The AI-Native SecOps Platform

While others are still detecting, we have already responded. AgileBlue is an AI-Native SecOps platform, built to detect and stop cyberattacks.

We combine **intelligent automation** with **real human analysts** to protect your endpoints, cloud, and network 24/7.

AgileBlue's combines **eight critical security modules**, in **one platform**— built to detect faster and with precision, so you can go from reactive to proactive defense.

Eight Security Modules, One Platform

Sapphire AI Insights

Sapphire, our platform's AI brain, delivers 98%+ accurate autonomous investigations, decisions, and responses.

Cloud Security

CDR tackles cloud attacks; CSPM secures configurations with full visibility.

Vulnerability Scanning

Continuous vulnerability management, real-time protection, and rapid remediation.

M365 Security

Identifies Microsoft 365 misconfigurations with prioritized remediation plans.

Sapphire SOC Analyst

Sapphire automates 90% of Level 1 and 2 tasks, boosting SOC efficiency and collaboration.

Cerulean XDR Agent

Serves specific areas or provinces with localized products and services.

Cyber Risk & Posture Scoring

Identify gaps, monitor risks, and reduce cyber threats by 75%.

Elastic SIEM

AI-powered SIEM optimizes threat detection, investigation, and response.

Strategic Advisory

Direct access to security experts who help manage risk, ensure compliance, and strengthen your cyber strategy.

Powered by AI, our platform delivers:

70%

Reduction in analyst time to investigate benign cases

48%

Reduction in analyst time to investigate, decision, and auto-respond to malicious attacks

90%

Automation of level 1 and level 2 triage and decisioning for SOC analysts

What You Deserve from a Cybersecurity Partner

You deserve more than alerts. You deserve action, clarity, and a cybersecurity partner who's built for your needs—not enterprise complexity.

Before you even notice the threat, we've already acted.

When seconds matter, slow tools leave you exposed. **AgileBlue reduces false alerts by 70% and responds 48% faster** to real threats with automated triage. **While others are still detecting, we've already acted.**

One Platform. Total Coverage.

Stop juggling disconnected tools and vendors. AgileBlue unifies **8 essential modules**—SIEM, SOAR, EDR/XDR, and more—into one platform with over **200+ integrations**, giving you **full visibility and control**.

Security That Feels Like Part of Your Team

Most vendors disappear after onboarding. AgileBlue gives you **24/7 support, a dedicated SOC team**, and expert guidance whenever you need it. That human + AI combo is why **96% of clients stay with us**.

Enterprise-Grade Protection Without the Enterprise Price

Built for mid-sized organizations, AgileBlue delivers **flat-rate pricing, fast onboarding**, and a **fully managed SOC**—so you get **big-league protection without the big-budget hassle**.

Know Your Covered—Day and Night.

Get Clarity, Control, and a Cybersecurity Partner Who Shows Up.
