

Enhancing Public Sector Web Security & User Experience

In today's fast-paced digital world, securing public sector websites and online services is crucial. Ensuring a smooth, safe, and compliant digital experience for both citizens and employees is your responsibility—and HUMAN Security is here to help.

We specialize in protecting public-facing platforms from fraud, cyberattacks, and performance issues, helping you stay compliant with regulations while optimizing the user experience.

Why Choose HUMAN Security?

- **Enhanced User Experience:** Provide a seamless, fast, and secure experience for both citizens and employees, optimizing your website's performance without sacrificing security.
- **Compliance & Risk Management:** Meet essential security and regulatory standards (GDPR, CCPA, PCI-DSS, NIST) while reducing risks.
- **Scalable Protection:** Safeguard public-facing websites, apps, and digital services from evolving threats like bots, fraud, and data breaches.

Key Benefits:

Boost Performance: With 47% of web traffic originating from bots, it's essential to prevent malicious bots from slowing down your site or compromising security.

Block Malicious Bots: Keep your services secure and your users safe by blocking fraudulent activity without affecting site performance.

Enable Safe Commerce: Safeguard sensitive transactions and prevent fraud to ensure secure digital commerce for online services.

Stay Compliant & Secure:

- **Regulatory Compliance:** HUMAN Security helps you automatically meet compliance standards such as GDPR, CCPA, and PCI-DSS.
- **Risk Mitigation:** Our proactive security solutions defend against cyber threats like account takeovers, fraud, and bots—keeping your systems and data safe.
- **Preserve Trust:** Ensure the safety and privacy of your users, maintaining public confidence in your online services.

Public sector organizations can rely on HUMAN Security to provide a secure and compliant web experience—allowing your team to focus on serving the public, not worrying about cyber threats.
