

# Federal & DoD Automation Solutions

Thank you for your interest  
in exploring this content.

Carahsoft is the **Trusted Government IT Solutions Provider**® supporting a broad portfolio of industry-leading technologies through GSA 2GIT, NASA SEWP V, ITES-SW2 and a wide range of other contract vehicles.

As the **Master Government Aggregator**®, Carahsoft connects government agencies, industry partners, and technology providers to deliver innovative, mission-focused solutions.

In partnership with Tungsten Automation, we provide technology solutions that drive modernization, strengthen operations, and ensure compliance with evolving government standards.

## Federal & DoD Automation Solutions

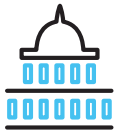

Stand up mission-critical workflows fast and integrate safely with legacy systems—on a platform built for federal security, efficiency and scalability.

### Overview

## Why Tungsten for Federal & DoD Modernization

14 out of 15 U.S. Federal Departments use Tungsten solutions to help modernize operations without rip-and-replace—improving service delivery, audit readiness, and mission speed across civilian, defense, and intel programs.

**Public-sector heritage:** 40 years serving government (including decades under the Kofax brand)—modernizing operations and improving efficiency while seamlessly integrating with existing systems.

**Proven at scale:** 25,000+ customers, including 350+ U.S. government agencies, 850+ partners, and 2,200+ employees supporting leading enterprises worldwide.

**One platform, fewer vendors:** Unify IDP, knowledge discovery, workflow automation, and AI on a single platform—reducing integration complexity and vendor sprawl. (Strategic procurement & vendor management can drive up to 25% cost savings.)

## Efficiency You Can Defend

**80% faster**

Deployment of new use cases using GenAI

**41% better**

Operational efficiency with a unified platform

**30% lower**

Operational costs by automating manual work

\*results may vary by customer and use case

### Compliance

## Built for Federal Security & Responsible AI

Tungsten solutions are designed for regulated environments with third-party audits, live transparency, and ongoing monitoring—underscored by FedRAMP High – In Process, our commitment to meeting U.S. federal cloud security standards.

- **Audit-ready controls & logs** Enforce SSO/MFA and role-based access; centralize logs with exportable evidence to support audits and ATO packages.
- **Responsible AI guardrails** Governance, risk assessments, testing, and ongoing monitoring aligned with U.S. EO 14110 to ensure safe and compliant AI-enabled workflows.
- **Continuous monitoring + incident communications** 24x7x365 risk monitoring, dedicated security, privacy, compliance SMEs, and proactive incident communications.
- **ATO enablement** Guidance on control inheritance from our FedRAMP boundary and the documentation/evidence your package requires.
- **Independent assurance** SOC 2 Type I & II (annual), SOC 3 on request, ISO/IEC 27001, and PCI DSS (QSA-assessed).

## Analyst-Backed Capabilities Federal Teams Can Trust

### Leader in Intelligent Document Processing (IDP)

Classify, extract, and validate structured and unstructured data from high-volume government documents to feed downstream workflows.

*Validated by Gartner, IDC MarketScape & Everest Group who recognize Tungsten as a Leader in IDP.*

### Leader in process orchestration & workflow automation (low-/no-code)

Orchestrate complex, case-driven workflows; enforce approvals and evidence; build quickly using low-code/no-code and AI agents.

*Validated by Everest Group who recognizes Tungsten as a Leader in Process Orchestration.*

### Leader in invoice automation (AP) & compliant e-invoicing

Touchless invoice capture, duplicate detection, faster approvals, and ERP integration.

*Validated by IDC MarketScape who recognizes Tungsten as a Leader in AP Automation and compliant e-invoicing.*

### Platform leadership (end-to-end automation)

One platform to unify IDP, orchestration, low-code, and AI—reducing vendor sprawl and integration risk.

*Validated by Zinnov Zones for overall Intelligent Automation leadership.*

## Consolidate Tools to Cut Cost—With Zero Compromise

Eliminate point solutions and legacy components, reduce overhead, and simplify IT administration with Tungsten TotalAgility®.

- ✓ **One secure, intelligent platform for federal agencies:** IDP + knowledge discovery + workflow orchestration (low-/no-code) + AI in a unified stack.
- ✓ **Lower TCO & less vendor sprawl:** fewer contracts, integrations, and renewals; modernize at your pace without the need for rip-and-replace.
- ✓ **Simpler IT operations:** enforce SSO/MFA and RBAC with your IdP; centralize logs to your SIEM; policy-driven controls and environment management aligned to your ATO.
- ✓ **Empower internal ownership:** build and update solutions in-house with low-/no-code—minimizing external services and fees.

## Improving Federal Program Efficiency: Key Use Cases

Outcomes you can expect: stronger compliance & auditability, faster cycle times, lower operating cost, fewer vendors. Plug in alongside existing systems—no rip-and-replace. Enforce SSO/MFA, role-based access, and centralized logs with exportable evidence to support audits and ATO packages.

- FOIA & Records Management
- Data Compliance & Redaction
- Digital Mailroom & Correspondence
- Identity Verification & Document Fraud Detection
- Procure-to-Pay (AP)
- Casework Acceleration
