

DISARM THREATS AT THEIR SOURCE.

Your threat surface extends to the deepest parts of the dark web, but that doesn't mean you're powerless to protect it. DRK_MDR is the world's first managed detection and response platform for the dark web. Our operatives have infiltrated the inner circles of the cyber criminal ecosystem, giving you the power to counteract threats where they start.

WE **RESPOND** TO THREATS WHERE WE **DETECT** THEM: ON THE DARK WEB.

Think of us as your personal spy operation. Our operatives spend years building trusted identities that allow them to infiltrate the dark web's most exclusive forums and marketplaces.

When operatives learn about your exposures, they listen. They work fast to understand the who, what, where, when, and how of your exposure. This intelligence gives you more options to contain the threat.

When your potential exposures appear for sale, our operatives will qualify, corroborate, and provide you with a **COA (Course of Action)**. We can also take action such as purchasing leaked access or data on your behalf.

Go From Dark Web Monitoring to Dark Web Response

Thank you for downloading this Digital Asset Redemption resource. Carahsoft is the master government aggregator and distributor for Digital Asset Redemption Cybersecurity solutions available via NASA SEWP V, NJSBA, The Quilt, and other contract vehicles.

To learn how to take the next step toward acquiring Digital Asset Redemptions solutions, please check out the following resources and information:

ON THE DARK WEB.

INFILTRATE

Think of us as your personal spy operation. Our operatives spend years building trusted identities that allow them to **infiltrate the dark web's most exclusive forums and marketplaces**.

INTERCEPT

When operatives learn about your exposures, they listen. They work fast to **understand the who, what, where, when, and how of your exposure**. This intelligence gives you more options to contain the threat.

INTERDICT

When your potential exposures appear for sale, our operatives will qualify, contextualize, and **provide you with a COA (Course of Action)**. We can also take action such as purchasing leaked access or data on your behalf.

FOR THE
DARK WEB

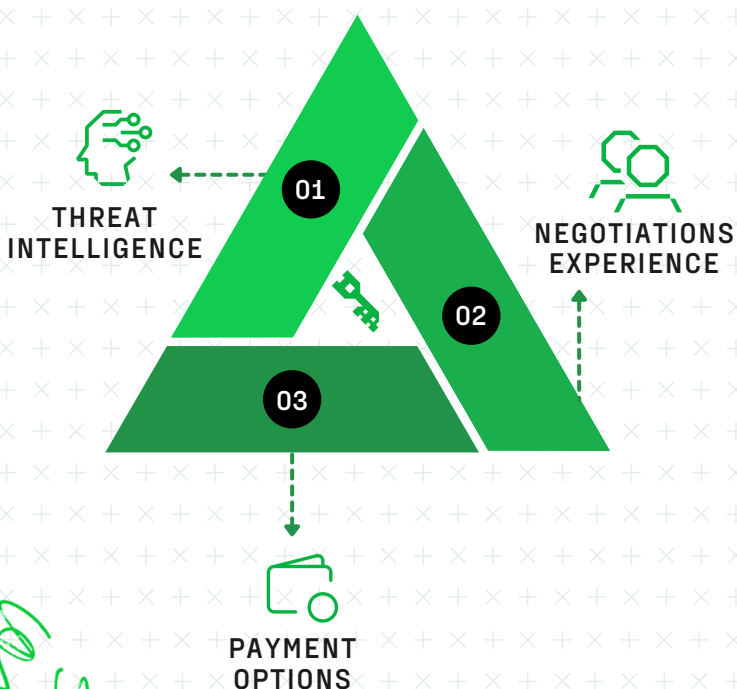

Negotiate smart, pay safe, recover fast.

RANSOMWARE NEGOTIATION AND COMPLIANT PAYMENT SERVICES

The middle of a crisis is a bad time to learn how to negotiate with criminals. DAR's ransomware response capabilities give you access to **negotiations experts and compliant payment services** in the event of an extortion event such as ransomware.

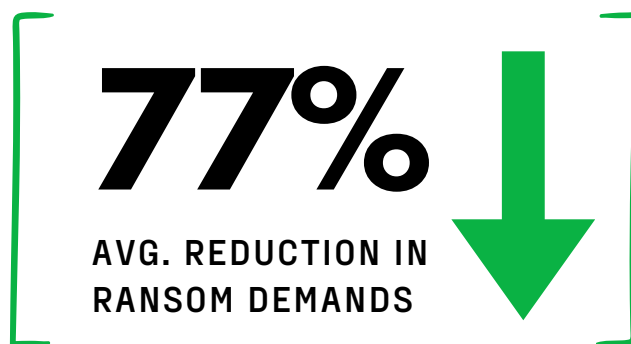

Our experienced **negotiators know how to communicate with, assess, and understand your extortionists**, resulting in an average 77% reduction in ransom demand while also giving IR teams more time to work.

UNSCRIPTED **NEGOTIATIONS.**

COMPLIANT **PAYMENTS.**

READY WHEN YOU ARE.

MEET YOUR THREAT ACTOR NEGOTIATIONS TEAM.

"Negotiating with extortionists" probably isn't in your job description. And when your company is in the middle of a ransomware event, you need pros who do this full time.

With **over 5000 successful threat actor engagements** under our belt, our team of skilled negotiators guide you through the crisis and back to business – and back to your actual jobs.
