- **Affordability and Ease of Use:** EASYcourt is designed for cost-effectiveness and user-friendly operation.
- **Customizable Solutions:** Tailor your EASYcourt setup with our online configurator, providing real-time pricing and detailed specifications.

Introducing EASYcourt by BEINCOURT: Revolutionizing Courtroom Audio and Video Technology

EASYcourt by BEINCOURT redefines courtroom technology, focusing specifically on advanced audio and video solutions. Our Effortless Assembly System (EASY) courtroom dismantles the complexity and high costs typically associated with courtroom AV technology, offering an accessible, streamlined hybrid approach for today's hearing rooms and courtrooms.

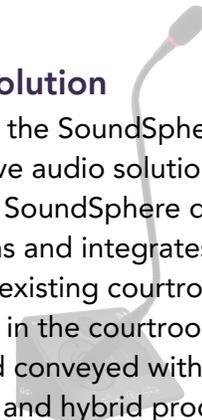

EASYcourt - Essential AV Package

What is EASYcourt?

At its core, EASYcourt is a state-of-the-art, preconfigured suite of audio and video technology solutions for in person and hybrid courtrooms. Designed for effortless deployment, it provides an ideal, user-friendly solution for enhancing the audiovisual aspects of legal proceedings.

SoundSphere Audio Solution

At the core of EASYcourt is the SoundSphere speaker microphone audio system. This innovative audio solution is pivotal in transforming courtroom communication. SoundSphere delivers crystal-clear audio to and from courtroom stations and integrates seamlessly with any web conferencing platform and existing courtroom recording systems. This ensures every word spoken in the courtroom or from remote participants is captured and conveyed with precision, enhancing clarity and reliability in courtroom and hybrid proceedings.

Technology:

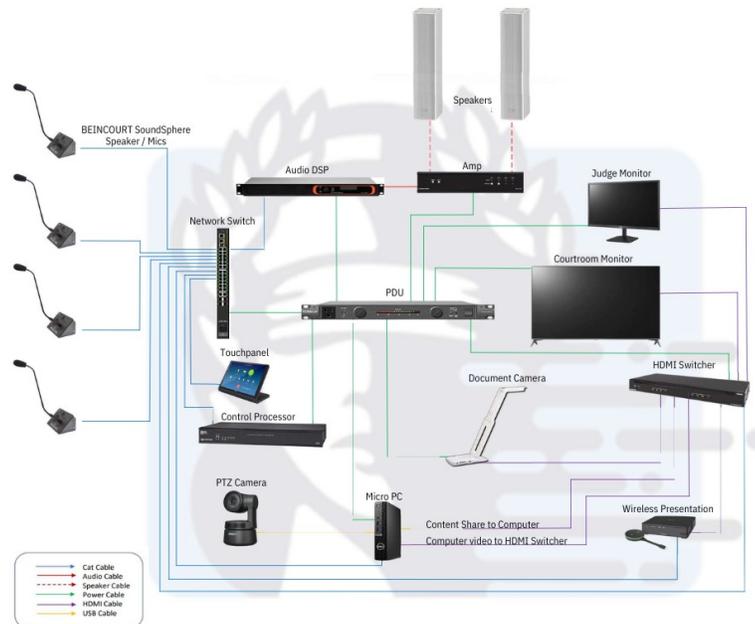

EASYcourt - Enhanced Audio Package w/ mobile option

Affordable Innovation in Courtroom AV

By seamlessly integrating essential AV tools such as document cameras and computer source connections, EASYcourt ensures that every form of evidence and presentation is displayed with exceptional clarity and reliability. Our solution is not just about bringing cutting-edge technology into courtrooms; it's about making these vital tools affordable and accessible. EASYcourt is designed to equip the courts with the reliable AV technology they need for effective courtroom proceedings in a user-friendly framework. This approach to innovation in courtroom AV technology bridges the gap between high-end features and affordability, making it possible for a wider range of courts to benefit from the advancements in courtroom technology.

Redefining Courtroom AV Technology:

EASYcourt is transforming courtroom dynamics by providing advanced, and easy-to-use audio, video, and hybrid technology solutions. With a focus on user-friendly and sophisticated audiovisual components, EASYcourt ensures every courtroom can harness modern technology's benefits. These systems, designed for clarity and efficiency, are simple to install and operate. This approach democratizes access to cutting-edge legal technology, facilitating a more efficient, transparent, and accessible legal system.

Flexible Payment Options:

Recognizing financial constraints, BEINCOURT offers municipal leasing options, allowing for a more manageable financial commitment and broadening the accessibility of our technology.

Government Contract Availability: Available through the NASPO contract, EASYcourt ensures streamlined procurement for government clients, making state-of-the-art AV technology more attainable for federal and state entities.

BEINCOURT's EASYcourt is not just about providing products; it's about transforming the audio and video dynamics of courtrooms globally. Our mission is to make state-of-the-art AV technology accessible and simple for every court.
