Save 30% on SketchUp Studio This Fiscal Year End

As Federal Fiscal Year End 2026 approaches, now is the time to upgrade your design workflow with SketchUp Studio. For a limited time, new subscriptions and upsells (add-ons) to SketchUp Studio are available at 30% off through Carahsoft and our reseller partners. This promotion runs through September 30, 2026, and applies to Federal Agencies, DOE, Utilities and Energy Co-Ops, as well as private sector and commercial customers.

SketchUp Studio brings together 3D modeling, documentation, and visualization in one connected workflow, making it easier for teams to move from concept to construction without switching tools. Whether you're expanding an existing deployment or bringing SketchUp Studio into your organization for the first time, this is a great opportunity to lock in savings before the promo window closes. Reach out to your Carahsoft representative to get a quote or learn more.

Products	Capabilities	Discount
SketchUp Studio	SketchUp Studio – The top tier: everything in Pro Advanced Workflows plus bundled V-Ray rendering (real-time and photorealistic), making it the all-in-one modeling, scan, BIM, and visualization package; Windows-only for the extra plugins.	30% off
