Protect Data for Uninterrupted Operations

State and local authorities play a vital role in maintaining public infrastructure, delivering essential services, and ensuring effective governance. Ransomware attacks, data breaches, and legacy systems put the confidentiality, integrity, and availability of critical data at risk, often resulting in costly downtime and complex recovery efforts.

At Assured Data Protection, we empower state and local authorities to protect data, meet regulatory requirements, and recover quickly from cyberattacks and disasters, without placing additional strain on internal IT teams.

The Pain Points Assured Solves

Cyberattacks

Cyberattacks threaten critical data and operations. Our solutions reduce risk and recover data quickly, while reducing costs through proactive defense.

Out of Date Infrastructure

Outdated infrastructure increases cyber risks. Our solutions help you migrate to secure, reliable infrastructure - whether on-premises or in the cloud.

Limited IT Resources

Many local authorities face limited budgets and resource. We act as an extension of your IT team, ready to take over data recovery in the event of a disaster or cyberattack.

The Assured Solution

Immutable Secure Backups

Encrypted, air-gapped backups stop ransomware in its tracks.

Built-in Anomaly Detection

Detect anomalies, data changes or suspicious behavior in backup environments.

Managed Backup and Recovery

Our experts are on call 24/7/365 to recover critical data from attacks.

Flexible Pricing and Delivery

Set price or consumption options to suit organization requirements.

Protect Vital Data with Assured

Meet Compliance and Regulations

Automatically detect and safeguard sensitive data from unauthorized access, ensuring compliance with regulations.

Protect Data From Ransomware Threats

Encrypted, immutable backups safeguard vital data against encryption, accidental deletion, and tampering.

Simplify Audits with Automated Reporting

Easily demonstrate regulatory compliance during audits with built-in documentation and testing.

Reduce Burden on Internal IT Teams

Our fully managed services reduce burden on internal teams, with no additional headcount or infrastructure required.

Flexible Pricing to Fit Your Budget

We offer set price or consumption models to match your needs and to scale alongside your organization.

Access 24/7/365 Support

Utilize proactive support and guidance from DR experts to protect, detect and recover critical data and operations quickly.

Why State and Local Authorities Choose Assured

We've partnered with a number of state and local authorities to strengthen cyber resilience, ensure compliance, and simplify backup and recovery operations. Here's what one of our customers had to say:

"Assured is adept at guiding us through the troubleshooting process when we encounter a problem. The result is that individual job success percentages are high, time to resolution is quicker, and the entire process takes up less of my time, freeing me to work on projects that are directly related to the mission of the town."

We offer a flexible, consumption-based model to grow with your business, making data protection cost-effective and scalable. Our purpose-built software provides industry-leading monitoring and reporting capabilities to provide actionable insights into your data protection strategy. Our global data centers ensure data sovereignty, meeting your organization's compliance requirements. A dedicated team is always available to recover your data and minimize disruption in the event of a disaster.

Future Proof for Cloud

Our solutions allow you to move to the cloud non-disruptively with cloud-native protection.

Flexible Pricing

We offer a Capacity or Consumption model, which allows for a set price or a pay-per-use option.

Fully-Managed Service

We provide automated reporting, backup administration, and comprehensive technical support.
