CylanceMDR

Defend with Confidence

Today's cybersecurity landscape is complex and volatile. The rising volume of attacks makes safeguarding data and applications critical. However, many organizations face significant challenges, including resource constraints, talent shortages and expanding attack surface. Security teams often feel overwhelmed by the volume and number of unique threats. Additionally, the loss of key team members that are already in short supply due to alert fatigue burnout or competitive recruiting can impact security continuity and sustainability, which poses an unacceptable risk to most businesses.

63%

of organizations still experience breachesⁱ

\$4.45M

is the cost of the average data breachⁱⁱ

\$5.36M

average cost of a data breach for organizations with security skills shortageⁱⁱⁱ

THE SOLUTION

Organizations are adopting managed detection and response (MDR) solutions to boost their security and enhance threat detection and response. MDR providers use advanced technology and expert security teams to offer 24x7 monitoring, incident investigation, incident response support and guidance. This reduces breach impact, ensures swift recovery and strengthens clients' security programs. Overall, this approach addresses the critical security challenges organizations are facing, allowing them to focus on strategic initiatives.

COMPREHENSIVE SECURITY SIMPLIFIED

CylanceMDR™ offers a streamlined way for organizations to enhance their cybersecurity effectively without a complete overhaul of existing infrastructure. Leveraging our AI-driven platform and enhanced proprietary threat intelligence, it integrates seamlessly with current tools to deliver tailored security services and improve overall security posture.

BRING YOUR OWN STACK

The CylanceMDR solution's Open XDR architecture is compatible with all the security applications you already have and comes with out-of-the box sensor integrations.

ONBOARD WITH EASE

Eliminate costly retooling and simplify implementation. CylanceMDR works with all major telemetry sources, allowing customers to work with what they already have.

STOP MORE ATTACKS WITH PIONEERING AI AT THE CORE

Proactively stop attacks, analyze telemetry and accelerate human-led investigations with Cylance® AI, the industry's longest-running and continuously improving predictive AI product on the market.

EASE SECURITY BURDEN

Incident response and threat-hunting experts are available 24x7 to take the load off your security team.

BRING YOUR OWN SECURITY STACK

Integrates effortlessly with other security products. Get the most out of your existing security investment.

RESPOND QUICKLY

Advanced AI-powered detection and a dedicated 24x7 SOC team enable swift responses to threats.

MEET COMPLIANCE REQUIREMENTS

Aligns with regulatory mandates and provides comprehensive oversight and incident documentation.

MONITOR AND LEVERAGE THREAT INTELLIGENCE

Create a more robust and agile cybersecurity posture using deep proprietary insights and open source threat intelligence.

DETECT AND ELIMINATE THREATS

Achieve a higher level of security and peace of mind by combining automated tools with human-led, hypothesis-driven threat hunting, analyzing 30 days of historical data.

UTILIZE FULL-SERVICE DIGITAL FORENSICS AND INCIDENT RESPONSE

Benefit from extensive incident response services, surpassing endpoint isolation with automated, guided and active response models, ensuring swift and effective remediation.

ENHANCED AI ENDPOINT SENSOR

Stop what others miss with our optional, nearly invisible endpoint sensor to supplement your existing endpoint (EPP/EDR) investments.

CONSULT WITH TRUSTED SECURITY EXPERTS

Concentrate on critical business functions, knowing that your organization is protected by top-tier industry professionals with an average of 15+ years of experience.

PREDICTABLE PRICING

Enjoy cost certainty with simplified pricing, unlimited sensor connections and data usage – quickly and easily model the total cost of ownership for your investment.

BACKED BY A \$1 MILLION GUARANTEE

Have peace of mind with a \$1 million guarantee* to cover the costs of a breach if it occurs due to a gap in engagement. This extensive coverage includes forensic investigations, extortion payments and incident expenses.

WHY CylanceMDR

A TRUE OPEN XDR ARCHITECTURE

CylanceMDR integrates with hundreds of the most popular security tools, including Cylance and third-party solutions.

FULL RANGE OF SERVICES

Utilize the CylanceMDR comprehensive approach to security services, ensuring a high level of protection for organizations, fast threat mitigation and 24x7 expert monitoring.

EXPERTISE AND ASSURANCE

Leverage seasoned security professionals with 15+ years' SOC experience, offering personalized onboarding and a \$1M breach guarantee*.
