### Ordering Process

### NASA SEWP RESOURCES

Purchasing off SEWP is available through two different federal programs; FedRAMP and CDM DEFEND.

FedRAMP: <https://www.sewp.nasa.gov/sewp5public/fedramp>

CDM: <https://www.sewp.nasa.gov/cdm.shtml>

### Would a Strategic Agency SEWP Catalog be right for me?

An Agency Catalog is a dedicated and pre-competed ordering vehicle populated with products and/or services, as defined within a federal agency's requirements documentation, and is available for procurement through the SEWP V contracts. It provides agencies with speed and flexibility, offering a 'point and click, on demand purchasing.'

- Agency Catalog is a viable option when an agency's procurement has some (or all) of the following criteria:
- Known set of specifications/requirements
- Unpredictable procurement ordering cycle
- Unpredictable volume and/or funding of products/solutions
- Standard technology updates
