The Total Economic Impact™ Of Carbon Black

Through interviewing six representatives from four organizations, surveying 52 decision-makers, and data aggregation, Forrester concluded that Carbon Black has the following three-year financial impact.

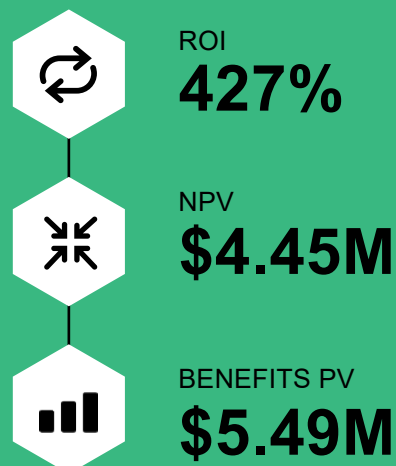

SUMMARY OF BENEFITS

Three-year risk-adjusted

FINANCIAL SUMMARY

Three-year risk-adjusted

CARBON BLACK BY THE NUMBERS

- 75% reduction** in net MTTR for investigating security incidents by Y3.
- 40% reduction** in risk of a large-scale security breach.
- 83% reduction** in FTE hours for security incidents by Y3.
- 20% time savings** per audit for cybersecurity compliance.

VOICE OF THE CUSTOMER

“It’s the difference between operating in the dark in a house that you kind of were familiar with. Whereas with Carbon Black, the lights are on all day and all night. We can go to exactly what we want to see and wherever we want to see it.”

Cyberdefense team leader, financial services

“Carbon Black, with the counterpart of having the 24/7 SOC [security operation center], allows us to feel very confident that things that are coming into our environment are carefully identified and that we’ve always got a safety blanket on our network. It allows us to sleep at night and has been worth every dollar that we have spent. I don’t think you can put a price on something like that.”

Network support services manager, educational system
