Available with AWS Skill Builder subscriptions

AWS Training and Certification has delivered a 234% ROI[*], as quantified by Forrester, from upskilling your existing workforce.

125+ AWS Builder Labs
Practice AWS skills with step-by-step guidance in a sandbox environment without the cost of using your own instance.

AWS Cloud Quest
Help builders develop practical AWS skills with game-based learning. Choose a job role and start playing.

AWS Certification Exam Prep
Get ready for AWS Certification Exams with prep courses and AWS Official Practice Exams with the same question style and depth as the official exam.

AWS Jam Journey
Solve real-world challenges created by AWS experts in a gamified environment around security, migration, dev-ops, AI/ML, and more.

AWS Industry Quest
Challenge your teams to build solutions for common financial services use cases, with more industries to come.

600+ courses
Drive the skills your teams need with access to over 600 self-paced courses to get the most out of your AWS Cloud services.

Exclusive to Skill Builder Team subscription

✓ **Administrative tools that scale**
Managers and administrators can assign learning paths based on organizational, project, and individual needs.

✓ **Complete reporting suite**
Intuitive built-in reports show course enrollment, progress, completion rates, and more. Track progress and celebrate wins!

✓ **AWS Jam events**
Host your own AWS Jam events where teams can solve challenges together using AWS. Foster collaboration and shared learning, creativity, friendly competition, and trust.

"AWS Skill Builder Team subscription allows us to deliver structured training to ensure the scale we need to train hundreds of people with minimum oversight and resources."

— Minoo Gupta,
 Sr Director Engineering Operations, Citrix
