1.6× more thermal coverage than comparable compact systems.

Revolutionary AI Performance on Your Desktop

The groundbreaking ASUS Ascent GX10 AI Supercomputer, powered by the state-of-the-art NVIDIA® GB10 Grace Blackwell Superchip found in the NVIDIA DGX Spark, brings petaflop-scale AI computing capabilities directly to the desks of developers, AI researchers, and data scientists. This innovative device is designed to empower local AI development with its exceptional performance and advanced features.

Unparalleled AI Performance

Up to 1 petaFLOP of AI performance using FP4
Delivers up to 1 petaFLOP of AI performance to power large AI workloads.
128 GB LPDDR5x Coherent Unified System Memory
Empowers model development, experimentation, and inferencing with ample memory capacity.

Handles Large Parameter Gen AI Models

Support for AI Models 200 Billion Parameters
Prototype, fine-tune, and infer the latest AI reasoning models directly on your desktop.
Integrated NVIDIA® ConnectX®-7 Network Technology
Link two ASUS Ascent GX10 systems to handle even larger models, such as Llama 3.1 with 405 billion parameters.

ASUS Accessories

ASUS accessories ensure you stay productive, providing your PC or mobile devices with durable and high-quality products, including docking, mouse, keyboard, adaptors, and headsets.

ProArt Mouse MD300

ASUS ProArt Mouse MD300 is the first mouse that works with ASUS Dial, allowing creators to make quick and precise settings adjustments. This premium mouse also features a side scroll wheel and three buttons with professional-grade switches that provide tactile mouse clicks. ProArt Mouse MD300 has a high-performance sensor that tracks at up to 4200 dpi for unmatched precision, even when used on a glass surface.

ASUS SmartO Mouse MD200

ASUS SmartO Mouse is tailor-made to help you work faster, better and smarter. It has been meticulous crafted for a luxurious, low-profile aesthetic with superior ergonomics to provide comfortable, effortless all-day use. With a unique elastic carrying loop and a high-performance sensor that gives it the ability to work on almost any surface, including glass, ASUS SmartO Mouse perfectly combines flexibility, style and functionality. It is your perfect executive partner.

ASUS W5000 Wireless Keyboard & Mouse Set

ASUS W5000 is a wireless keyboard and mouse set designed to free you from being tethered to your PC or laptop. The low-profile keyboard measures an ultrathin 11mm and features chiclet keys with durable, high-quality rubber dome switches for silent, responsive keystrokes.

ASUS Wireless Keyboard & Mouse Set CW100

The ASUS Wireless Keyboard and Mouse Set CW100 gives you unmatched convenience and reliable performance, connecting to your PC or laptop via a single 2.4 GHz nano-transceiver with a range of up to 10 meters. Built-in powersaving technology helps prolong battery life by going into sleep mode when not in use.

ASUS Ultra Mini Universal Adapter

Engineered for easy travel, ASUS 65W USB-C Ultra Mini Universal Adapter features a compact design, high compatibility and changeable plugs, allowing on-the-go pros to charge quickly and easily. With fast-charge support for seamless productivity and integrated overheat and overpower protection, it's the small, smart and lightweight charger that packs a whole lot of power — perfect for your worldwide travels.

ASUS Pen 2.0 SA203H

ASUS Pen 2.0 is the perfect match for your compatible ASUS touchscreen devices, giving you the ability to write, draw or add markup in any supported app. Built-in Microsoft Pen Protocol (MPP) 2.0 technology offers ultra-low latency and fast response, allowing ASUS Pen 2.0 to accurately and effortlessly reproduce the finest lines and broadest brush strokes. A 4096-level pressure sensitivity and 5-350 gram pen tip force enables you to create detailed notes or drawings that accurately capture your thoughts.

ASUS Garaged Stylus SA304H

ASUS's SA304H stylus boasts a two-way push-pop design, ensuring convenience and ease of use. With 4096-level pressure sensitivity and minimal latency, it offers unparalleled accuracy in writing tasks. Its fast charging capability allows for a rapid 15-second full charge, providing an impressive 45 minutes of usage. Additionally, its versatility shines through with smooth performance at angles of up to 55°, enhancing flexibility in creative endeavors.

Clique H10

These exquisite wireless Bluetooth® headphones are specially designed to deliver sensational audio performance that enriches every music listening experience. Clique H10 redefines the Bluetooth® headphone experience with its sensational audio performance and versatile, sleek design. Unique lock-in ear fins ensure earbuds stay securely and comfortably in place during exercise 5+ hours of continuous listening and 260 hours of standby time.

ROG Strix Fusion Wireless

ROG Strix Fusion Wireless is a wireless headset designed to give you freedom of movement. Compatible with PC, its 2.4GHz wireless connection and dual-antenna design offer a more stable and instant audio transmission, letting you game freely and without interruption. Its 50mm ASUS Essence drivers and exclusive airtight chamber technology lets you hear every detail in the game, and its easy touch controls ensure a smooth experience. Get ready to enjoy unparalleled flexibility.

AI Noise-Canceling Mic Adapter

ASUS AI Noise-Canceling Mic Adapter is the world's first USB-C-to-3.5 mm adapter with integrated AI Noise-Canceling Microphone (AI Mic) technology. It uses AI-powered noise cancelation to deliver crystal clear voice communication when used with any 3.5 mm headset with a microphone. Weighing just 8 grams, it includes a digital-toanalogue converter (DAC) that includes exclusive ASUS Hyper-Grounding technology to prevent electromagnetic interference, giving you noise-free audio. Get a big upgrade on sound quality with this small device.

Docking station

The newly upgraded ASUS USB3.0 HZ-3A Plus Dock lets you easily connect your laptop to all your accessories, and also gives you convenient network and audio connections! It connects to your PC via a single USB cable, and features two USB 3.0 ports on each side that now support a powerful fast-charge function for quickly recharging your portable devices. We've also added a DC-out 90W charger port for charging your laptop at the mean time.

ASUS MHS07K monitor ergonomic stand

The ASUS MHS07K monitor ergonomic stand maximizes viewing comfort and improves productivity by giving tilt, pivot, swivel, and height adjustable capability for the ideal viewing position. For example, with the ASUS MHS07K monitor stand, users can pivot the monitor clockwise or counterclockwise 90° into a portrait orientation for less scrolling while reading longer e-mails and web pages.

ASUS MKT02 mini-PC Mounting Kit

The ASUS LCD monitor mounting solution, MKT02 Mini PC Kit, is designed to work with ASUS selective monitors for those who need to mount mini PCs on the monitor, to make the desktop clutter-free and space saving. Easily mount mini PCs on the selective stand to make the desktop clutter-free and space saving. The VESA is 100x100mm compatible.

ASUS Triple 4K Thunderbolt™ 4 Dock DC500

ASUS Triple 4K Thunderbolt™ 4 Dock is an all-in-one docking station designed for creators, and is the smallest 12-in-1 Thunderbolt™ 4 dock. It requires just a single cable connection to a creator laptop to hook up to multiple 4K displays and peripherals, as well as memory card readers for a complete, highly efficient creative workstation.

ASUS USB-C Stand Dock DC310

ASUS USB-C® Stand Dock is a sleek and ergonomic 10-in-1 docking station designed for enhanced productivity. It serves as an adjustable stand, elevating laptops to an ideal position for comfortable viewing. A pair of HDMI® ports help extend screens across two 4K 60Hz displays, while four high-speed USB Type-A ports, 100W of charging power, and additional connectivity options transform any setup into an extremely versatile workstation.

ASUS Triple Display USB-C Dock Duo DC301

ASUS Triple Display USB-C Dock Duo is a sleek, compact one-stop device that streamlines laptop connectivity. Power your laptop through a single cable, connect to your network and peripherals, and multitask with up to four monitors. Simply put ASUS Triple Display USB-C Dock Duo keeps your desk neat, tidy and organized while setting you up for work in the blink of an eye.

ASUS Triple Display USB-C Dock DC300

ASUS Triple Display USB-C Dock is a sleek, compact onestop device that streamlines laptop connectivity. Power your laptop through a single cable, connect to your network and peripherals, and multitask with up to four monitors — including a laptop monitor and three external monitors. It also has an integrated SD card reader for a diverse array of business scenarios. Simply put, ASUS Triple Display USB-C Dock keeps your desk neat, tidy and organized while setting you up for work in the blink of an eye.

ASUS Dual 4K USB-C Dock DC201

ASUS AI Noise-Canceling Mic Adapter is the world's first USB-C-to-3.5 mm adapter with integrated AI Noise-Canceling Microphone (AI Mic) technology. It uses AI-powered noise cancelation to deliver crystal clear voice communication when used with any 3.5 mm headset with a microphone. Weighing just 8 grams, it includes a digital-toanalogue converter (DAC) that includes exclusive ASUS Hyper-Grounding technology to prevent electromagnetic interference, giving you noise-free audio. Get a big upgrade on sound quality with this small device.

ASUS USB-C Mini Dock DC100

ASUS USB-C Mini Dock is a compact and lightweight USB-C® dock that gives PCs and laptops additional expandability options. It features a HDMI® with 4K output, USB Type-A and USB-C for up to 10 Gbps transfer speeds, plus up to 100 W power delivery passthrough.

3.5hr Built-in Battery

- 960 LED lumens output and Full HD native resolution, plus 4K compatibility
- Short-throw lens projects a 40-inch image from one meter, and up to a 120-inch image at three meters
- Includes Google Certified Android TV box with preloaded Netflix
- Connectivity includes Chromecast, HDMI, one USB-C with DP Alt mode and one USB-C for charging, USB Type-A (5 V/1.5 A) and earphone jack
- ASUS Light Wall includes 26 different cinemagraphs for variable ambiances
- Instant autofocus and H/V keystone and four-corner correction

ASUS ProArt Display Professional Monitor (PA32QCV)

Seeing Beyond Belief

ProArt Display PA32QCV is a 31.5-inch 6K HDR monitor for content creators. Calman Verified, it offers wide gamut coverage (98% DCI-P3, 100% sRGB) and factory-calibrated Delta E<2 color accuracy. M Model-P3 color preset mode to deliver seamless and consistent colors when working with MacBook devices. Dual Thunderbolt™ 4 ports support daisy-chaining and enable superfast data transfers and 96-watt power delivery via a single cable.

- **6016 x 3384 Resolution** Larger working canvas
- **218 PPI** Sharp details
- **98% DCI-P3** Wide color gamut
- **Thunderbolt 4** with 96W power delivery

- 27-inch 6K (6016 x 3384) LuxPixel™ AGLR display with IPS 178° wide viewing angle panel
- International color standard 98% DCI-P3 and 100% sRGB wide color gamut
- Calman Verified with factory calibrated for excellent Delta E < 2 color accuracy
- Rich connectivity including dual Thunderbolt™ 4 up to 96W Power Delivery with daisy-chaining, HDMI(v2.1), DisplayPort1.4 and a built-in USB Hub
- The new M Model-P3 Color Preset Mode matches the color performance of MacBook display
- Built-in Auto KVM allows for effortless switching between two connected laptops or PCs with a single keyboard and mouse
- Exclusive ASUS DisplayWidget Center application enables easy OSD access and monitor settings adjustments with a mouse

ASUS ProArt Display Professional Monitor (PA27JCV)

Refine Your 5K Dream

- **5120 x 2880 Resolution** Larger working canvas
- **218 PPI** Sharp details
- **99% DCI-P3** Wide color gamut
- **Delta < 2** Color accuracy

- 27-inch 5K (5120 x 2880) LuxPixel™ AGLR display with IPS 178° wide viewing angle panel
- International color standard 99% DCI-P3 and 100% sRGB wide color gamut
- Calman Verified with factory calibrated for excellent Delta E < 2 color accuracy
- Extensive connectivity including DisplayPort over USB-C with 96W Power Delivery,
- DisplayPort, HDMI and USB hub
- Light Sync solution support Ambient Light Sensor and Backlight Sensor for reliable color
- performance from the start
- Built-in Auto KVM allows for effortless switching between two connected laptops or PCs
- with a single keyboard and mouse"

ASUS ProArt Display Professional Monitor (PA248QFV)

All the Essentials for Pros

- **5120 x 2880 Resolution** Larger working canvas
- **218 PPI** Sharp details
- **99% DCI-P3** Wide color gamut
- **Delta < 2** Color accuracy

- 15.6-inch Full HD portable anti-glare IPS display with an ultraslim and thin design helps you get things done more efficiently when you're on the go
- USB Type-C connector (DP Alt mode) for user convenience and compatibility with compatible devices
- ASUS Eye Care monitors feature TÜV Rheinland-certified Flicker-free and Low Blue Light technologies to ensure a comfortable viewing experience
- Automatically sense its orientation and switch the monitor between landscape and portrait modes via DisplayWidget Center software
- User-friendly design with embedded tripod socket on the rear and 360° kickstand for versatility.

ASUS WEBCAM MONITOR (BE24ECSNK/BE27ACSBK)

The Complete Videoconferencing Solution

AI Noise-Canceling Mic

Compatible with Major Videoconferencing Software

Protect your eyes with ASUS Eye Care technology

The USB-C That Does It All

- 23.8-inch/27-inch Full HD(1920x1080) frameless IPS panel with wide viewing angles.
- ASUS AI Noise-Canceling Microphone offers crystal-clear voice communication
- Face Auto Exposure technology helps users' face to stand out from the background and keep the image crisp.
- Extensive connectivity with HDMI, USB-C, DisplayPort, DisplayPort out for daisy-chain, earphone jack, USB hub and RJ45 LAN port for the most flexibility.
- USB-C port allows simple laptop docking for data transmission and video signal to the display, as well as charging the laptop via just one cable.
- Zoom Certified monitor has undergone comprehensive testing and review processes to ensure seamless communication.

Rapid Refresh Rate (MB229CF/MB27ACF)

Come with Monitor Arm

Built-in Audio 2.1 Channel speakers

- From 22-inch up to 27-inch FHD IPS display with sleek, ultraslim profile and transportable
- Multiple stand options and accessories, including an integrated carrying handle/kickstand, height-adjustable C-clamp with Z-axis adjustment
- Partition hook kit for flexible placement
- Rich connectivity options include a full-function USB-C® with 60-watt power delivery, HDMI®, and earphone jack
- Powerful 2.1-channel audio with subwoofer for exceptionally well-balanced audio
- Environmentally friendly design with ENERGY STAR®-certified energy efficiency, and packaged in FSC® certified paper

ASUS Business Touch Monitor (BE24ECSBT/Touch)

Boost Your Productivity On-The-Go

VESA Wall Mounting : 100x100mm

Ergonomic stand design

10-point multi-touch capacity

USB Type-C Monitor

- 23.8-inch Full HD(1920x1080) frameless IPS panel with wide viewing angles
- 10-point multi-touch capacity delivers smooth and intuitive touch experience.
- Extensive connectivity with USB-C with power delivery, HDMI, DisplayPort in and out for daisy-chain, Earphone jack and USB hub for the most flexibility
- Ergonomic design with +35° ~ -5° tilt, ±180° swivel, ±90° pivot and 130mm height adjustments for a comfortable viewing experience
- USB-C port allows simple laptop docking for data transmission and video signal to the display, as well as up to 80W power delivery to the laptop via just one cable.

ASUS ZenScreen Portable Monitor (MB169CK)

Boost your 360° productivity

Dual USB-C ports

0.78Kg Ultra lightweight

Protect your eyes with ASUS Eye Care technology

- **A 360° detachable kickstand**

- 15.6-inch Full HD portable anti-glare IPS display with an ultraslim and thin design helps you get things done more efficiently when you're on the go
- USB Type-C connector (DP Alt mode) for user convenience and compatibility with compatible devices
- ASUS Eye Care monitors feature TÜV Rheinland-certified Flicker-free and Low Blue Light technologies to ensure a comfortable viewing experience
- Automatically sense its orientation and switch the monitor between landscape and portrait modes via DisplayWidget Center software
- User-friendly design with embedded tripod socket on the rear and 360° kickstand for versatility.

ASUS Business Monitor (BE248CFN/BE248QF)

The Complete Videoconferencing Solution

- **WUXGA(1920x1200), 100Hz refresh, 100% sRGB**
- **USB-C, displayPort 1.4 for Daisy Chain, and RJ45 (BE248CFN)**
- **VGA (BE248QF)**
- **Ergonomic design**

- 24.1-inch WUXGA(1920x1200) frameless IPS panel with wide viewing angles and 100% sRGB.
- SmoothMotion 100Hz refresh rate delivers a seamless, tear-free visual experience
- Extensive connectivity with HDMI, USB-C, DisplayPort, DisplayPort out for daisy-chain, earphone jack, USB hub and RJ45 LAN port for the most flexibility.
- USB-C port allows simple laptop docking for data transmission and video signal to the display, as well as charging the laptop via just one cable.
- Ergonomic design with +35° ~ -5° tilt, ±180° swivel, ±90° pivot and 130mm height adjustments for a comfortable viewing experience.
- ASUS Eye Care monitors feature TÜV Rheinland-certified Flicker-free and Low Blue Light technologies to ensure a comfortable viewing experience.

ASUS Business Monitor (BE27ACGN/BE27AQG)

Enhance Your Productivity

- **Rich connectivity features USB-C(96W), HDMI(v2.1), DisplayPort1.2 and VGA, USB Hub, and RJ45**
- **SmoothMotion 120Hz refresh rate**
- **VESA wall-mountable, Ergo design & Eye Care**
- **Energy Star, EPEAT Gold, TCO Certified, FSC MIX**

- 23.8-inch Full HD (1920x1080) & QHD(2560x1440) frameless design with IPS 178° wide viewing angle panel
- SmoothMotion 120Hz refresh rate and 1ms MPRT delivers a seamless, tear-free visual experience by enabling VRR (variable refresh rate)
- Extensive connectivity with HDMI, USB-C, DisplayPort, DisplayPort out for daisy-chain, earphone jack, USB hub and RJ45 LAN port for the most flexibility.
- VESA wall-mountable to save on desktop space
- Ergonomic design with tilt, swivel, pivot and height adjustments for a comfortable viewing experience
- ASUS DisplayWidget Center lets users easily change monitor settings via an intuitive interface
- ASUS Eye Care monitors feature TÜV Rheinland-certified Flicker-free and Low Blue Light technologies to ensure a comfortable viewing experience

ASUS Business Monitor (VA279QGS/VA249QGS)

Enhance Your Productivity

- **Rich connectivity features HDMI, DisplayPort and VGA, plus earphone jack**
- **SmoothMotion 120Hz refresh rate**
- **VESA wall-mountable, Ergo design & Eye Care**
- **Energy Star, EPEAT Gold, TCO Certified, FSC MIX**

- 24-inch/27-inch Full HD (1920x1080) frameless design with IPS 178° wide viewing angle panel
- SmoothMotion 120Hz refresh rate and 1ms MPRT delivers a seamless, tear-free visual experience by enabling VRR (variable refresh rate)

ASUS ZenScreen Smart Monitor (MS27UC/MS32UC)

The Smartest Choice

- **Built-in Google TV with AI-enabled features.**
- **Harman Kardon speakers**
- **4K DisplayHDR400, 98% DCI-P3**
- **Multi-control and wireless display**

- Powered by Google TV, featuring over 10,000 apps and personalized recommendations
- 27-inch UHD (3840 x 2160)/31.5-inch UHD (3840 x 2160) IPS panel with 99% sRGB
- Two 5-watt front speakers, certified by Harman Kardon
- Extensive connectivity: USB-C® (90 W PD), HDMI™, DisplayPort™, USB hub
- Miracast and Chromecast support
- Supports multi-platform live streaming
- WiFi 2.4 GHz /5 GHz & Bluetooth® 5.2

Your Business Network Expert Within Reach

ASUS router consistently earns top marks for satisfaction, setup, reliability, technical support, and value in the small office/home office (SOHO) and small-to-midsize business (SMB) users. Our commitment to WiFi and networking innovation and customer satisfaction establishes ASUS as a worry-free choice for businesses worldwide. The ASUS ExpertWiFi series caters to businesses of all sizes, encompassing wireless access point, network switch, wired VPN router and all-in-one WiFi routers. It provides fast, secure, and user-friendly business network solutions that enhance productivity and reduce total cost of ownership. Easy setup and powerful management: ASUS ExpertWiFi Mobile App and Multi-Site Manager.

138

ASUS ExpertWiFi (EBA63)

- Dual-Band WiFi 6
- Gigabit PoE+
- 2400 sq.ft. coverage
- 100+ connected devices

- Seamless and Extendable Connections — Enjoy uninterrupted roaming with WiFi 6 speeds of up to 3000 Mbps, support for up to 100 active devices and easy scalability to meet the evolving needs of your business network.
- Secure and Segmented Networking – Easy WiFi network settings via Self-defined Networks, and enhanced business security with VLAN support, offering up to five SSIDs for device segregation and prioritization in diverse business scenarios.
- Flexible Deployment with PoE — Support for both Power over Ethernet (PoE) connection and AC adapters, providing versatile options for installation.
- Accommodate to Any Space — Supports ceiling and wall mounting to fit into various business environments with more flexibility.
- Built for Safety and Reliability — Compliant with IEC 60601-1-2 standards, and with the top half of the device made of materials that meet the UL94 5VB plastics flammability standard*, the EBA63 ensures a stable and reliable connection.

- Only the top half of the EBA63 is constructed using UL94 5VB plastics flammability standard material.
- The ASUS ExpertWiFi series is compatible with ASUS AiMesh products; however, the functionality of software features is subject to the capabilities of the primary router. The availability of some ExpertWiFi features may also depend on whether the AiMesh router supports them.

ASUS ExpertWiFi (EBR63)

- Dual-Band WiFi 6
- Self-Defined Network (SDN)
- Extendable AiMesh
- Commercial-Grade Network Security

- Secure and Segmented Networking – Easy business WiFi network settings via Self-Defined Networks, and enhanced business security with VLAN support, offering up to five SSIDs for device segregation and prioritization in diverse business scenarios.
- Customizable Guest Portal – Guest portals can be tailored to meet your business needs, with custom portal types, branding and visual templates to fit particular business styles
- Backup WAN for Stable Connectivity –The USB port can be used as a backup WAN by connecting it to a mobile phone with hotspot to maintain a reliable internet connection
- Commercial-Grade Network Security and VPN – Safe Browsing, VPN features to connect easily and securely to public WiFi, and a free subscription to ASUS AiProtection Pro
- Accommodate to Any Space – The EBR63 comes with a built-in bracket and wall mount hole that can be adjusted to fit into almost any location for space-saving and more flexibility

- The ASUS ExpertWiFi series is compatible with all ASUS AiMesh products, but supported features may vary based on model.

ASUS ExpertWiFi (EBG19P)

- Up to 3 WAN Ethernet Ports with load balancing and failover
- 8 PoE+ ports
- 1.5 Gbps IDS/IPS throughput
- Commercial-Grade Network Security

- Power over Ethernet — 8 PoE ports capable of delivering up to 123 watts of power offer a convenient solution for powering various PoE-enabled devices.
- VLAN for Added Security —Each of the Ethernet ports can be assigned to one or more VLAN IDs that provides additional security for your business.
- Up to 3 WAN Ethernet Ports - 1 gigabit WAN port and 2 gigabit WAN/LAN ports with load balancing optimize multi-line broadband usage. Besides, the USB port can be used as a backup WAN by connecting it to a mobile phone with hotspot to maintain a reliable internet connection.
- Device Management Made Easy — Conveniently centralized control over the PoE devices like EBA63 connected to the EBG19P via web browser or the ASUS ExpertWiFi mobile app.
- Commercial-Grade Network Security and VPN — Secure public WiFi connections with Safe Browsing and VPN features. Enjoy a free-subscription ASUS AiProtection Pro, including robust intrusion prevention system (IPS) features like deep packet inspection (DPI) and virtual patching to block malicious traffic.

ASUS ExpertWiFi (EBG15)

- Up to 3 WAN Ethernet Ports with load balancing and failover
- 1.5 Gbps IDS/IPS throughput
- Site-to-Site VPN
- Commercial-Grade Network Security

- Easier-Than-Ever Setup — Convenient and easy router management via web browser or the ASUS ExpertWiFi mobile app through Bluetooth setup.
- VLAN for Added Security —Each of the Ethernet ports can be assigned to one or more VLAN IDs that provides additional security for your business.
- Up to 3 WAN Ethernet Ports - 1 gigabit WAN port and 2 gigabit WAN/LAN ports with load balancing optimize multi-line broadband usage.
- Backup WAN for Stable Connectivity -The USB port can be used as a backup WAN by connecting it to a mobile phone with hotspot to maintain a reliable internet connection.
- Commercial-Grade Network Security and VPN — Secure public WiFi connections with Safe Browsing and VPN features. Enjoy a free-subscription ASUS AiProtection Pro, including robust intrusion prevention system (IPS) features like deep packet inspection (DPI) and virtual patching to block malicious traffic.

- The ASUS ExpertWiFi series is compatible with ASUS AiMesh products; however, the functionality of software features is subject to the capabilities of the primary router. The availability of some ExpertWiFi features may also depend on whether the AiMesh router supports them.

ASUS ExpertWiFi (EBP15)

- 5 x Gigabit Ports
- 4 x PoE+ Ports with 60W PoE Budget
- Support VLAN, QoS and IGMP snooping
- Wall mount and Desktop

- Power over Ethernet — 4 PoE+ ports capable of delivering up to 60 watts of power offer a convenient solution for powering various PoE-enabled devices.
- VLAN for Added Security — Each of the Ethernet ports can be assigned to one or more VLAN IDs that provides additional security for your business.
- Fluent Network Experience with QoS — Dedicated bandwidth priority based on Quality of Service traffic management ensures better delivery of mission-critical traffic such as voice and video, without delay.
- Multimedia Traffic Optimization — IGMP snooping to prevent traffic congestion and optimize multicast traffic distribution, ensuring better network experiences during video conferencing or media streaming.
- Device Management Made Easy — The ASUS ExpertWiFi router on your network enables conveniently centralized control over the EBP15 and connected devices.

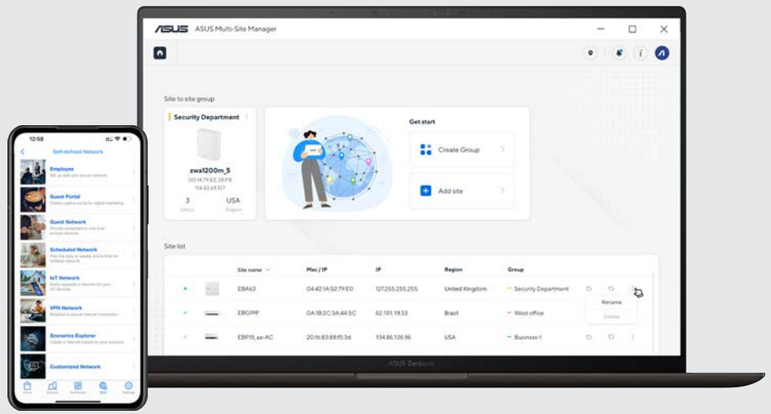

ASUS ExpertWiFi (Mobile App) & Multi-Site Manager

- The ASUS ExpertWiFi series delivers robust security and streamlined management for your business network. Monitor and control your network from anywhere with the ASUS ExpertWiFi mobile app, featuring comprehensive security, VPN and network management tools. For businesses with multiple locations, ASUS Multi-Site Manager enables centralized administration of up to 12 sites, including effortless site-to-site VPN setup.
