Malwarebytes™ for Business

MALWAREBYTES MANAGED DETECTION AND RESPONSE (MDR)

24x7 security monitoring and threat hunting for your organization

SECURITY BENEFITS

- ✓ High precision threat response
- ✓ Faster mean time to resolution (MTTR)
- ✓ Reduce dwell time of critical threats

BUSINESS BENEFITS

- ✓ Cost savings from fewer business disruptions
- ✓ Increase compliance with emerging security regulations
- ✓ Peace of mind from 24x7 security monitoring

TEAM BENEFITS

- ✓ Reduce alert fatigue
- ✓ Remove skillset and bandwidth limitations
- ✓ React more efficiently to critical threats

For security teams of small and medium-sized organizations, delivering high quality security services and keeping business environments free from malware requires a skilled team that can provide 24x7 coverage. Yet, many organization face constrained staff resources with a team that is often lacking deep cyber security expertise and constantly overloaded with alert triage. Add to this the skyrocketing cost and complexity of managing multiple solutions to uncover hidden threats, which leads to inefficiency and lengthy incident response times.

Constrained security teams need an easy, efficient, cost-effective way to detect and respond to threats

Malwarebytes alleviates these challenges with a purpose-built managed detection and response (MDR) offering. Malwarebytes MDR provides a powerful and affordable threat detection and remediation offering with 24x7x365 monitoring and investigations by our top-tier security analysts. Your business will gain a posture of cyber resilience with expert services that accelerate threat detection and perform incident response with precision. Malwarebytes MDR provides flexible threat response options that suit the needs of both your business and your security environment, ensuring you maintain full visibility and control over your endpoints.

KEY FEATURES

24x7x365 monitoring	We monitor your endpoints and perform expert investigations day or night. We've got you covered.
Skilled MDR Analysts	Our team of security experts are accomplished threat hunters with deep incident response backgrounds and decades of experience triaging and mitigating complex malware threats.
Award Winning EDR	Powered by our Malwarebytes Endpoint Detection and Response (EDR) platform and enriched from multiple threat intelligence feeds, including MITRE and others.
Remediation YOUR WAY	Our MDR Team can actively remediate threats as they are discovered OR provide highly actionable guidance for your team to follow in their own remediation efforts. It's your choice.
Active threat hunting	Our MDR Team hunts unseen threats based on past indicators of compromise (IOCs) and suspicious activity observed on endpoints.
Contextual alerts when you need them	Notification and alerts sent by our MDR Team are highly contextual and thorough, enabling security analysts of all skill levels to clearly understand the status and threat response activities across threatened endpoints.
Rapid set-up	Malwarebytes EDR is known for ease of set-up, allowing your security team to rapidly onboard new endpoints into our 24x7 MDR service.

FLEXIBLE THREAT RESPONSE OPTIONS

The Malwarebytes MDR Team will monitor your endpoint alerts 24x7x365 and undoubtedly detect critical threats targeting your endpoints. Our MDR service lets you decide how response should be applied to your endpoints with either of the following options:

Option 1: The Malwarebytes MDR Team will remediate the threat on your behalf, informing your team of all actions taken on your endpoints.

Option 2: The Malwarebytes MDR Team will provide guidance on recommended actions that your team can take to effectively remediate the threat.

POWERED BY THE MALWAREBYTES EDR PLATFORM

Malwarebytes EDR* provides powerful and effective threat detection, isolation, and remediation. Along with Malwarebytes' patented ransomware detection, it includes seven layers of protection, multi-mode isolation, and automated malware clean up. Other feature highlights include:

Provides the industry's only 72-hour ransomware rollback, enabling full recovery from ransomware attacks in minutes.

Applies multiple detection techniques to provide full attack chain protection.

Delivers advanced remediation capabilities that uncover and remove hidden malware artifacts to provide thorough endpoint clean up.

* Malwarebytes EDR license required.
