CAPABILITIES STATEMENT

Phoenix Data Corporation (PDC) is a western United States Business (WUSB) established in 2003 and based in Indianapolis, Indiana. PDC is a trusted partner of federal, state, and local customers.

OFFERING

DIGITIZATION & SCANS

200,000+ pages per scan. Facility with multiple loading docks. NARA compliant physical record storage. High volume scanning with volumes exceeding 100,000 documents per day and with cutting edge based on webbing/investigate servers to ingest, categorize and export large volumes of federal records collectors to any NARA UEM compliant solution or Microsoft Purview.

DATA & RECORDS MODERNIZATION/NARA COMPLIANCE

Transform your paper driven and legacy electronic records programs into a state-of-the-art, full lifecycle NARA Compliant program focused on Secure Records, Customer Experience and Zero-Cost Records Management. PDC's full lifecycle records management solutions are fully compliant with NARA Data mandates and federal law for both physical records management, storage, and electronic records management.

SECURITY

Protect your physical and digital assets in PDC's cleared storage facility and data center. Fully implemented FedRAMP Compliant Facility Security and Insider Threat Programs. We offer cloud hosting in a FedRAMP High Equivalent data center. Compliance with NIST, FISMA, CMAC, NARA, HIPAA, HITECH, CIV, IIG, and DISA IL-5.

CMAC COMPLIANCE AS A SERVICE PROVIDER

With the recent approval of the CMAC final rule, contractors will be required to comply with CMAC to protect CUI to bid and for the life of the contract. PDC can ensure that all contractor bids and project teams meet these requirements for every opportunity. PDC currently meets CMAC Level 3.

DATA RESILIENCY & INSIDER THREAT PROTECTION

PDC can help strengthen your Insider Threat Program by protecting file systems from ransomware, data theft and more. We provide Behavior Based Access Controls (BBAC) allowing the user to monitor and immediately mitigate abnormal activity with your file systems. We offer many other features including Single Instance of the Systems.

CAPABILITIES STATEMENT

Phoenix Data Corporation (PDC) is a woman-Owned Small Business (WOSB) established in 2001 and based in Indianapolis, Indiana. PDC is a trusted partner of federal, state, and local customers.

OFFERING

DIGITIZATION & SCaaS

300,000+ square foot secure facility with multiple loading docks, NARA compliant physical record storage, high volume scanning with volumes exceeding 100,000 documents per day and with cutting edge cloud-based AI indexing/metadata services to ingest, categorize and export large volumes of federal records collections to any NARA UERM compliant solution or Microsoft Purview.

DATA & RECORDS MODERNIZATION/NARA COMPLIANCE

Transform your paper driven and legacy electronic records program(s) into a state-of-the-art, full-lifecycle NARA Compliant program focused on Secure Records, Customer Experience and Zero-Click Records Management. PDC's full-lifecycle records management solutions are fully compliant with NARA/OMB mandates and federal law for both physical records management, storage, and electronic records management.

SECURITY

Protect your physical and digital assets in PDC's cleared storage facility and data center. Fully implemented NISPOM Compliant Facility Security and Insider Threat Programs. We offer cloud hosting in a FedRAMP High equivalent data center. Compliance with NIST, FISMA CMMC, HIPAA HITRUST, CUI, ISO, and DISA IL-5.

CMMC COMPLIANCE AS A SERVICE PROVIDER

With the imminent approval of the CMMC final rule, contractors will be required to comply with CMMC to protect CUI to bid and for the lift of the contract. PDC can ensure that all contractor bids and project teams meet these requirements for every opportunity. PDC currently meets CMMC Level 3.

DATA RESILIENCY & INSIDER THREAT PROTECTION

PDC can help strengthen your Insider Threat Program by protecting file systems from ransomware, data theft and more. We provide Behavior Based Access Controls (BBAC) allowing the system to monitor and immediately mitigate abnormal activity with your file systems. We offer many other features including Single Instancing of file systems.
