 **Jira Align**

The future of government program management has arrived

Jira Align delivers clarity, accountability, and predictability across multi-year, multi-stakeholder programs to ensure mission success

Transformation starts with connected teams

Get real-time status and visibility
Aggregate team-level data to make outcomes, outputs, and costs visible across your program in real-time, down to the task level.

Scale-up collaboration without slowing teams down
Link people, work, and time across every level of the organization—from strategy-setting to team shipping.

Proactively manage cross-team dependencies to improve your ability to deliver predictably.

Continuously track progress against strategic outcomes
Connect strategic program investments with mission value and leverage rich visualizations to evaluate alignment against agency goals and milestones.

Scale with every role together in a single platform

Portfolio Managers
Communicate the value of strategic initiatives to leadership, officials, and lawmakers.

Executives
Connect program objectives to execution to drive near real-time decision making that aligns with the mission and policies.

Program Managers
Ensure programs run smoothly, on time, and on budget. Gain predictive and holistic insight into dependency issues before they arise.

Project Managers
Manage idea intake, resource allocation, prioritize the backlog, and track progress to ATO with real-time roadmaps.

Transformation Teams
Drive digital transformation with a framework customized to scale agile in your agency.

Delivery Teams
Efficiently execute complex workflows that align with your mission and program objectives.
