

Cohere for Intelligence

Thank you for your interest in exploring this content.

Carahsoft is the **Trusted Government IT Solutions Provider**® supporting a broad portfolio of industry-leading technologies through NASA SEWP V and a wide range of other contract vehicles.

As the **Master Government Aggregator**®, Carahsoft connects government agencies, industry partners, and technology providers to deliver innovative, mission-focused solutions.

In partnership with Cohere, we provide technology solutions that drive modernization, strengthen operations and ensure compliance with evolving government standards.

Cohere for Intelligence

Secure AI built for missions where failure is not an option.

Cohere is building foundational AI models and end-to-end agentic products for national security missions. Trusted by sensitive organizations globally where outcomes have real-world impact, Cohere models deploy anywhere you need—including on-prem, air-gapped, and edge environments—with zero vendor lock-in. We provide specialized capabilities designed for security and hardware constraints.

Accelerate Intelligence Outcomes

Enhance Collection & Tasking

AI agents identify intelligence gaps, recommend collection priorities and accelerate mission planning.

Fuse Multi-Source Intelligence

Unify intelligence streams to create a comprehensive common operation picture for rapid situational awareness.

Speed Analysis & Reporting

Process large datasets and auto-generate structured analytic drafts with sourced evidence—reducing time to insight from hours to minutes.

Strengthen Operational Advantage

Support Tactical Edge Missions

Deploy advanced models on as few as 2 GPUs, enabling real-time advice in disconnected or field environments.

Enable Secure Offline Use

Operate in fully air-gapped settings with zero vendor access, zero cloud dependence and zero data retention.

Enhance Multi-Domain Intelligence

Leverage natural language processing and pattern recognition to analyze intelligence across all domains and in more than 109 languages transforming unstructured data into actionable insights.

Why Cohere?

Sovereign by Design

Deploy fully inside your secure environment, whether on-prem, air-gapped or within classified networks. Your data never leaves your boundary.

Custom-Built for Mission Needs

Customize, fine-tune and adapt models to regional contexts, operational domains (cyber, maritime, HUMINT, etc.) and agency-specific terminology.

Low-Compute, High-Performance

Optimized to run in constrained environments from HQ to tactical edge deployments.

Open & Integrable

Fits seamlessly into existing IC systems, workflows and intelligence toolchains.

Power next-generation intelligence workflows with Cohere AI.

Contact our intelligence team at Cohere@Carahsoft.com for a tailored demonstration.
