Ask something...

Accelerate DevOps with Copado AI Agents

Copado is redefining software delivery through AI-driven automation, promoting collaboration between humans and AI.

	What I do	How I do it	Who I help
PlanAgent	Ensure strategic alignment and clear user story definitions	Accelerate user story creation and gain critical insight for feature feasibility resource allocation, and risk assessment	Business Analysts Salesforce Architects
BuildAgent	Accelerate development and adherence to best practices	Generate code suggestions, configuration insights, and real-time troubleshooting solutions	Salesforce Developers Salesforce Admins
TestAgent	Enhance software quality and reliability	Generate test cases, identify failure points, and view optimization suggestions	QA Managers QA Engineers
ReleaseAgent	Manage smoother and timelier releases	Automate deployment scripts, generate release notes, and coordinate team efforts	Release Managers
OperateAgent	Supports operational stability post-deployment	Suggest optimizations, facilitate quick issue resolution, and generate training resources and documentation on feature releases	Product Owner Change Manager
