Go beyond modernization.

Chainbridge Solutions is an award-winning, application transformation company passionate about people and their safety. We're working to reduce threats and eliminate risk, delivering modern, cloud-first solutions that enable workforce security, workplace modernization, and workflow automation.

Reimagine all facets of an application.

At Chainbridge Solutions, we help federal agencies reimagine all facets of an application and how it relates to work, delivering complete transformation that moves the agency and mission forward. Over the last decade, we have deployed over 40 enterprise, mission-critical applications to the federal government.

Modern, Cloud-First Solutions

Workforce Security

We're working to ensure the safety of both the systems and the individuals who use them within the federal government. We develop workforce security solutions that create a trusted environment where employees can thrive safely.

Workplace Modernization

Workplace modernization is the essence of transformation. We leverage technology to modernize the workplace and enable the government to work better, faster, and more efficiently.

Workflow Automation

We eliminate risk and minimize human error by replacing manual tasks with automation. By automating repetitive steps in workflows, we accelerate processes, making them faster and more reliable.

Capabilities That Transform

- Application Modernization
- Cloud Engineering
- DevSecOps
- Data & Analytics
- Mission Advisory
- Innovation & Emerging Tech
- CX/UX
- Operations & Maintenance

Success Stories

Application Transformation

Department of Defense Education Activity (DoDEA)

The Objective

Transform DoDEA's strategic planning tools which encompassed 12 legacy applications running on outdated technology.

Our Solution

Working with leaders within DoDEA, Chainbridge Solutions reimagined the planning and budgeting processes across the organization and transformed DoDEA's current legacy systems into a unified, scalable, and future-ready solution.

Application Modernization

Department of Justice, Justice Management Division (DOJ JMD)

The Objective

Build a modern Justice Security Tracking and Adjudication Record System ("JSTARS NextGen") that facilitates the vetting of the entire population of government employees and contractors across Justice – reaching over 150,000 people.

Our Solution

Operating under a DevSecOps model interfacing with and supporting over 40 separate organizations and agencies across the Federal Government, Chainbridge Solutions modernized the background investigations process and released a solution with an active system user community of over 1,300 across the Department today.

Our Key Customers

 Department of Justice	 Defense Human Resources Activity	 National Science Foundation	 Nuclear Regulatory Commission
 Department of Defense Education Activity	 Department of Energy	 Pension Benefit Guaranty Corporation	 Federal Communications Commission
 Environmental Protection Agency	 United States Parole Commission	 Department of Air Force	 Department of Education
