Discover the Power of Equinix through Carahsoft

Public Sector Facing Major IT Challenges

More Real Time

- 24/7
- Security video surveillance
- Telematics
- Wearables
- Internet of Things

Budget Constraints

Limited financial resources make it challenging to modernize

Sustainability Integration

Technology upgrades
Sustainability goal

Data Silos

More data, larger files,
strategic
AI, Machine-to-Machine
Smart Phone
Tablet
PC

Disaster Recovery and Business Continuity

Natural disasters
Cybersecurity threats
Other disruptions

Legacy Systems

A threat to keep
Too risky to replace
Cyber and operational risk

Digital Infrastructure is Essential

Remove traditional technology limitations, and cloud adjacent becomes the new on-prem

1. Localize traffic

Proximity solves latency and scales traffic, vastly improving network performance

2. Optimize the network

Direct interconnection to ecosystem participants segments commercial traffic and transforms the WAN

3. Simplified cloud strategy

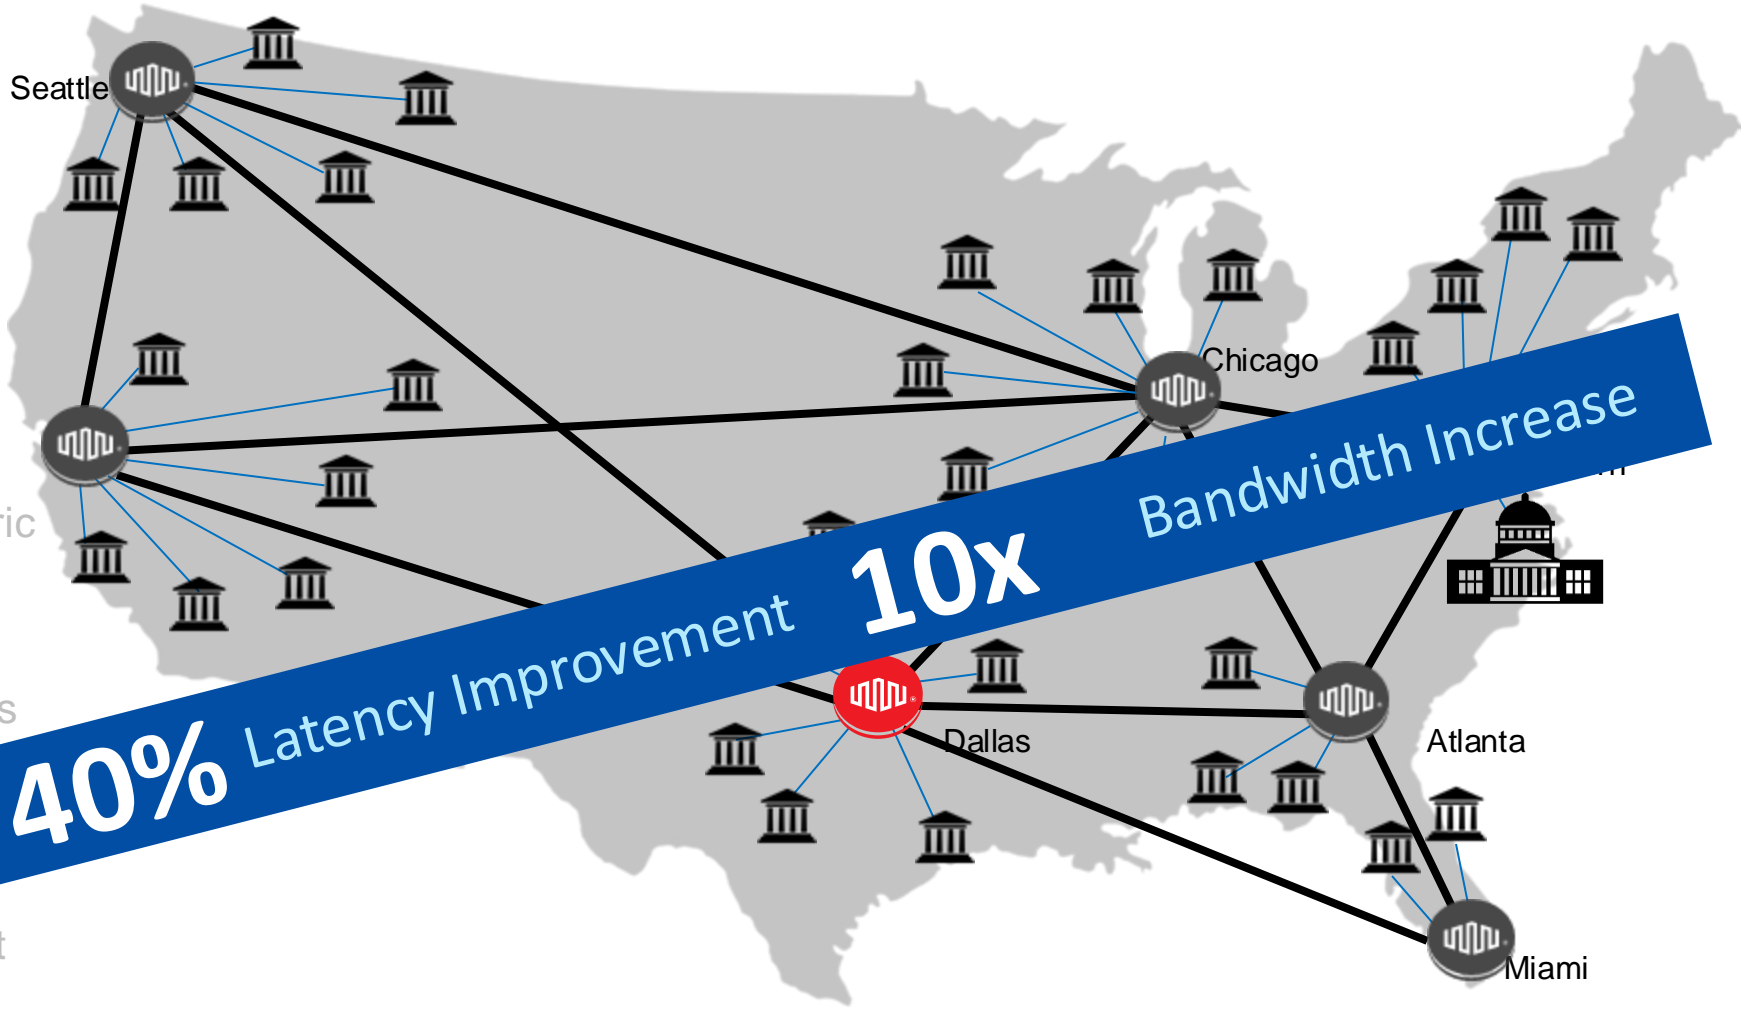

A single connection to a service fabric reduces costs and complexity

4. Secure connectivity

Direct peering with internet providers enables secure traffic offloading at edge

5. Prioritize traffic

Connection to a robust network of digital ecosystems expands opportunity

Public Sector Ecosystem

<p>2,900+ Cloud and IT Services</p>	<p>300+ Public & FedRAMP Accredited CSPs</p>	<p>NIST 800-53 [CONUS] FISMA High Certified</p>	<p>ISO 27001 [OCONUS]</p>	<p>HECVAT Shared assessment of security risks in cloud and on-premise services</p>
