Modernize and Optimize Spend Management and Execution

The Coupa software platform helps government agencies efficiently manage procurement, invoicing and expenses to get the most out of annual budgets and ensure every dollar supports the mission.

Through a single, intuitive interface, you can plan, monitor and manage budgets to confidently answer questions like:

- “Do we have the funds to get through this continuing resolution?”
- “Are we meeting OMB’s requirements for preventing and recovering improper payments?”
- “Where are costs lagging? Which contracts are underperforming?”
- “Are we leveraging AI to get the best insights and analytics?”

3000+ enterprises and government agencies are using Coupa to modernize how they manage budgets, obligations, and costs.

Community intelligence helps USO to foster continuous improvement by reducing requisition approval time by half to 2 days.

"Community Intelligence helps provide dashboards that our CFO and CEO love, giving us visibility to identify improvement opportunities that we don't see anywhere else."

- Rick Quantance, Senior Director of Procurement and Contract Management, USO
