

# Salesforce AppExchange for Government

AppExchange apps are customized for Salesforce and help organizations increase productivity, eliminate risk and save time - instead of building from scratch, now you can search through thousands of apps and countless reviews to find the right match for your agency.

## Admin & Developer Tools

The only 100% native app for release management and continuous integration on the Salesforce platform.

Create web forms and surveys fast with no connectors or integrations.

Helps organizations perform inspections, assessments and complex surveys.

Made so anyone can connect to disparate data sources, assemble highly complex, made-to-order applications, and instantly make changes—all without writing code.

#1 Native DevOps Tool for Salesforce, and only DevOps solution with dual leadership in CI & CD

## Cyber Security

Provide end-to-end Security, Governance, Compliance and Audit capabilities for Salesforce Customers.

Protection against malicious content in all areas of Salesforce.

Shields enterprises and consumers against everything from advanced cyber attacks and data breaches to widespread ransomware infections.

## Contract & Document Management

Easily create documents in Salesforce by merging data with Word, Excel, Powerpoint, or PDF.

A cloud document management system that includes true workflow automation.

## IT Management

An intelligent appointment scheduling platform.

Create profitable customer engagements by automating scheduling, so customers are scheduled with the right person, at the right location, at the right time.

Provides Salesforce admins, backup admins, and Salesforce developers peace of mind with a complete set of tools to recover from any Salesforce data loss.

Data integrity solutions that can save you time and help you make decisions that drive more leads, close more deals, and confidently plan for continued growth.

## Productivity

Empowering teams to not just track Sales activities, but actively drive sales forward and accelerate revenue

An online directory publisher who provides powerful advocacy and government affairs solutions.

Case Management app for government to report real-time data, drive collaboration, and automate processes.

Develops cloud-based, secure mobile application solutions.

## Project Management

Dynamic legal matter management system designed for legal departments and government agencies. Built on Salesforce.

A leading provider of industry-specific cloud and mobile software, driving digital transformation for the world's largest companies.

Delivers real-time collaboration, automated reports, and forecasting for site-based project management teams.

Develops permitting, application, licensing, inspection, and code enforcement products and solutions.

Adaptive law practice & legal matter management software platform for law firms, legal departments and public service organizations that is powered by Salesforce.

Specializes in application modernization, agile software development, CI/CD, DevOps, and platform-based solutions.
