Microsoft OneGov Portfolio Offer for Federal Government Purchase Guide

Federal agencies are increasingly recognizing the need to modernize legacy IT systems and leverage the power of AI to enhance their operations. Microsoft's AI and Cyber Solutions offer a comprehensive approach to achieving this modernization, providing agencies with the tools they need to improve efficiency, security, and innovation. In support of the OneGov initiative, Microsoft and GSA have partnered to offer a portfolio of solutions up to 70% or more off the current GSA list price.

By leveraging Microsoft's AI and Cyber Solutions, government agencies can achieve a modernized IT infrastructure that enhances security, efficiency, and innovation, ultimately leading to better public services.

Microsoft Products offered as part of the Promotion: Efficiency value gains and benefits

M365 G5 + M365 Copilot Suite
This license combination provides M365 government features for advanced compliance, security, email, calendar, file storage, and online meetings. Leverage AI-powered productivity capabilities of Microsoft 365 Copilot, integrating AI assistance into Microsoft 365 apps like Word, Excel, Outlook, and Teams to help users draft content, analyze data, and automate tasks.   • M365 Copilot provided at no additional cost until the next anniversary date with M365 G5 subscription.   • Unlimited M365 Copilot Agents for non-G5 users' enterprise wide.   Current M365 G3 users who Step-Up to M365 G5 will receive a **70% discount** for the remainder of the existing enrollment.
Entra ID Governance
Agencies can use Microsoft Entra ID Governance to automatically ensure that the right people have the right access to the right resources. This is achieved through identity and access process automation, delegation to business groups, and increased visibility.   • **75% Discount** on New and Incremental Entra ID purchases

Cybersecurity & Monitoring
Cloud-based monitoring and security solutions provide agencies cost-efficient security across multi-cloud and multi-platform environments. • Microsoft Sentinel provides advanced threat detection, intelligent analytics, and automated response capabilities. • Azure Monitor is a comprehensive monitoring service for applications, infrastructure, and network resources within Azure and on-premises. • Log Analytics is a service within Azure Monitor that provides a central repository for collecting, indexing, and querying log data from various sources. • Data Retention allows you to determine the amount of time data is stored within Log Analytics workspaces to meet compliance requirements. **50% Discount** on New and Incremental purchases of eligible SKUs.

Dynamics 365
Microsoft Dynamics 365 offers a secure, compliant, and integrated cloud platform to streamline operations, improve citizen engagement, and manage finances effectively. Eligible Dynamics 365 Product Families include: D365 Customer Service, Supply Chain Management, Contact Center, Field Service **100% Discount** for New and Incremental purchases for up to 12 months on eligible SKUs.

Offers apply to net new purchases only. Opt in by **September 30, 2026,** to participate. These offers are only available to US Federal Government and Tribal entities, as noted in the terms and conditions of the GSA Schedule. These discounts will be applied at the time of proposal and acceptance aligned to each agency's enrollment anniversary date. All offers exclude AirGap Clouds (Secret & Top Secret).
