Maximize Value Stream Visibility with the VS Solution from CollabNet VersionOne

VS

Lean-agile principles and practices are transforming the way organizations think about and do business. Visibility is critical at all levels of an organization—Enterprise, Portfolio, Program, Release, and Team—and across the entire software value stream. The Value Stream solution from CollabNet VersionOne, called VS, provides unparalleled decision-making insight throughout the software development lifecycle, from strategy to delivery.

AGILE   **DEVOPS**
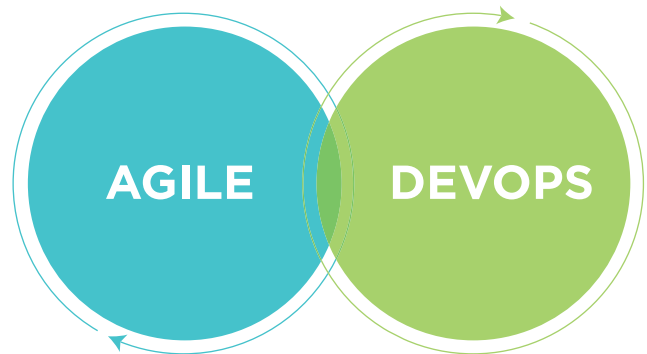

HIGHLIGHTS

✓ **MANAGEMENT INSIGHT**

Achieve unparalleled visibility across all levels of your organization. From team-level burndown and cumulative flow diagrams to executive dashboards, scorecards, and product roadmaps, VS helps you accelerate decision-making and ensure business alignment.

✓ **END TO END VISIBILITY**

Your software delivery value stream extends from strategy and ideation, through planning and execution, all the way to production. Unlike fragmented solutions, CollabNet VersionOne's unified Agile and DevOps solution, VS, helps accelerate delivery and ensure visibility across your lifecycle.

✓ **STRATEGIC ALIGNMENT**

You want to ensure you are investing in and executing against software initiatives that align with your business strategy. VS empowers organizations to easily define product strategy, adapt to rapidly changing business priorities, and track delivery all the way to production.

✓ **DATA-DRIVEN DECISION MAKING**

Leverage automated, up-to-date information across your organization. The comprehensive performance analytics of VS make access to status and progress simple. Dependencies, traceability, timelines, and DevOps flow & risk metrics help bubble up your story with ease.

ENTERPRISE INSIGHT
Portfolio Alignment with Corporate Strategy

ENTERPRISE ROADMAP

Communicate strategic plans
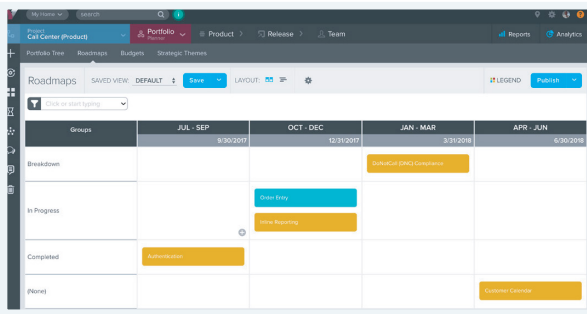

STRATEGIC THEMES
Align strategy to execution

ENTERPRISE BUDGETS
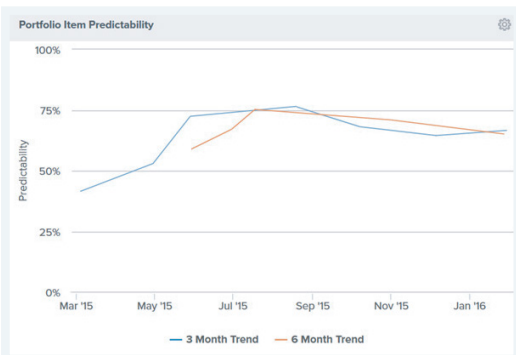

Budget in terms of capacity, currency, or percentage

ENTERPRISE THROUGHPUT
Understand organizational productivity

ENTERPRISE PREDICTABILITY

Understand delivery consistency

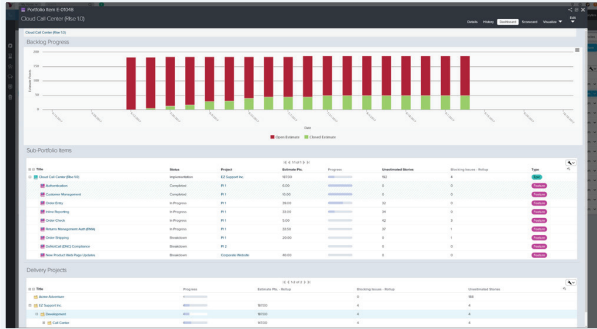

ENTERPRISE RESPONSIVENESS

Know how long it takes to deliver

■ PORTFOLIO INSIGHT

Portfolio Alignment with Portfolio Business Objectives

PORTFOLIO DASHBOARD

Track high-level initiatives across multiple programs

VALUE STREAM

See the completion of Portfolio Items and cross-organizational dependencies

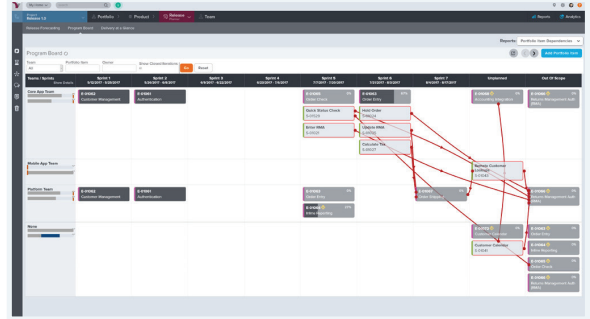

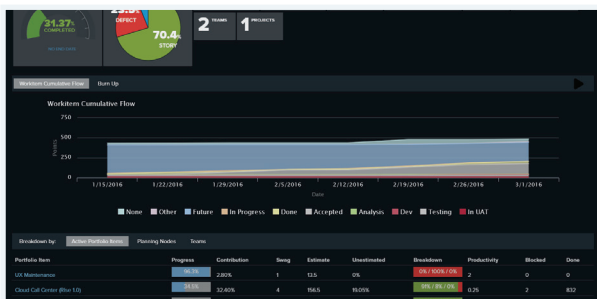

PORTFOLIO KANBAN

Visualize and manage lean workflow

#### PORTFOLIO BUBBLE CHART

Evaluate investment options

PORTFOLIO SCORECARD

Inspect and drill into key performance indicators

#### PORTFOLIO TIMELINE

Visualize progress in context of schedule

PROGRAM INSIGHT

### Release Alignment with Maximum Business Value

PROGRAM DASHBOARD

Track feature delivery across multiple releases

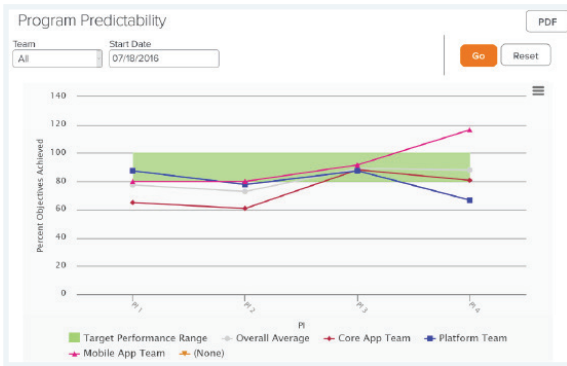

PROGRAM CUMULATIVE FLOW

Identify program-level bottlenecks

PROGRAM PREDICTABILITY

Assess potential business value to actual business value delivered

PORTFOLIO ITEM DEPENDENCIES

Identify sequencing conflicts and blocking issues

PORTFOLIO ITEM BREAKDOWN

See how a portfolio item is subdivided for implementation

PORTFOLIO ITEM PROGRESS
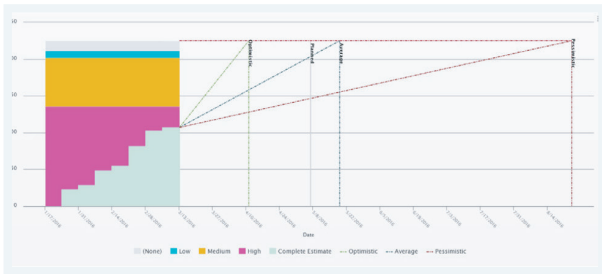

Know the completion status of portfolio items

RELEASE INSIGHT

### Predictable, High-Quality Delivery

RELEASE FORECASTING

Forecast release outcomes with "what if" scenarios

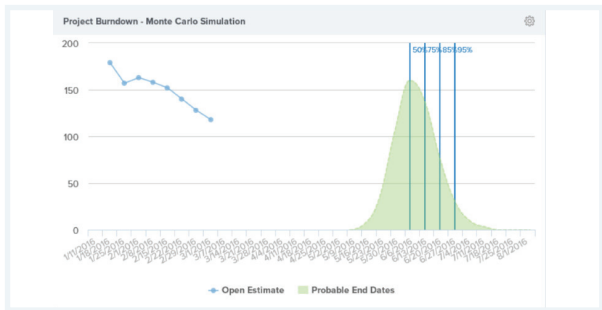

AGILE EARNED VALUE

Assess release progress against delivery targets

MONTE CARLO SIMULATION

Forecast completion dates at various confidence levels

PROGRAM BOARD

Identify dependencies across teams and iterations

DELIVERY AT A GLANCE

Picture the evolution of products from development all the way to the customer's hands

DEFECT TREND
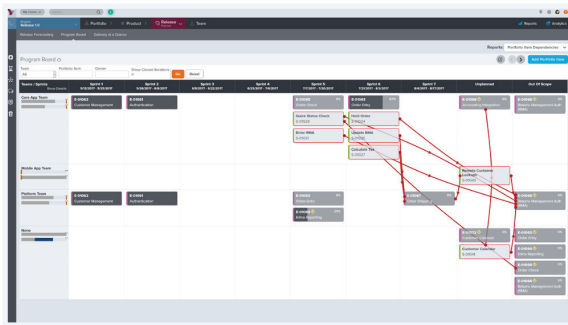

Quickly assess the quality of a release

■ TEAM INSIGHT

### Build Working Software

### TEAMROOM™

Focus, track, and collaborate

TEAM SCORECARD

Drill into key team-level performance indicators

VELOCITY TREND

Track velocity by estimate or count

ITERATION BURNDOWN
Quickly assess team-level progress

BACKLOG ITEM CYCLE TIME

Monitor backlog item delivery capability hands

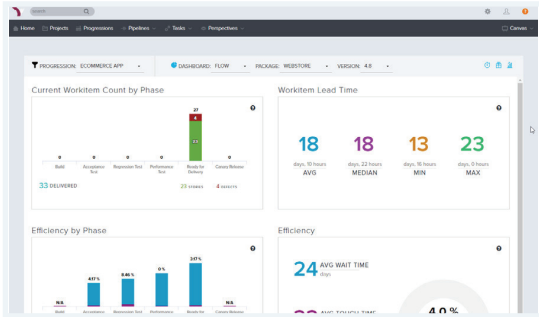

TEAM CUMULATIVE FLOW

Identify bottlenecks at the team level
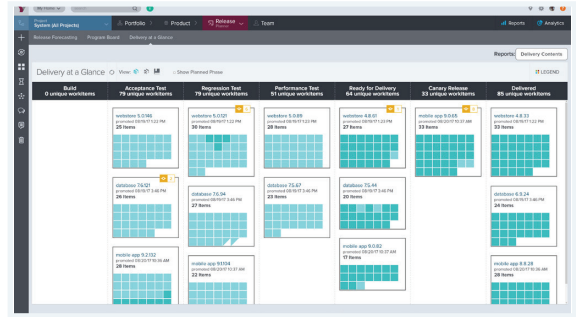

■ DEVOPS INSIGHT

Accelerate Delivery with Confidence

FLOW METRICS	**VALUE STREAM VISIBILITY**
Analyze and improve delivery performance	Visualize the workitem contents across all phases of delivery

|	
DELIVERY AT A GLANCE	**RISK METRICS**
Visualize the distribution of workitems across delivery phases	Assess complexity and identify potential issues
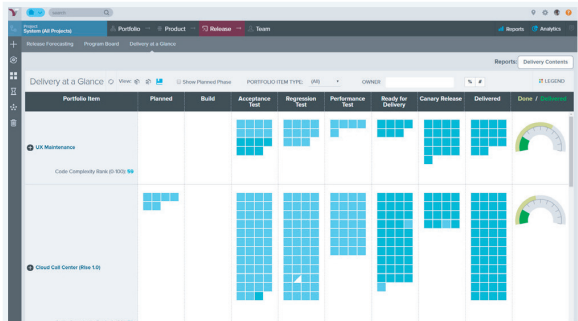

BACKLOG ITEM AUDIT TIMELINE	**WORKFLOW AUTOMATION**
Track all workitem steps and events from commit to production	Sequence and automate approvals, manual processes, and controls
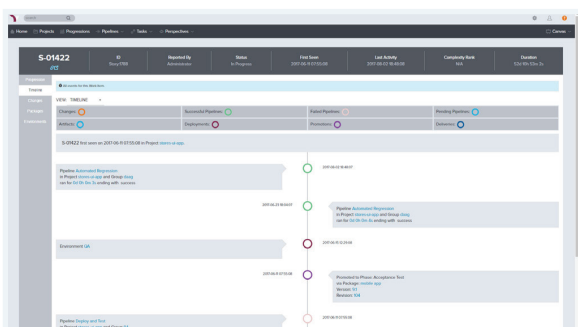

About
CollabNet VersionOne

CollabNet VersionOne is the Enterprise Value Stream Management leader that accelerates high value software development and delivery, while improving quality and reducing risk. Our offerings provide global enterprise and government market leaders a cohesive solution, spanning idea through delivery, that enable them to capture, create, deliver and measure the flow of business value throughout their application development lifecycles.
