

Quzara Offer to US Federal Government Purchase Guide

To receive pricing and/or to schedule an overview reach out to: quzara@carahsoft.com or (703) 871-8505

Cybertorch™ by Quzara helps federal agencies strengthen cybersecurity operations while meeting FedRAMP High compliance requirements with confidence. In alignment with Federal Initiatives aimed at IT modernization and procurement efficiency, Quzara is offering limited-time discounted pricing for federal agencies on the FedRAMP High–authorized Cybertorch™ platform, enabling faster adoption of advanced security capabilities with reduced procurement friction.

Cybertorch™ delivers a unified Managed Detection and Response (MDR) and Security Operations platform that centralizes continuous threat detection, investigation, and response across hybrid and cloud environments. Built on a FedRAMP High–authorized cloud-native architecture, Cybertorch™ reduces operational complexity by consolidating security workflows into a single operational view, improving SOC efficiency, analyst visibility, and the ability to scale securely in support of federal mission needs.
