LILT for Law Enforcement

Enhancing Investigations with Secure, Adaptive
AI for Multilingual Intelligence

Quick Facts

- U.S.-headquartered, government-compliant platform with cleared personnel support
- Secure deployments proven on federal and law enforcement networks
- 100+ languages across text, video, speech, and imagery
- Real-time adaptive AI for translation, summarization, and content generation
- Trusted by federal agencies, law enforcement, and intelligence organizations worldwide

How It Works

- **Capture:** Apply OCR to detect and translate foreign text in seized images; generate transcripts and subtitles from video/audio.
- **Translate & Summarize:** Rapidly translate multilingual documents, communications, and intelligence; generate concise summaries in English for faster triage.
- **Communicate:** Draft multilingual reports, public safety alerts, and community outreach messages with AI-assisted generation, then validate with...

Why Choose LILT for Law Enforcement?

ACCELERATE INVESTIGATIONS

Turn days of manual translation into hours with adaptive AI and linguist review.

OPTIMIZE LINGUIST RESOURCES

Minimize routine work and maximize expertise in analysis and verification to optimize linguist resources.

STRENGTHEN NATIONAL SECURITY

Break down language barriers in evidence and intelligence to connect dots faster.

ENSURE SECURITY & COMPLIANCE

American-owned platform deployed on high-security networks

Deliver Mission Success

LILT empowers law enforcement agencies to process the overwhelming flow of multilingual data with speed, accuracy, and security. Our AI platform and expert linguists support investigators, analysts, and communicators alike—uncovering hidden context, accelerating intelligence workflows, and enabling secure multilingual communication when time matters most.

- **AI that learns:** Adaptive models improve in real time with human feedback.
- **Domain experts:** Cleared linguists and technical teams embedded in agency workflows.
- **Full-service delivery:** Secure deployments, dedicated support, and flexible licensing.

Full-service delivery: API, integrations, and proactive support for global operations.

Product Experience Details

- **Video & image exploitation:** Translate speech, subtitles, and embedded text from evidence
- **Rapid triage:** Process large volumes of seized documents, chat logs, and open-source content
- **Intelligence summarization:** Convert lengthy reports into concise, English-ready briefs
- **Multilingual content generation:** Draft outreach, safety alerts, and international requests
- **Secure deployment:** Deployments across hybrid, on-premises, and air-gapped environments—aligned with federal information security standards.

**Mission-Ready Multilingual
Capabilities for Law Enforcement**
