NSC accelerates mission objectives, workloads, and priorities: Delivering outcomes that ensure security, while also driving cost savings.

Adopting cloud computing services is a continuing priority for the Department of Defense (DoD). Finding the right base and load partner is critical—especially when it comes to national security data. You need a partner that not only meets your compliance needs, but also can drive your mission forward.

Our Government Community Cloud (GCC) for IL4 data has helped U.S. government agencies transform the way they work. DoD Agencies and the Intelligence Community wanted to do more with ServiceNow® but faced limitations in how they could use our solutions.

Meeting ILS standards

Our Government Community Cloud (GCC) for IL4 data has helped U.S. government agencies transform the way they work. DoD Agencies and the Intelligence Community wanted to do more with ServiceNow® but faced limitations in how they could use our solutions.

Optimize your total cost of ownership (TCO) and support model

Elevate the trajectory for other on-prem environments
Reduce the cost and effort of annual upgrades
Optimize internal labor support costs
Avoid costs from external hosting partners

Mitigate risk through data protection & resilience

Ensure U.S. data compliance in a secure environment
Integrate Information (IIC) reduce risks to reach threats to data
Authorize security controls and POA&M preparation

Improve the effective execution of key mission priorities

Enabling a safe return to the workplace

Governs your freedoms to work and communicate
Enable a safe and effective return to the workplace
Drive employee productivity, retention and engagement
Accelerate integration of new organizational work and values

NSC elevates your experience.

Even if you’re already using ServiceNow, even if you’re already using ServiceNow, there is an enormous opportunity for customers—including in the public sector—to accelerate the way they work. DoD Agencies and the Intelligence Community wanted to do more with ServiceNow but faced limitations in how they could use our solutions.

Moving to NSC from...

Self-hosted ServiceNow

With the increase of self-hosting...

In a managed-service environment...

NSC

NSC is still a strong option for customers who require certified environments, such as for CUI data. NSC is designed specifically to deliver greater performance and security, enabling a safe and effective return to the workplace.

I can sign from my desk

Your instance will be certified at IL5 immediately

At the touch of a button...

You can access and use the Cloud

Accelerate digital workflows and data integration across agencies at greater speed and agility with lower cost and risk.
