Micro Focus Government Solutions Advantage

Power

We drive digital transformation and help you innovate through enterprise DevOps, predictive analytics, and hybrid IT management solutions from mainframe to cloud.

Protect

We protect what matters most through security, risk mitigation, and governance, to preserve your investment and help bridge current and future technologies.

Partner

We collaborate across the channel ecosystem to enable customer-centered innovation and help you embrace new technology, while building on what already works.

Micro Focus Government Solutions

Purpose Built | Mission Focused

Micro Focus Government Solutions is a purpose-built, mission-focused company that serves U.S. public sector clients. A company anchored by success in the IT industry, Micro Focus Government Solutions is uniquely positioned to help your organization bridge the gap between legacy systems and modern innovations. Backed by one of the largest pure-play software companies in the world, Micro Focus, we help solve critical IT challenges with software solutions in Hybrid IT, DevOps, Security & Risk, and Predictive Analytics.
