ASSURED RECOVERY WITH **NUTANIX**

Fast and Secure Recovery for Nutanix

Organizations face growing pressure to ensure constant availability of applications and services, necessitating an IT resilience strategy with automated failover and regular recovery plan testing. Many are deterred by the expense and complexity of a secondary data center.

Our Assured Recovery with Nutanix solution offers an integrated DR solution, shielding applications and data in your Nutanix environment without a separate stack. We provide a dedicated Nutanix environment, available 24/7/365 with a team of DR specialists ready to assist.

We guarantee rapid recovery with minimal downtime, ensuring operational continuity without data loss. Designed for simplicity and scalability, our solution offers flexible licensing, supports Nutanix environments, and allows customized data retention.

Nutanix Integration

Simplify disaster recovery management by eliminating the need for multiple products and additional learning.

Optimized Recovery Times

We offer rapid RPOs of 15 minutes and RTOs within minutes using Nutanix replication technology.

Dedicated Infrastructure

Your dedicated Nutanix cluster allows for frequent DR solution testing and pre-configured, reliable networking.

Secure, Fast, and Effective Disaster Recovery

Always Available

Our DR team is available 24 hours a day, 365 days a year.

1 Click Failover

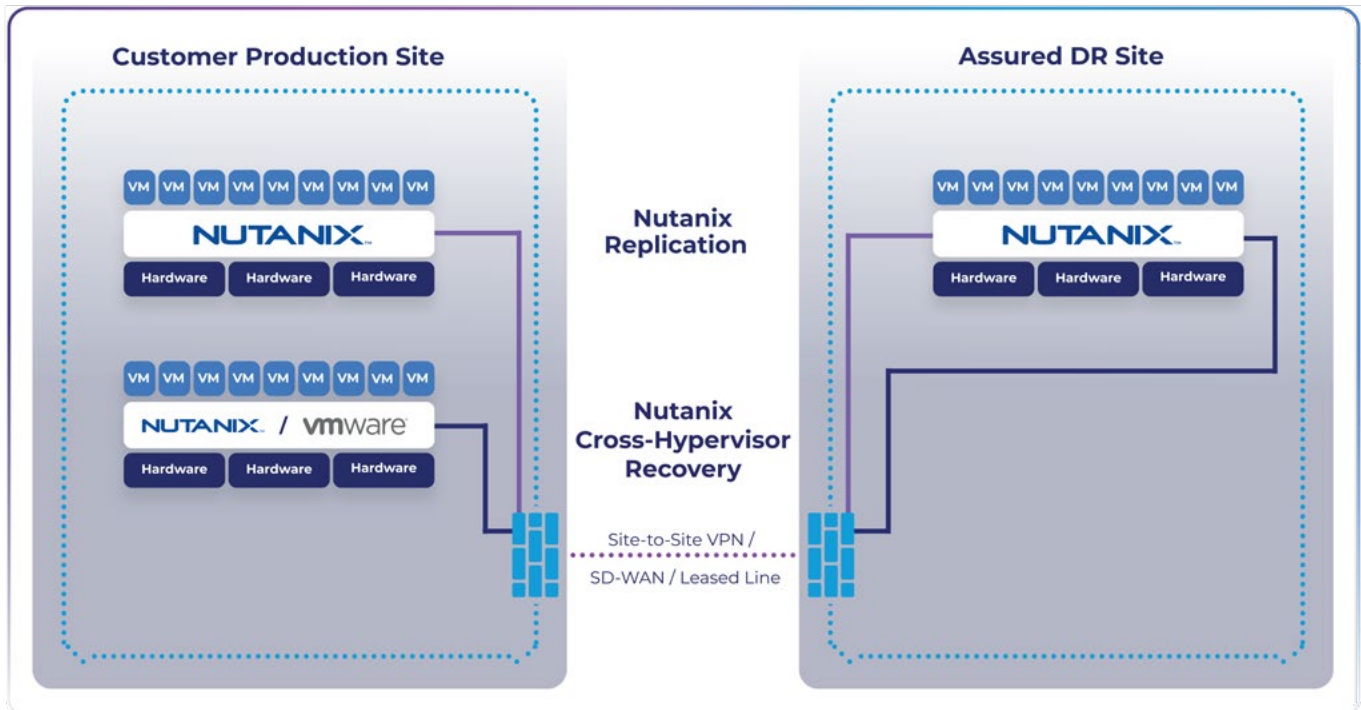

Seamless disaster recovery and unified management for workloads.

Non-Disruptive Testing

Smooth DR testing, ensuring compliance and readiness.

End-to-End Security

Secure isolation and protection of workloads.

Benefits of Assured Recovery with Nutanix

Capital Conservation

Remove the need for substantial upfront capital payments by distributing costs through an operationalized pay-as-you-go model.

Flexibility

Our solution supports VMware ESXi running on Nutanix. Leveraging native AHV snapshot replication reduces the need for multiple disaster recovery solutions.

Operational Efficiency

Implementation is typically 50% faster than relying on in-house resource, freeing your IT team up for other business critical tasks.

Fully Managed Service

Our service includes all data center hosting and connectivity costs with access to expertise when you need it to assist with configuration, testing, and live invocations.

We offer a flexible, consumption-based model to grow with your business, making data protection cost-effective and scalable. Our purpose-built software provides industry-leading monitoring and reporting capabilities to provide actionable insights into your data protection strategy. Our global data centers ensure data sovereignty, meeting your organization's compliance requirements. A dedicated team is always available to recover your data and minimize disruption in the event of a disaster.

Future Proof for Cloud

Our solutions allow you to move to the cloud non-disruptively with cloud-native protection.

Flexible Pricing

We offer a Capacity or Consumption model, which allows for a set price or a pay per use option.

Fully-Managed Service

We provide automated reporting, backup administration, and comprehensive technical support.
