# Overview

## Mission

Secure mission-critical industrial environments from cyber attacks.

## Vision

Protected facilities, continuous operations.

## Strategic Problem

Industrial cyber attacks have tripled since 2021, with each incident causing an average of 7 days of crippling downtime.

IT security tools fail in OT environments, leaving production systems vulnerable.

Meanwhile, companies struggle for years trying to build OT defense capabilities.

## Our Solution

Galvanick delivers complete operational visibility across your OT environment, detecting active threats before impact.

Our platform generates actionable insights, eliminating alert fatigue and providing the context your team needs to respond decisively.

# Platform

## Complete Operational Visibility

<p><b>N Network Sensor:</b></p> <ul style="list-style-type: none"> <li>Industrial protocol monitoring</li> <li>Real-time threat detection</li> <li>Completely passive ingest</li> </ul>		<p><b>A Application Integration:</b></p> <ul style="list-style-type: none"> <li>Messaging integration</li> <li>Ticketing correlation</li> <li>Workflow automation</li> </ul>
