Modern Search & Insights for Public Safety

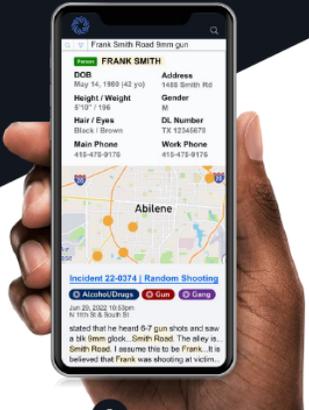

FORCEMETRICS
Enabling Data-Driven Decisions In The Moment

Modern Search & Insights for Public Safety

One Modern Interface to Unite Existing Legacy Systems
ForceMetrics breaks silos, mapping across 911 call notes, reports, jail, and 311 data for more effective data sharing.

Data Insights without Added Training or Staff
Automated call classification and summarization increase efficiencies for officers and dispatchers.

Early Warning Community Interventions
Data dashboards provide a deeper view on critical community issues like gun violence.

Mental Health

Military

Domestic Violence

Suicidal

NARCAN

Deaf

Autistic

Juvenile Gun Violence Early Intervention

Connect the dots for the kids shooting guns, whether forensically with NIBIN, or through other associated teenagers we know are worth diversion and deflection.

Domestic Violence Intervention & Support

Assess high risk domestic violence situations based on prior shelter outreach, LAP score, and severity, such as with strangulation or a gun involved, or children in the house.

Drug & Substance Abuse Support

Easily identify where Narcan is administered in a city, by individual house or a given neighborhood, and determine who needs follow-up after a Fentanyl overdose.

Mental Health Needs & Abilities Identification

Instantly see if an individual or address has prior safety concerns or needs not flagged in CAD, such as dementia, autism, or deafness, with ForceMetrics' Auto-Generated Labels.

Homelessness Identification & Outreach

Automatically identify persons and situations involving homelessness or those requiring homeless outreach follow-up using the ForceMetrics persons-in-need dashboard.

Digital Co-Responder for City Services

ForceMetrics uses machine learning to automatically identify and alert on frequent users of services, to control the demand for finite city resources through alternative responses.
